Lue Language Glossaries Texts And Translations:

William J. Gedney's The Lue Language William J. Gedney, 1996 Gedney using several informants compiled an extensive glossary of the Lue language complete with texts and translations Historical Dictionary of Thailand Gerald W. Fry, Gayla S. Nieminen, Harold E. Smith, 2013-08-08 Throughout its history Thailand has shown remarkable resiliency adaptability and creativity in responding to serious threats and crises and this since much earlier times when it was known as Siam This book while focusing on the modern period does reach back to ancient kingdoms but also shows the impressive rise to a modern democracy although still endowed with a king and even more impressively an economic tiger Moreover it has become a prime tourist destination and is thus known to vast numbers of foreigners as a sort of instant Asia The Historical Dictionary of Thailand now in its third edition covers this amazing story in various ways First the chronology traces the most significant events from year to year The introduction then provides a good overview of the land and people the history and traditions and where it now seems to be heading The dictionary which by now has hundreds of detailed and cross referenced entries looks more closely at important persons places institutions and events as well as more generally its politics economy society culture and religion So this is an excellent reference work not only for scholars but many others who have visited the country and were fascinated by it William J. Gedney's Comparative Tai Source Book Thomas John Hudak, 2007-12-03 This volume provides accurate and reliable data from 1 159 common cognates found in 19 dialects from the Tai language family Originally collected by noted Tai linguist the late William J Gedney the data are organized into the three branches of the Tai language family the Southwestern the Central and the Northern to facilitate comparisons among the various sound systems within the individual branches and within the Tai language family as a whole Supplementing the cognates are phonological descriptions of each of the dialects Included among the nineteen dialects are Siamese White Tai Black Tai Shan Lue Yay Saek and dialects found at Leiping Lungming Pingsiang and Ningming in China The meticulous attention paid to consonants vowels and tones found in each cognate will allow for further dialect studies for the investigation of questions concerning the tripartite division of the Tai language family and for the continuing investigation into the reconstruction of the Proto Tai language family and its wider genetic relationships Historical Dictionary of Thailand May Kyi Win, Harold E. Smith, Gayla S. Nieminen, 2005-10-04 Thailand has experienced extremely rapid economic growth and with that growth the increased social mobility and political democracy that comes with it As the only Southeast Asian country to have avoided colonization it still boasts a functioning monarchy remains close to its religious roots and clings to its cultural heritage The second edition of the Historical Dictionary of Thailand first provides an overview of the country in the introduction traces the long and complicated history in the chronology and goes into much greater detail in the dictionary Offering 64 new entries as well as updates and revisions to older ones the dictionary presents important persons places institutions and more in an easily accessible resource Significant recent events are discussed including the 1997 98 Thai economic crisis and its effects reforms of the

national government and the growth in political roles of both businessman and other middle class members In addition the book updates basic information relative to population growth urbanization and industrialization of the economy All this is topped off by nearly 20 Appendixes and a solid bibliography making this an essential reference tool **The Languages and Linguistics of Mainland Southeast Asia** Paul Sidwell, Mathias Jenny, 2021-08-23 The handbook will offer a survey of the field of linguistics in the early 21st century for the Southeast Asian Linguistic Area The last half century has seen a great increase in work on language contact work in genetic theoretical and descriptive linguistics and since the 1990s especially documentation of endangered languages The book will provide an account of work in these areas focusing on the achievements of SEAsian linguistics as well as the challenges and unresolved issues and provide a survey of the relevant major publications and other available resources We will address Survey of the languages of the area organized along genetic lines with discussion of relevant political and cultural background issues Theoretical descriptive and typological issues Genetic classification and historical linguistics Areal and contact linguistics Other areas of interest such as sociolinguistics semantics writing systems etc Resources major monographs and monograph series dictionaries journals electronic data bases etc Grammar sketches of languages representative of the genetic and structural diversity of the region

Kemp,2004 **Asian Borderlands** Charles Patterson Giersch,2006 With comparative frontier history and pioneering use of indigenous sources Giersch provides a groundbreaking challenge to the China centered narrative of the Qing conquest He focuses on the Tai domains of the Yunnan frontier on the politically fluid borderlands where local indigenous leaders were crucial actors in an arena of imperial rivalry *Crossroads* ,1999 **Killing a Buffalo for the Ancestors** David Holm,2003 **Cantonese GIVE and Double-Object Construction** Andy Chi-on Chin,2022-06-15 GIVE is a versatile morpheme in many languages While there have been extensive studies on the interplay between the syntax and semantics of GIVE in many languages not much has been done in a similar manner on Cantonese a member of the Yue dialect group of the Chinese language family This monograph reports on the study of GIVE and its associated functions and syntactic constructions in Cantonese from diachronic synchronic and typological perspectives Drawing on cross linguistic data and 19th century Cantonese dialect materials this study first traces the chronological development of the various functions played by GIVE in Cantonese It then examines the double object construction Besides the typological features of this construction in Cantonese this study investigates the use of the northern pattern in Cantonese as a result of the increasing influence of Putonghua and Modern Standard Chinese by means of a sociolinguistic survey with 40 native speakers of Cantonese **Ethnic Groups of Laos: Profiles of Sino-Tibetan-speaking peoples** Joachim Schliesinger,2003 *Michigan Papers on South and Southeast Asia* ,1971 **Ming-Southeast Asian Overland Interactions, 1368-1644** Laichen Sun,2000 Over the last fifty years Southeast Asia has been narrowly defined based on its modern political boundaries and when scholars look for external factors affecting Southeast Asian history the maritime approach has dominated This dissertation redresses these problems by defining a zone termed Northern Mainland Southeast Asia encompassing southern Yunnan northeast India and northern parts of mainland Southeast Asia and by focusing on Ming Southeast Asian overland interactions Utilizing a large number of primary sources in Chinese Vietnamese Tai and Burmese it examines the transfer of military technology from Ming China to Southeast Asia Ming China s political expansion overland trade and the migration of Han Chinese into Northern Mainland Southeast Asia It argues that the overland stimuli especially military technology and trade from Ming China contributed to the emergence of Northern Mainland Southeast Asia between the 1430s and 1530s which was epitomized in the rise of the

Dai People's Indigenous Knowledge System of Communal Irrigation Vinya Sysamouth, 2005 **Manusya**, 2014 **Chronicles of Chiang Khaeng** Volker

Grabowsky, Rēnū Wichāsin, 2008 *Chronicles of Chiang Khaeng* goes far beyond a mere annotated translation of four Lu chronicles The polyglot co authors Grabowsky and Wichasin take the annotations out of their meticulously researched footnotes of the translation proper and deftly integrate them into a history not only of a principality in northwestern Laos but a panorama of the jostlings for power among other Chiang and their respective Chao in the upper Mekong region This geographic area outlines a cultural realm that shared Buddhist ethics and dhammic writing while also subscribing to the notion of hierarchy reinforced by demands for tribute the display of regalia and pomp and the brutal armed removal of local populations in incessant wars over human resources Myth and history merge in these chronicles which document sibling and spousal rivalries in networks of intermarriage and political alliances among the elite of the region All of this was taking place at a time in history when the British and French arrived on the scene to engage China and newly emerging Siam in a mapping exercise that brought an end to centuries of regional rule by previously fairly autonomous city states In this careful study Chiang Khaeng emerges as a paradigm of a Southeast Asian tributary state with more than one overlord *Chronicles* is a model of translation skill and historical acumen at its finest *Mon-Khmer: Peoples of the Mekong Region* Ronald

D. Renard, Kr. Anchalee Singhanetra Renard, 2015-03-01 The Mon Khmer project took a long journey before it was turned into a final product the first comprehensive collection of articles on Mon Khmer peoples of the Mekong Region The project was started in 2001 by the first editor of the book Dr Ronald D Renard who unfortunately did not see the final product of his valuable work During 1995 1996 Dr Ron Renard as the manager of the UNDP Highland People project and I travelled to Northeast Cambodia Vietnam and Laos to explain to representatives of ethnic communities the aim of the project and how the ethnic minorities many of whom are Mon Khmer could be involved and benefit from it It may well be that this encounter with these ethnic groups made him expand his intellectual interest to study them in addition to the Karen in Thailand whose history of integration into the Siamese state he had studied for his dissertation completed in 1980 According to my last conversation with Ron it was during the time when he worked for the Journal of Siam Society in the late 1990s that he decided to embark upon the Mon Khmer project which preoccupied the last part of his academic life
