Making Gay History The Half Century Fight For Lesbian And Gay Equal Rights:

Making Gay History Eric Marcus, 2009-03-17 Rich and often moving at times shocking but often enlightening and inspiring oral history at its most potent and rewarding Kirkus Reviews A completely revised and updated edition of the classic volume of oral history interviews with high profile leaders and little known participants in the gay rights movement that cumulatively provides a powerful documentary look at the struggle for gay rights in America From the Boy Scouts and the U S military to marriage and adoption the gay civil rights movement has exploded on the national stage Eric Marcus takes us back in time to the earliest days of that struggle in a newly revised and thoroughly updated edition of *Making History* originally published in 1992 Using the heartfelt stories of more than sixty people he carries us through a compelling five decade battle that has changed the fabric of American society The rich tapestry that emerges from *Making Gay History* includes the inspiring voices of teenagers and grandparents journalists and housewives from the little known Dr Evelyn Hooker and Morty Manford to former vice president Al Gore Ellen DeGeneres and Abigail Van Buren Together these many stories bear witness to a time of astonishing change as queer people have struggled against prejudice and fought for equal rights under the law

Steven Petrow's Complete Gay & Lesbian Manners Steven Petrow, 2011-01-01 Presents information and etiquette advice on questions including coming out dating tying the knot and starting a family

Queering Gay and Lesbian Studies Thomas Piontek, 2010-10-01 *Queering Gay and Lesbian Studies* is a broadly interdisciplinary study that considers a key dilemma in gay and lesbian studies through the prism of identity and its discontents the field studies has modeled itself on ethnic studies programs perhaps to be intelligible to the university community but certainly because the ethnic studies route to programs is well established Since this model requires a stable and identifiable community gay and lesbian studies have emphasized stable and knowable identities The problem of course is that sexuality is neither stable tidy nor developmental With the advent of queer theory there are now other perspectives available that frequently find themselves at odds with traditional gay and lesbian studies In this pioneering new study Thomas Piontek provides a critical analysis of the development of gay and lesbian studies alongside the development of queer theory the disputes between them and criticism of their activities from both in and outside of the gay academic community Examining disputes about transgenering gay male promiscuity popular culture gay history political activism and non normative sexual practices Piontek argues that it is vital to queer gay and lesbian studies opening this emerging discipline to queer critical interventions without however further institutionalizing queer theory

The Path to Gay Rights Jeremiah J. Garretson, 2018-06-05 A data driven explanation of how public opinion shifted on LGBTQ rights Amazon com

Gay and Lesbian Rights David E. Newton, 2009-10-27 This thoroughly updated edition provides readers with the background and resources needed to understand one of the greatest civil rights issues of our time When it was first published in 1994 *Gay and Lesbian Rights A Reference Handbook* was acclaimed in *School Library Journal* for taking a sober and balanced approach in addressing this

emotionally charged and complex topic The new edition shows just how far the nation has come in securing legal protections regardless of sexual orientation and how far we still have to go Gay and Lesbian Rights A Reference Handbook Second Edition provides a history of the gay liberation and gay rights movements in the United States and other parts of the world Maintaining the careful approach of the first edition it addresses a range of current issues from housing and employment discrimination to military service to same sex marriage and adoption laws Wholly rewritten with almost 80 percent new material it is the ideal introduction to one of the most important civil rights issues in the world today Rainbow Theology Patrick S. Cheng, 2013-04-01 To date no book has systematically examined the theological writings of LGBT people of color Nor has any book explored how such writings might actually transform contemporary theological reflections on race and sexuality This book remedies these gaps by constructing a rainbow theology around the theme of bridging or mediation Rainbow Theology is the first book to reflect upon the theological significance of the intersections of race and queer sexuality across multiple ethnic and cultural groups This is particularly important in light of the current polarizing debates over issues of race sexuality and religion within churches and communities of faith around the world *LGBTQ Americans in the U.S. Political System* Jason Pierceson, 2019-11-11 This comprehensive sourcebook covers the evolution of LGBTQ engagement in American politics from the emergence of gay rights as a political issue in the early 1970s to the present day when LGBTQ issues occupy a prominent place in politics This work provides a broad and authoritative survey of the ways in which gay Americans are influencing the tenor and trajectory of U S politics at the local state and national levels An encyclopedic section offers thorough coverage of all of the individuals organizations cultural forces political issues and legal decisions that have combined to elevate the role of LGBTQ people at the ballot box on the campaign trail in Washington and in mayors offices city councils and school boards across the country Complementing reference entries are in depth essays on the rising prominence of gay Americans as voters candidates public officials lawmakers and opinion leaders providing further context for understanding their impact on modern U S political processes and institutions from the perspective of liberals and conservatives alike Finally the set includes a collection of important primary source documents that illuminate landmark events examine gay policy priorities and preferences and showcase the beliefs and experiences of prominent LGBTQ Americans in the world of politics **Globalized Religion and Sexual Identity**, 2014-04-24 Globalized Religion and Sexual Identity reflects on the ways religion gender and sexual identity are framed and regulated in multiple spheres across the globe Controversies in the public arena regarding religion and sexual identity often construct these categories as inherently oppositional or already in conflict As state policies regarding sexuality and sexual diversity develop promoting inclusivity and non discrimination it is imperative to develop a more nuanced discussion regarding the relationship of religion ideology to sexual diversity and sexuality The goal of this volume is to explore religion and sexual identity from a range of countries across the globe focusing on the theme of religious ideological voices in state policies such as same sex marriage

Charles, 2015-09-18 At the FBI the Sex Deviates program covered a lot of ground literally at its peak J Edgar Hoover s notorious Sex Deviates file encompassed nearly 99 cubic feet or more than 330 000 pages of information In 1977 1978 these files were destroyed and it would seem that four decades of the FBI s dirty secrets went up in smoke But in a remarkable feat of investigative research synthesis and scholarly detective work Douglas M Charles manages to fill in the yawning blanks in the bureau s history of systematic some would say obsessive interest in the lives of gay and lesbian Americans in the twentieth century His book Hoover s War on Gays is the first to fully expose the extraordinary invasion of US citizens privacy perpetrated on a historic scale by an institution tasked with protecting American life For much of the twentieth century when exposure might mean nothing short of ruin gay American men and women had much to fear from law enforcement of every kind but none so much as the FBI with its inexhaustible federal resources connections and its carefully crafted reputation for ethical by the book operations What Hoover s War on Gays reveals rather is the FBI s distinctly unethical off the books long term targeting of gay men and women and their organizations under cover of official rationale such as suspicion of criminal activity or vulnerability to blackmail and influence The book offers a wide scale view of this policy and practice from a notorious child kidnapping and murder of the 1930s ostensibly by a sexual predator with homosexual tendencies educating the public about the threat of deviates through WWII s security concerns about homosexuals who might be compromised by the enemy to the Cold War s Lavender Scare when any and all gays working for the US government shared the fate of suspected Communist sympathizers

Charles's work also details paradoxical ways in which these incursions conjured counterefforts like the Mattachine Society, ONE Inc and the Daughters of Bilitis aimed at protecting and serving the interests of postwar gay culture. With its painstaking recovery of a dark chapter in American history and its new insights into seemingly familiar episodes of that story involving noted journalists, politicians and celebrities, this thorough and deeply engaging book reveals the perils of authority run amok and stands as a reminder of damage done in the name of decency.
