humanity and social justice that result in justice for all persons *The Encyclicals of John Paul II* Catholic Church. Pope (1978-2005 : John Paul II), Pope John Paul II, 1996 A study of Pope John Paul II's encyclicals reveals the vision and strategy of his pontificate It is a vision which at once recalls the mysteries of faith and appeals to all men and women of good will to build the future on a firm spiritual and ethical foundation *Religion, Economics, and Public Policy* Andrew D. Walsh, 2000-06-30 As Americans seem bent on dismantling the safety net of the New Deal era the most popular version of the culture wars thesis paints an arguably cosmic battle between defenders of religious orthodoxy who embrace laissez faire capitalism and secular elites who have imposed a Marxist welfare state upon an unsuspecting populace Walsh shows that this thesis ignores the role of religious leaders in legitimizing the types of programs embodied in America's approach to the welfare state Walsh explores the arguments of William Jennings Bryan America's foremost fundamentalist who opposed the Social Darwinism often associated with the defense of laissez faire capitalism John Ryan the Catholic priest whose writings foreshadowed Roosevelt's New Deal legislation Reinhold Niebuhr the influential mainstream Protestant leader who defended America's Cold War strategy of containment while opposing laissez faire capitalism and the arguments of influential African American Protestant and Jewish leaders Finally he looks at the role of religious leaders in the contemporary debates over issues such as health care and welfare reform Whenever possible the relationship between the official views of the religious leaders is analyzed in light of the opinions and voting patterns of their constituents The opinions and voting patterns of secular Americans are also contrasted to those of religious Americans Of particular interest to scholars students and general readers concerned with the role of religion in American politics *Mary's Pope* Antoine Nachev, 2000 Rooted in Scripture Tradition and Redemptoris Mater and other encyclicals this book lays the foundations for understanding the teachings of the Catholic Church concerning Mary **Christ, Power and Mammon** Scott Thomas Prather, 2013-08-15 This book examines the role of the New Testament concept of the principalities and powers in the thought of Karl Barth and John Howard Yoder showing how this biblical concept of power is central to the fundamental theological convictions of each thinker Prather offers a scholarly account of the underexplored theological and ethical import of a major biblical theme and the book addresses questions and concerns from a wide range of academic and lay theological interest He brings Barth and Yoder into dialogue here and examines the three crucial areas the confessional distinction of church and world the demonization of political power and the intrinsic relation between the political and economic powers While other theologians have rightly identified a christocentric connection between the thought of Barth and Yoder no attempt has been made to bring them together through the sustained analysis of a single doctrinal or ethical issue this book does just that **Christianity and Ecological Theology** E. M. Conradie, 2006-10-01 There has been a proliferation of publications in the field of Christian ecological theology over the last three decades or so These include a number of recent edited volumes each covering a range of topics and consolidating many of the emerging insights in ecological theology The call for Christian churches to respond to
