the truth when trying to create a two hour piece of entertainment In Bringing History to Life through Film The Art of Cinematic Storytelling Kathryn Anne Morey brings together essays that explore the controversial issue of film as a purveyor of history Examining a range of films including highly regarded features like The Last of the Mohicans and Pan s Labyrinth as well as blockbuster franchises like Pirates of the Caribbean chapters demonstrate that the debate surrounding the role of history on film is still as raw as ever Organized in five sections these essays discuss the myths and realities of history as they are portrayed on film from Nostalgic Utopias to Myths and Fairy Tales The fourteen chapters shed light on how films both convey and distort historical realities to capture the essence of the past rather than the past itself Ultimately they consider what role cinema plays as the quintessential historical storyteller In addition to cinema and media studies this book will appeal to scholars of history and fans of a wide range of cinematic genres *Geographers: Biobibliographical Studies* ,1991
