Making Of The French Episcopate 1589 1661:

The Making of the French Episcopate, 1589-1661 Dr Joseph Bergin, Joseph Bergin, 1996-01-01 This major work written by one of the leading historians of France's ancien regime is the first in depth study of the French upper clergy during the key period of the Catholic Reformation following the Council of Trent In describing the creation character and role of these early French bishops it also sheds light on social mobility education the career patterns and prospects of particular groups the workings of patronage and clientage networks and the wider dimensions of royal policy and patronage at this time Joseph Bergin begins by analysing the structures of the French church and the process by which individuals were nominated and confirmed as bishops He then presents a collective profile of these bishops in terms of their social and geographical origins educational attainments and pre episcopal careers Bergin examines royal patronage in relation to episcopal office tracing the successive pressures with which the crown had to deal in the wider social and political world In particular he shows how the crown painfully and gradually recovered control of church patronage after the low point of the religious wars reducing the grip of the nobility on large numbers of dioceses He also examines how reforming pressures were brought to bear on the crown to appoint bishops who met the standards of the counter reformation church and how the crown became increasingly in tune with these reformist pressures He concludes by explaining particular features of the French episcopate within a wider European context The book the result of years of research in French and Italian archives includes an extensive biographical dictionary that will make it an invaluable reference for all French historians of the period

Purgatory and Piety in Brittany 1480-1720 Elizabeth C. Tingle, 2016-04-15 The concept of Purgatory was a central tenet of late medieval and early modern Catholicism and proved a key dividing line between Catholics and Protestants However as this book makes clear ideas about purgatory were often ill defined and fluid and altered over time in response to particular needs or pressures Drawing upon printed pamphlets tracts advice manuals diocesan statutes and other literary material the study traces the evolution of writing and teaching about Purgatory and the fate of the soul between 1480 and 1720 By examining the subject across this extended period it is argued that belief in Purgatory continued to be important although its role in the scheme of salvation changed over time and was not a simply a story of inevitable decline Grounded in a case study of the southern and western regions of the ancien regime province of Brittany the book charts the nature and evolution of private intercessory institutions chantries obits and private chapel foundation and public forms parish provision confraternities indulgences and veneration of saints In so doing it underlines how the huge popularity of post mortem intercession underwent a serious and rapid decline between the 1550s and late 1580s only to witness a tremendous resurgence in popularity after 1600 with traditional practices far outstripping the levels of usage of the early sixteenth century Offering a fascinating insight into popular devotional practices the book opens new vistas onto the impact of Catholic revival and Counter Reform on beliefs about the fate of the soul after death

Patriot and Priest Annette Chapman-Adisho, 2019-12-12 In 1790 the French

revolutionary government reformed the Catholic Church and demanded that clerics swear an oath of allegiance to the nation and its vision for French Catholicism. Although half of France's parish clergy refused to accept the state-sponsored reforms, others became embroiled in this decade-long ecclesiastical experiment. This included Jean Baptiste Volfius, a patriot priest and professor who embraced the changes in France and believed in the revolution's potential to create a purer church. *Patriot and Priest* presents a social and intellectual history of the French constitutional church in the C te d Or and the career of Volfius who became its bishop in 1791 as he struggled to create and run the church. Annette Chapman Adisho addresses the daily experience of the constitutional clergy over the course of ten years, exploring the interactions between priests and local and national authorities, the response of the laity to the divisions in the French Catholic Church, the evolution of these issues over time, and the eventual reconciliation of the clergy following the Napoleonic Concordat with Pope Pius VII in 1801. Using a rich collection of archival sources, this book demonstrates that although the constitutional church was ultimately a failed project, its legacy had a lasting impact on the Catholic Church in France. Tracing the social, political, and theological history of this reform effort, *Patriot and Priest* offers new insights into the French Revolution and its impact on French Catholicism.

Richelieu and Mazarin David Sturdy, 2017-03-14 Drawing upon recent research and past studies, David J. Sturdy presents a concise, up-to-date analysis of the private and public careers of two of the most influential ministers in seventeenth-century France: Richelieu and Mazarin. Adopting a broadly chronological approach interspersed with passages at relevant points, which compare and contrast the key achievements of the two Cardinals, it examines such central themes as the internal government of France, the ministers' conduct of foreign policy, and the nature of elite and popular resistance to their policies. It explores the political ideas and strategies of Richelieu and Mazarin, the relations between the ministers and the Crown, and the patronage they exercised. The book concludes with a comparative assessment of the significance of the two figures for the history of France.

Pierre de L'Estoile and His World in the Wars of Religion Tom Hamilton, 2017 The Wars of Religion embroiled France in decades of faction, violence, and peacemaking in the late sixteenth century. When historians interpret these events, they inevitably depend on sources of information gathered by contemporaries, none more valuable than the diaries and collection of Pierre de L'Estoile, 1546-1611, who lived through the civil wars in Paris and shaped how they have been remembered ever since. Taking him out of the footnotes and demonstrating his significance in the culture of the late Renaissance, this is the first life of L'Estoile in any language. It examines how he negotiated and commemorated the conflicts that divided France as he assembled an extraordinary collection of the relics of the troubles, a collection that he called the storehouse of my curiosities. The story of his life and times is the history of the civil wars in the making. Focusing on a crucial individual for understanding Reformation Europe, this study challenges historians' assumptions about the widespread impact of confessional conflict in the sixteenth century. L'Estoile's prudent, non-confessional responses to the events he lived through and recorded were common among his milieu of Gallican Catholics. His life, writing, and engagement with contemporary news

books and pictures reveals how individuals used different genres and media to destabilize rather than fix confessional identities Bringing together the great variety of topics in society and culture that attracted L Estoile s curiosity this volume rethinks his world in the Wars of Religion *Indulgences after Luther* Elizabeth C Tingle,2015-10-06 Indulgences have been synonymous with corruption in the Catholic Church ever since Martin Luther nailed his ninety five theses to the church door in Wittenberg in 1517 Tingle explores the nature and evolution of indulgences in the Counter Reformation and how they were used as a powerful tool of personal and institutional reform **Episcopal Reform and Politics in Early Modern Europe**

Jennifer Mara DeSilva,2012-09-18 In the tumultuous period of the sixteenth and seventeenth centuries when ecclesiastical reform spread across Europe the traditional role of the bishop as a public exemplar of piety morality and communal administration came under attack In communities where there was tension between religious groups or between spiritual and secular governing bodies the bishop became a lightning rod for struggles over hierarchical authority and institutional autonomy These struggles were intensified by the ongoing negotiation of the episcopal role and by increased criticism of the cleric especially during periods of religious war and in areas that embraced reformed churches This volume contextualizes the diversity of episcopal experience across early modern Europe while showing the similarity of goals and challenges among various confessional social and geographical communities Until now there have been few studies that examine the spectrum of responses to contemporary challenges the high expectations and the continuing pressure bishops faced in their public role as living examples of Christian ideals Contributors include William V Hudon Jennifer Mara DeSilva Raymond A Powell Hans Cools Antonella Perin John Alexander John Christopoulos Jill Fehleison Linda Lierheimer Celeste McNamara Jean Pascal Gay

The Refashioning of Catholicism, 1450-1700 Robert Bireley,1999 Throughout its history Christianity has adapted to contemporary society and culture in order to reach people effectively and have an impact on the world This process often evokes controversy Certainly this is the case in the current century and so it was in the sixteenth Robert Bireley argues that early modern Catholicism the period known more traditionally as the Counter Reformation was both shaped by and an active response to the profound changes of the sixteenth century the growth of the state economic expansion and social dislocation European colonialism across the seas the Renaissance and of course the Protestant Reformation Bireley finds that there were two fundamental contrasting desires that helped shape early modern Catholicism the desire especially of a lay elite to lead a full Christian life in the world and the widespread desire for order and discipline after the upheavals of the long sixteenth century He devotes particular attention to new methods of evangelization in the Old World and the New education at the elementary secondary and university levels the new active religious orders of women as well as men and the effort to create a spirituality for the Christian living in the world This book will be of great value to all those studying the political social religious and cultural history of the period ABOUT THE AUTHOR Robert Bireley S J is professor of history at Loyola University Chicago He is the author of three books including *The Counter Reformation Prince Antimachiavellianism or*

Catholic Statecraft in Early Modern Europe and Politics and Religion in the Age of the Counterreformation Emperor Ferdinand II William Lamormaini S J and the Formation of Imperial Policy as well as a number of articles on early modern European History PRAISE FOR THE BOOK Bireley has produced a fine new survey of the history of Catholicism in the early modern period He targets his reassessment of the Counter Reformation at advanced undergraduates and the general public He has served them well This book should be considered required reading for all those who teach about the early modern world at any level whether from a historical theological or cultural perspective Theological Studies This book is an excellent introduction to the topic It is thorough yet concise and written clearly It would be appropriate for use as a text for colleges or seminaries and could easily be appropriated and appreciated by adult study groups or adults interested in knowing more about how their faith has been fashioned by the society in which it has lived and how in turn their faith has fashioned society Highly recommended Catholic Library World The learned Jesuit author of this concise textbook is well known for his studies in English and German on the relations of Catholic counsellors especially members of the Society of Jesus and statesmen of early modern Europe and on Catholic statecraft at that time more generally Bireley argues for a period of Catholic renewal which for all its special intensity was not in any sense a mere reaction to or product of the Protestant challenge There is stress here on institutional change involving popes bishops and clergy on new forms of spirituality both in more traditional regular communities and in innovative groups pursuing a more active form of religious commitment and on advances in Catholic education for laity as well as clergy females as well as males Catholic Historical Review The Search for the Man in the Iron Mask Paul Sonnino, 2016-01-07 The Search for the Man in the Iron Mask triumphantly solves an enduring puzzle that has stumped historians for centuries and seduced novelists and filmmakers to this day Who was the man who was rumored to have been kept in prison and treated royally during much of the reign of Louis XIV while being forced to wear an iron mask Could he possibly have been the twin brother of the Sun King Like every other serious scholar intrepid historian Paul Sonnino discounts this theory instead taking the reader along on his adventures to uncover the truth behind this ancient enigma Exploring the hidden squalid side of the lavish court of France the author uncovers the full spectrum of French society from humble servants to wealthy merchants to kings and queens All had self interested reasons to hold their secrets close until one humble valet named Eustache Dauger was arrested and jailed for decades simply because he knew too much and opened his mouth at the wrong time Presenting his dramatic solution to the mystery Sonnino convincingly shows that no one will be able to tell the story of the man in the iron mask without taking into account the staggering array of evidence he has uncovered over the course of decades *Queen's Apprentice* Joseph F. Patrouch, 2010 This study seeks to examine a number of themes relating to the roles of the women s court of the central European Habsburgs These include its role in helping consolidate their holdings in central Europe and the Holy Roman Empire and structure their relations with the rest of Europe
