Making A New People Education In Revolutionary Cuba:

Making a New People Theodore Harney MacDonald, 1985 The People's Professors of Cuba Kate Moody, 2018-12-11

The People's Professors How Cuba Achieved Education for All describes how Cuba managed in spite of scarce resources to successfully educate its entire population after the revolution in 1959. It details how illiterate peasants learned to read and write, how the nation's vision of education was developed, how the national school system was doubled in size, thousands of teachers were educated, and now how Cuba is entering the realm of digital media and the internet. The people of Cuba can read and write better than the citizens of most countries, including the United States. Moreover, Cubans excel on international measures of math, science, the arts, and healthcare. This book considers Cuba's schools as well as its integrated systems such as healthcare and community mental health and makes a case for the principles that education is a human right and that teaching is the responsibility of everyone.

Understanding Cuba as a Nation Rafael E. Tarragó, 2017-01-20

Since 1959, the government of the Caribbean island of Cuba, 90 miles away from the United States of America, has defied its powerful neighbor. The story of the improbable survival of the Cuban Revolutionary Government in its struggle against the most powerful country in the world has kept international attention on Cuba for more than half a century, but it has also overshadowed the brilliance of the hybrid culture developed in the island since the Spanish conquerors brought Western civilization to the Americas 500 years ago. Rafael E. Tarragó pays due attention to the first four hundred years after the arrival of the Spaniards in the island, showing that a Cuban nation had developed from the European and African settlers with the indigenous population before the creation of the Cuban Republic in 1902. He describes the accomplishments and failures of that Republic that made possible the rise of the Cuban Revolutionary Government. He concludes with a look at accomplishments and the shortcomings of that self-proclaimed Marxist-Leninist government, its troubled relation with the United States, and the global revolutionary mission that it has embraced since its inception.

Understanding Cuba as a Nation is a detailed yet accessibly written exploration of the history of Cuba since the Spanish conquest of 1511, that illustrates the development of the Cuban nation and summarizes the accomplishments of Cubans since the 16th century in the arts, literature, and science.

Patriots and Traitors in Revolutionary Cuba, 1961-1981 Lillian Guerra, 2023-01-17

Authorities in postrevolutionary Cuba worked to establish a binary society in which citizens were either patriots or traitors. This all-or-nothing approach reflected in the familiar slogan *patria o muerte* (fatherland or death) has recently been challenged in protests that have adopted the theme song *patria y vida* (fatherland and life), a collaboration by exiles that predictably has been banned in Cuba itself. Lillian Guerra excavates the rise of a Soviet-advised Communist culture controlled by state institutions and the creation of a multidimensional system of state security whose functions embedded themselves into daily activities and individual consciousness, and reinforced these binaries. But despite public performance of patriotism, the life experience of many Cubans was somewhere in between. Guerra explores these in-between spaces and looks at Cuban citizens' complicity.

Under the Revolution Eusebio Mujal-LeÃ³n,1988-01-01 Operation Pedro Pan and the Exodus of Cuba's Children Deborah Shnookal,2022-06-28 This in depth examination of one of the most controversial episodes in U S Cuba relations sheds new light on the program that airlifted 14 000 unaccompanied children to the United States in the wake of the Cuban Revolution Operation Pedro Pan is often remembered within the U S as an urgent rescue mission but Deborah Shnookal points out that a multitude of complex factors drove the exodus including Cold War propaganda and the Catholic Church s opposition to the island s new government Shnookal illustrates how and why Cold War scare tactics were so effective in setting the airlift in motion focusing on their context the rapid and profound social changes unleashed by the 1959 Revolution including the mobilization of 100 000 Cuban teenagers in the 1961 national literacy campaign Other reforms made by the revolutionary government affected women education religious schools and relations within the family and between the races

Shnookal exposes how in its effort to undermine support for the revolution the U S government manipulated the aspirations and insecurities of more affluent Cubans She traces the parallel stories of the young Pedro Pans separated from their families in some cases indefinitely in what is often regarded in Cuba as a mass kidnapping and the children who stayed and joined the literacy brigades These divergent journeys reveal many underlying issues in the historically fraught relationship between the U S and Cuba and much about the profound social revolution that took place on the island after 1959 Publication of the paperback edition made possible by a Sustaining the Humanities through the American Rescue Plan grant from the National Endowment for the Humanities
