Lucie Genay, 2025-05-13 Pantex was built during World War II near the town of Amarillo Texas The site was converted early in the Cold War to assemble nuclear weapons and produce high explosives For nearly fifty years Pantex has been the sole assembly and disassembly plant for nuclear weapons in the United States Today most of the activities of the plant consist of the manufacture of high explosive components and the dismantlement or life extension of weapons including retrofitting aging warheads in the United States s arsenal Unlike the much more famous nuclear weapons production sites at Los Alamos Oak Ridge Hanford and Rocky Flats the Pantex plant has drawn little attention hidden under a metaphoric cap of invisibility Lucie Genay now lifts that invisibility cap to give the world its first in depth look at Pantex and the people who have spent their lives as neighbors and employees of this secretive industry The book investigates how Pantex has impacted local identity by molding elements of the past into the guaranty of its future and its concealment It further examines the multiple facets of Pantexism the reasons for embracing nuclear weapons production as a solution to economic woes the resulting dependence on this industry and the unconditional support for the facility through the voices of native and adoptive Panhandlers [The Prospect of Nuclear Jihad in South Asia](#) Musa Khan Jalalzai, 2015-10-01

When we talk about Pakistan s nuclear weapons armed forces and civilian governments then controversies and uninvited misperceptions swirl in our minds If we take in the broad picture we inevitably conclude that not all is going in the right direction in the country and that is because the army politicians and the establishment perceive jihadism as a profitable business They run this business of killings and torture through their proxies While we study the militarized mind of Pakistani generals and recognize their resentment towards civilian governments we find more controversies about the role of armed forces and their relationship with worldwide terrorist organizations International journalist Musa Khan Jalalzai is ideally positioned to present us with a picture of what is actually afoot and what it means for the future When we study the militarized mind of Pakistani generals and recognize their resentment towards civilian institutions we find more controversies about the role of armed forces and their relationship with worldwide terrorist organizations The Pakistan military controls the financial market stock exchange real estate business banking sector and smuggling of narcotics Ethnic representation within the armed forces raises serious concerns Some experts say this is not a national army but view it as the club of Pashtun and Punjabi generals The army has failed to develop a true ethnic representation process or motivate Baloch and Sindhis to join the armed forces but they certainly have gained experience in killing innocent civilians Then there is the question of the Saudi investment in Pakistan s Islamic nuclear bomb Saudi Arabia s link with Pakistan s nuclear and missile program has long been the source of speculation that Pakistan might either station nuclear forces on Saudi sand or provide a nuclear umbrella to the Wahabi state

in return for oil supply or that the Saudis would purchase nuclear weapons from Pakistan International journalist Musa Khan Jalalzai is ideally positioned to present us with a picture of what is actually afoot and what it means for the future
