inexperienced morally under developed and lack good judgement For these reasons they cannot possibly be allowed to engage in the serious grown up business of politics Yet in just one of the many contradictions young people are criticised by many of their elders for being politically apathetic and disengaged from politics Many think recent global warming movements largely led by quite young people are a novel phenomenon Yet young people have been at the forefront of political movements of all kinds since the French Revolution Since the 1960s children and young people increasingly played a major if sometimes obscured role in civil rights anti war anti globalisation anti austerity and global warming movements This accessible book is rich in theoretical and historical insight that is sure to appeal to sociologists historians youth studies scholars and political scientists as well as to the general reader
