*Making Meaning with Texts* Louise Michelle Rosenblatt, 2005 This book brings together some of Rosenblatt's most important work essays from the 1930s through the 1990s that explore the breadth and depth of her theory **Making Meaning with Readers and Texts** Christi U. Edge, 2022-11-18 Connecting the constructs of meaning and experience in the fields of English education teacher education literacy and narrative inquiry *Making Meaning with Readers and Texts* broadens understandings of teachers' use of literacy practices for making meaning from classroom events **Making Meaning** Marilyn Narey, 2008-11-07 *Making Meaning* is a synthesis of theory research and practice that explicitly presents art as a meaning making process This book provokes readers to examine their current understandings of language literacy and learning through the lens of the various arts based perspectives offered in this volume provides a starting point for constructing broader multimodal views of what it might mean to make meaning and underscores why understanding arts based learning as a meaning making process is especially critical to early childhood education in the face of narrowly focused test driven curricular reforms Each contributor integrates this theory and research with stories of how passionate teachers teacher educators and pre service teachers along with administrators artists and professionals from a variety of fields have transcended disciplinary boundaries to engage the arts as a meaning making process for young children and for themselves

Gracyk champions the contextual relevance of the performer as well as novel messaging through creative repurposing of recordings Extending the philosophical insight that meaning is a function of use Gracyk explains how both the performance persona and the personal life of a song's performer can contribute to or undercut ethical and political aspects of a performance or recording Using Carly Simon's 'You're So Vain' Pink Floyd the emergence of the musical genre of post punk and the practice of cover versions Gracyk explores the multiple sometimes contradictory notions of authenticity applied to popular music and the conditions for meaningful communication He places popular music within larger cultural contexts and examines how assigning a performance or recording to one music genre rather than another has implications for what it communicates Informed by a mix of philosophy of art and philosophy of language Gracyk's entertaining study of popular music constructs a theoretical basis for a philosophy of meaning for songs *Academic Achievers* Pierre W.

Orelus,2010-01-01 It is ironic that our ever present preoccupation with closing the achievement gap is insufficiently articulated in current federal education policy To this end Pierre Orelus study cogently underscores the fruitfulness of caring teachers persistence in bridging the all too frequent gulf that exists between school and community together with an apprenticeship model that saturates youth in academic discourses This is an encouraging and inspiring read Angela Valenzuela College of Education University of Texas at Austin author of Subtractive Schooling and Leaving Children Behind

**Making Meaning of Narratives** Ruthellen Josselson,Amia Lieblich,1999-04-05 The most challenging aspect of narrative research is to find and select stories that go beyond a good story to some kind of wider theoretical meaning or implication How can we know what is good work in narrative research if there are no methodological commandments How can nonlinear concepts such as persuasiveness credibility and insightfulness be measured Exploring these provocative questions the contributors to this volume examine such issues as the various guides to doing qualitative research how scholars from two different disciplines psychology and literature respond to an analysis of several autobiographies that were published and analyzed by a third scholar how to make meaning of narrative interviews by considering the problem of interpreting what is not said how cultural meanings and values particularly about gender are transmitted across generations the transformational power of stories within social organizations and the use of these stories as an agent of change and more The papers in this volume come from five countries United States Finland Holland Israel and England and five disciplines criminology literature studies nursing psychology and sociology These chapters will spur and support the quest for understanding through narrative and reflect the many ways to approach this type of research **Developing Literacy in the Secondary**
