**Trust in Black America** Shayla Nunnally, 2023-11-21 The more citizens trust their government the better democracy functions However African Americans have long suffered from the lack of equal protection by their government and the racial discrimination they have faced breaks down their trust in democracy Rather than promoting democracy the United States government has from its inception racially discriminated against African American citizens and other racial groups denying them equal access to citizenship and to protection of the law Civil rights violations by ordinary citizens have also tainted social relationships between racial groups social relationships that should be meaningful for enhancing relations between citizens and the government at large Thus trust and democracy do not function in American politics the way they should in part because trust is not color blind Based on the premise that racial discrimination breaks down trust in a democracy *Trust in Black America* examines the effect of race on African Americans' lives Shayla Nunnally analyzes public opinion data from two national surveys to provide an updated and contemporary analysis of African Americans' political socialization and to explore how African Americans learn about race She argues that the uncertainty risk and unfairness of institutionalized racial discrimination has led African Americans to have a fundamentally different understanding of American race relations so much so that distrust has been the basis for which race relations have been understood by African Americans Nunnally empirically demonstrates that race and racial discrimination have broken down trust in American democracy

**Black Masculinity and the U.S. South** Riché Richardson, 2010-01-25 This pathbreaking study of region race and gender reveals how we underestimate the South's influence on the formation of black masculinity at the national level Many negative stereotypes of black men often contradictory ones have emerged from the ongoing historical traumas initiated by slavery Are black men emasculated and submissive or hypersexed and violent Nostalgic representations of black men have arisen as well think of the philosophical hardworking sharecropper or the abiding upright preacher To complicate matters says Rich Richardson blacks themselves appropriate these images for purposes never intended by their mostly white progenitors Starting with such well known caricatures as the Uncle Tom and the black rapist Richardson investigates a range of pathologies of black masculinity that derive ideological force from their associations with the South Military policy black liberation discourse and contemporary rap she argues are just some of the instruments by which egregious pathologies of black masculinity in southern history have

been sustained Richardson's sources are eclectic and provocative including Ralph Ellison's fiction Charles Fuller's plays Spike Lee's films Huey Newton's and Malcolm X's political rhetoric the O J Simpson discourse and the music production of Master P the Cash Money Millionaires and other Dirty South rappers Filled with new insights into the region's role in producing hierarchies of race and gender in and beyond their African American contexts this new study points the way toward more epistemological frameworks for southern literature southern studies and gender studies
