Uniting the Kingdom? Alexander Grant, Keith Stringer, 2002-11 A group of Britain's most prestigious historians assemble to explore the formation of the UK its history and its identity Traditional regional and chronological frontiers are broken down as medievalists modernists and early modernists debate HL 111 - Make Or Break: The UK's Digital Future The Stationery Office, 2015 This report is a call to action for the incoming Government in May 2015 The world is being transformed by a series of profound technological changes dominated by digital a second machine age This is already having a significant impact on the UK over the next two decades some economists have estimated that 35% of current jobs in the UK could become automated Digital technology is changing all our lives work society and politics It brings with it huge opportunities for the UK but also significant risks This demands an ambitious approach which will secure the UK's position as a digital leader The Committee recommends that the new Government establishes a single and cohesive Digital Agenda The potential value in doing so is significant the Government estimated that the digital sector alone was worth an estimated 105 billion in gross value added to the UK in 2011 A report by the National Institute of Economic and Social Research in 2013 meanwhile found that the size of the digital economy was almost double official estimates Whatever the difficulties in quantifying the value it is clear that digital is already a substantial driver for growth and will become much more so Digital

technology is transforming much more than just one sector of the economy the whole economy has become digitised It would therefore be a mistake to take the digital sector as our sole focus of interest Digital technology is pervasive across all aspects of life so much so that the digital economy is becoming synonymous with the national economy The UK cannot afford to miss the opportunity or shirk the challenges this presents Bibliography of Road-making and Roads in the United Kingdom

Dorothy Ballen,1914 **Informal Decision Making in the European Community under the Luxembourg**

Compromise Philip Bajon,2025-10-16 This book analyses the informal decision making process in the EU against the background of a gradually emerging European legal order Based on extensive multi archival research in the UK France Germany the Benelux countries and in Community institutions the book explores the resistance against majority rule under the so called Luxembourg Compromise of 1966 a European soft law that allowed Member States to invoke vital national interests and to veto legislation This gentlemen s agreement was never sanctioned or codified However as a rule of the game it had a significant impact on the operations of the EU for several decades and became an integral part of the EU s consensus approach Its underlying rationale is still alive in the present day EU Presenting a deeply revisionist account of European law and politics the book demonstrates how the Luxembourg arrangement served as a compromise between the Treaty text and political reality as a counterweight to technocratic ideas and as a bridge between irreconcilable divides over European unification It includes case studies from 1965 2000 such as the Eurosclerosis of the 1970s British exceptionalism as an EU member the European revival of the mid 1980s and intergovernmentalism on the verge of negotiating the Maastricht Treaty Highly original in its interdisciplinary comprehensive and archivally rooted method the book interrogates the most important and controversial debates about the past present and future of the European Union *UK Communication Strategies for*

Afghanistan, 2001-2014 Thomas W. Cawkwell,2016-03-09 The war in Afghanistan came to an end in 2014 after nearly thirteen years of conflict Throughout that period British officials have described UK operations there in various conflicting and often contradictory ways as a counter terrorism mission a stabilisation mission and a counter narcotics mission respectively This book investigates how the war was sold to the British public and how Britain s transnational foreign and defence policy impacted on the unfolding of UK strategy in Afghanistan and the way it was communicated It argues that because the UK s foreign and defence policy is transnationally oriented meaning that it is foundationally aimed at maintaining alliance with the United States and the institutional coherence of NATO UK strategy is contingent upon collective security and crucially is fundamentally concerned with the means of policy maintaining alliances over the ends using alliances to effect change Explaining the inalienability of collective security systems to national security is no easy task however and when faced with the adversities of Afghanistan the UK state has since 2008 instead opted to describe the significance of Afghanistan in narrow nation centric counter terrorist concerns in order to maintain public support for collective security operations there whilst paradoxically framing the conflict in a manner that avoids talking about the

transnational structure and purpose of the mission This kind of strategic communication is increasingly becoming a focus of the UK state as it faces a transnational dilemma of maintaining its collective security bonds whilst facing a public increasingly sceptical of liberal interventionism The Making of the UK Richard Allison, Carole Brown, 1990 *Twenty to Make: Crocheted Purses* Nikipirowicz, 2015 **American Leviathan** Patrick Griffin, 2007 Sample Text
