Polski, 2012-12-06 This book is a product of my commitment to developing both theory and practice in political economy I first became interested in economic and institutional change in the commercial banking industry when I took a seminar on financial institutions led by Robert Glauber in the Kennedy School of Government at Harvard University in the spring of 1995 In my experience Bob is one of a handful of teachers who has the verve to challenge and inspire both esoteric and practical inquiry the seminar grappled with practical business and policy problems in a way that posed a significant challenge to existing theories In addition to demonstrating the need to better integrate theory and practice it provided a perspective and an approach that I continue to find useful in research consulting and teaching Conducting the research for this study has taught me many things about banking regulation and policy making and I am grateful to a very large number of people for their assistance Bob Glauber continues to be generous in discussing the challenges of change in the financial services industry **American Commercial Banking Structure and Small Business Lending** Donald T.
