New European Diasporas:

The New European Diasporas Michael Mandelbaum, 2000 The politics of four of these European national triads Hungarians Russians Serbs and Albanians is the focus of this important book **BOOK JACKET** East European Diasporas, Migration, and Cosmopolitanism Ulrike Ziemer, Sean P. Roberts, 2013 Following the collapse of the communist regimes in Eastern Europe and the Soviet Union there were considerable migration flows the migrations and subsequent diasporas often having special characteristics given the relative lack of migration in communist times and the climate of increasing nationalism which had the potential of working against multiculturalism This book explores these migrations and diasporas and examines the nature of the associated cosmopolitanism **Migration, Diasporas and Legal Systems in Europe** Prakash Shah, Werner Menski, 2020-09-10 At a time when issues concerning migration and the formation of diasporic communities have come to be critical for all European legal systems this volume reflects discusses and analyzes the questions raised by diasporas who have established themselves in Europe over more than fifty years of immigration and the challenges faced by legal systems in the light of continued migration Contributors from a broad range of backgrounds address prominent issues ranging from legal pluralism among minorities pressures on EU accession states irregular migration state control of family reunification and formation in light of human rights laws challenges for citizenship and nationality laws and the implementation of visa rules and juxtaposed control zones Besides the EU as a supranational legal order the book contains discussion of conditions in the United Kingdom Ireland France Spain Gibraltar Morocco Greece Turkey and Lithuania This volume accompanies *The Challenge of Asylum to Legal Systems* and is the second book to emerge from the W G Hart Legal Workshop held in 2004 at London s Institute for Advanced Legal Studies European Cinema after the Wall Leen Engelen, Kris Van Heuckelom, 2013-11-21 Since the fall of the Berlin Wall in 1989 transnational European cinema has risen not only in terms of production but also in terms of a growing focus on multiethnic themes within the European context This shift from national to trans European filmmaking has been profoundly influenced by such historical developments as the collapse of the Iron Curtain and the subsequent ongoing enlargement of the European Union In *European Cinema after the Wall* Screening East West Mobility Leen Engelen and Kris Van Heuckelom have brought together essays that critically examine representations of post 1989 migration from the former Eastern Bloc to Western Europe uncovering an array of common tropes and narrative devices that characterize the influences and portrayals of immigration Featuring essays by contributors from backgrounds as divergent as film studies Slavic and Russian studies comparative literature sociology contemporary history and communication and media studies this volume will appeal to scholars of film European history and those interested in the impact of migration diaspora and the global flow of cinematic culture **Kinship & Diasporas in International Affairs** Yossi Shain, 2007 A major study of the vast but until now unappreciated influence of kinship and diaspora on international politics **Ethnic Europe** Roland Hsu, 2010-02-05 *Ethnic Europe* examines the increasingly

complex ethnic challenges facing the expanding European Union Essays from eleven experts tackle such issues as labor migration strains on welfare economies the durability of local traditions the effects of globalized cultures and the role of Islamic diasporas separatist movements and threats of terrorism With Europe now a destination for global immigration European countries are increasingly alert to the difficult struggle to balance minority rights with social cohesion In pondering these dilemmas the contributors to this volume take us from theory history and broad views of diasporas to the particularities of neighborhoods borderlands and popular literature and film that have been shaped by the mixing of ethnic cultures

Spheres of Global Justice Jean-Christophe Merle, 2013-06-22 Spheres of Global Justice analyzes six of the most important and controversial spheres of global justice each concerning a specific global social good These spheres are democratic participation migrations cultural minorities economic justice social justice and intergenerational justice Together they constitute two constellations dealt with in this collection of essays by leading scholars in two different volumes Global Challenges to Liberal Democracy and Fair Distribution These essays illustrate each of the spheres delving into their differences commonalities collisions and interconnections Unlike many writings on global justice Spheres of Global Justice does not content itself with describing the painful and advantageous effects of the globalization process as being ipso facto a global injustice or a just global order Rather this multidisciplinary collection of essays from a pluralist inspiration combines empirical analysis with theoretical approaches and ethical principles paying close attention to two aspects of the effects of the globalization process These aspects are the causal relationships that lead to such effects and the kinds of obligations or of normative relationships between global rights and correlative duties that applies to each specific individual case This volume illustrates how diverse global obligations are and how they can be grounded in diverse relationships identity ability to provide help causal responsibility past injustices protection of agency and promotion of independence etc These essays also demonstrate that an ethical global approach has not only international or transnational but also domestic local and interpersonal dimensions

Encyclopedia of Diasporas Melvin Ember, Carol R. Ember, Ian Skoggard, 2004-11-30 Immigration is a topic that is as important among anthropologists as it is the general public Almost every culture has experienced adaptation and assimilation when immigrating to a new country and culture usually leaving for what is perceived as a better life Not only does this diaspora change the country of adoption but also the country of origin Many large nations in the world have absorbed and continue to absorb large numbers of immigrants The foreseeable future will see a continuation of large scale immigration as many countries experience civil war and secessionist pressures Currently there is no reference work that describes the impact upon the immigrants and the immigrant societies relevant to the world's cultures and provides an overview of important topics in the world's diasporas The encyclopedia consists of two volumes covering three main sections Diaspora Overviews covers over 20 ethnic groups that have experienced voluntary or forced immigration These essays discuss the history behind the social economic and political reasons for leaving the original

countries and the cultures in the new places Topics discusses the impact and assimilation that the immigrant cultures experience in their adopted cultures including the arts they bring the struggles they face and some of the cities that are in the forefront of receiving immigrant cultures Diaspora Communities include over 60 portraits of specific diaspora communities Each portrait follows a standard outline to facilitate comparisons The Encyclopedia of Diasporas can be used both to gain a general understanding of immigration and immigrants and to find out about particular cultures topics and communities It will prove of great value to researchers and students curriculum developers teachers and government officials It brings together the disciplines of anthropology social studies political studies international studies and immigrant and immigration studies *The US "Culture Wars" and the Anglo-American Special Relationship* David G.

Haglund,2019-05-21 This book discusses culture and the origins of the Anglo American special relationship the AASR The bitter dispute between ethnic groups in the US from 1914 17 a period of time characterized as the culture wars laid the groundwork both for US intervention in the European balance of power in 1917 and for the creation of what would eventually become a lasting Anglo American alliance Specifically the vigorous assault on English civilization launched by two large ethnic groups in America the Irish Americans and the German Americans had the unintended effect of causing America s demographic majority at the time the English descended Americans to regard the prospect of an Anglo American alliance in an entirely new manner The author contemplates why the Anglo American great rapprochement of 1898 failed to generate the desired Anglo Saxon alliance in Britain and in so doing features theoretically informed inquiries into debates surrounding both the origins of the war in 1914 and the origins of the American intervention decision nearly three years later **The**

European Diaspora in Australia Bruno Mascitelli,Sonia Mycak,Gerardo Papalia,2016-05-11 This volume provides a contemporary reflection on the journey of many former European communities that migrated to Australia in the post war period and their stories of settlement assimilation and integration The chapters provide perspectives from a range of disciplines and approaches across different communities There are common themes that emerge as well as unique issues which define these communities
