New Italian Architecture Alberto Galardi, 1962 **New Italian Architecture** Pippo Ciorra, Marco D'Annunziis, 2000 The young Italian architects are now out of the impasse and of their unwitting ennui Or rather they have begun to emerge and raise their gaze from the drawing board to observe the material and non material phenomena occurring in the outside world in the meantime In the concrete material world of the Italian cities and landscape sudden radical transformations have effected the whole universe to which architectural planning and urban knowledge must be applied While the intangible world of ideas and non architectural artistic languages traces and representations of these transformations have been presented for some time Pippo Ciorra Ten young Italian architects are analyzed and combined to show the most advanced researches on the contemporary Italian urban landscape The projects and photographs are introduced by three essays by Pippo Ciorra Kay Bea Jones and Francesco Jodice Architects ABDR Carmen Andriani Aldo Aymonino Stefano Boeri Pippo Ciorra Alberto Ferlenga Ricci Spainini Renato Rizzi Mirko Zardini Lukas Meyer Cino Zucchi Photographers Marina Ballo Charmet Olivo Barbieri Antonio Biasiucci Botto Bruno Vincenzo Castella Marco Calo Alessandro Cimmino Paola de Pietri Paola Di Bello Francesco Jodice *Neue Italienische Architektur* Alberto Galardi, 1967 **Modern Architecture and the**

The Routledge Companion to Italian Fascist Architecture Kay Bea Jones, Stephanie Pilat, 2020-04-30 Today nearly a century after the National Fascist Party came to power in Italy questions about the built legacy of the regime provoke polemics among architects and scholars Mussolini's government constructed thousands of new buildings across the Italian Peninsula and islands and in colonial territories From hospitals post offices and stadia to housing summer camps Fascist Party Headquarters ceremonial spaces roads railways and bridges the physical traces of the regime have a presence in nearly every Italian town The Routledge Companion to Italian Fascist Architecture investigates what has become of the architectural and urban projects of Italian fascism how sites have been transformed or adapted and what constitutes the meaning of these buildings and cities today The essays include a rich array of new arguments by both senior and early career scholars from Italy and beyond They examine the reception of fascist architecture through studies of destruction and adaptation debates over reuse artistic interventions and even routine daily practices which may slowly alter collective understandings of such places Paolo Portoghesi sheds light on the subject from his internal perspective while Harald Bodenschatz situates Italy among period totalitarian authorities and their symbols across Europe Section editors frame synthesize and moderate essays that explore fascism's afterlife how the physical legacy of the regime has been altered and preserved and what it means now This critical history of interpretations of fascist era architecture and urban projects broadens our understanding of the relationships among politics identity memory and place This companion will be of interest

Reconstructing Italy Stephanie Zeier Pilat,2016-04-08 Reconstructing Italy traces the postwar transformation of the Italian nation through an analysis of the Ina Casa plan for working class housing established in 1949 to address the employment and housing crises Government sponsored housing programs undertaken after WWII have often been criticized as experiments that created more social problems than they solved The neighborhoods of Ina Casa stand out in contrast to their contemporaries both in terms of design and outcome Unlike modernist high rise housing projects of the period Ina Casa neighborhoods are picturesque and human scaled and incorporate local construction materials and methods resulting in a rich aesthetic diversity And unlike many other government forays into housing undertaken during this period the Ina Casa plan was on the whole successful the neighborhoods are still lively and cohesive communities today This book examines what made Ina Casa a success among so many failed housing experiments focusing on the tenuous balance struck between the legislation governing Ina Casa the architects who led the Ina Casa administration the theory of design that guided architects working on the plan and an analysis of the results the neighborhoods and homes constructed Drawing on the writings of the architects government documents and including brief passages from works of neorealist literature and descriptions of neorealist films by Pier Paolo Pasolini Italo Calvino and others this book presents a portrait of the postwar struggle to define a post Fascist Italy **Architecture and the Novel under the Italian Fascist Regime** Francesca Billiani,Laura

Pennacchietti,2019-09-14 Architecture and the Novel under the Italian Fascist Regime discusses the relationship between the novel and architecture during the Fascist period in Italy 1922 1943 By looking at two profoundly diverse aesthetic phenomena within the context of the creation of a Fascist State art Billiani and Pennacchietti argue that an effort of construction or reconstruction was the main driving force behind both projects the advocated revolution of the novel form realism and that of architecture rationalism The book is divided into seven chapters which in turn analyze the interconnections between the novel and architecture in theory and in practice The first six chapters cover debates on State art on the novel and on architecture as well as their historical development and their unfolding in key journals of the period The last chapter offers a detailed analysis of some important novels and buildings which have in practice realized some of the key principles articulated in the theoretical disputes **Encyclopedia of Twentieth Century Architecture** R. Stephen

Sennott,2004 For more information including the introduction a full list of entries and contributors a generous selection of sample pages and more visit the Encyclope dia of 20th Century Architecture website Focusing on architecture from all regions of the world this three volume set profiles the twentieth century s vast chronicle of architectural achievements both within and well beyond the theoretical confines of modernism Unlike existing works this encyclopedia examines the complexities of rapidly changing global conditions that have dispersed modern architectural types movements styles and

building practices across traditional geographic and cultural boundaries Italian Imprints on Twentieth-Century Architecture Denise Costanzo, Andrew Leach, 2022-05-19 Italian architecture has long exerted a special influence on the evolution of architectural ideas elsewhere from the Beaux Arts academy's veneration of Rome to modernist and postmodern interest in Renaissance proportion Baroque space and Mannerist ambiguity This book critically examines this enduring phenomenon exploring the privileged position of Italian architects architecture and cities in the architectural culture of the past century Questioning the deep rooted myth of Italy within architectural history the book presents case studies of Italy's powerful yet problematic position in 20th century architectural ideologies at a time when established Eurocentric narratives are rightly being challenged It reconciles the privileged position of Italian architecture and design with the imperative to write history across a more global diverse heterogeneous cultural geography Twenty chapters from distinguished international scholars cover subjects and architects ranging from Alberti to Gio Ponti Aldo Rossi Manfredo Tafuri Vittorio Gregotti cities from Rome and Venice to Milan and an array of international architects movements and architectural ideas influenced by Italy The chapters each question where how and why the disciplinary edifice of 20th century architecture its canon of built visual textual and conceptual works relied on Italian foundations examining where and how those foundations have become insecure Indispensable for students and scholars of both Italian and global architectural history Italian Imprints on Twentieth Century Architecture provides an opportunity to consider the architectural and urban landscape of Italy from substantially new points of view
