New England's Generation:

New England's Generation Virginia DeJohn Anderson, 1991 This book explores New England's founding in terms of ordinary people and the transcendent meanings that those lives ultimately acquired

New England's Generation Virginia DeJohn Anderson, 1993 *Women's Roles in Seventeenth-Century America* Merrill D. Smith, 2008-06-30 In Colonial America the lives of white immigrant black slave and American Indian women intersected Economic religious social and political forces all combined to induce and promote European colonization and the growth of slavery and the slave trade during this period This volume provides the essential overview of American women's lives in the seventeenth century as the dominant European settlers established their patriarchy Women were essential to the existence of a new patriarchal society most importantly because they were necessary for its reproduction In addition to their roles as wives and mothers Colonial women took care of the house and household by cooking preserving food sewing spinning tending gardens taking care of sick or injured members of the household and many other tasks Students and general readers will learn about women's roles in the family women and the law women and immigration women's work women and religion women and war and women and education literature and recreation The narrative chapters in this volume focus on women particularly white women within the eastern region of the current United States the site of the first colonies Chapter 1 discusses women's roles within the family and household and how women's experiences in the various colonies differed Chapter 2 considers women and the law and roles in courts and as victims of crime Chapter 3 looks at women and immigration those who came with families or as servants or slaves Women's work is the subject of Chapter 4 The focus is work within the home preparing food sewing taking care of children and making household goods or as businesswomen or midwives Women and religion are discussed in Chapter 5 Chapter 6 examines women's role in war Women's education is one focus of Chapter 7 Few Colonial women could read but most women did receive an education in the arts of housewifery Chapter 7 also looks at women's contributions to literature and their leisure time Few women were free to pursue literary endeavors but many expressed their creativity through handiwork A chronology selected bibliography and historical illustrations accompany the text

Between Two Worlds Malcolm Gaskill, 2014 In the 1600s over 350 000 intrepid English men women and children migrated to America leaving behind their homeland for an uncertain future Whether they settled in Jamestown Salem or Barbados these migrants entrepreneurs soldiers and pilgrims alike faced one incontrovertible truth England was a very very long way away In *Between Two Worlds* celebrated historian Malcolm Gaskill tells the sweeping story of the English experience in America during the first century of colonization Following a large and varied cast of visionaries and heretics merchants and warriors and slaves and re

on Reformation ideas and the lasting historical impact of Protestantism *Proceedings of the 1994 Northeastern Recreation Research Symposium* Gail A. Vander Stoep, 1994 *Fire under the Ashes* John Donoghue, 2024-05-31 In *Fire under the Ashes* John Donoghue recovers the lasting significance of the radical ideas of the English Revolution exploring their wider Atlantic history through a case study of Coleman Street Ward London Located in the crowded center of seventeenth century London Coleman Street Ward was a hotbed of political social and religious unrest There among diverse and contentious groups of puritans a tumultuous republican underground evolved as the political means to a more perfect Protestant Reformation But while Coleman Street has long been recognized as a crucial location of the English Revolution its importance to events across the Atlantic has yet to be explored Prominent merchant revolutionaries from Coleman Street led England's imperial expansion by investing deeply in the slave trade and projects of colonial conquest Opposing them were other Coleman Street puritans who having crossed and re-crossed the ocean as colonists and revolutionaries circulated new ideas about the liberty of body and soul that they defined against England's emergent political economy of empire These transatlantic radicals promoted social justice as the cornerstone of a republican liberty opposed to both political tyranny and economic slavery and their efforts Donoghue argues provided the ideological foundations for the abolitionist movement that swept the Atlantic more than a century later *The Filleys* Donald Southerton, 2005-06 *The Filleys 350 Years of American Entrepreneurial Spirit* provides snapshots into American entrepreneurship history for a broad readership through a series of biographic essays These stories centering on the accomplishments of one family provide vivid insights into entrepreneurialism in America spatially across the country and temporally over three centuries Author Don Southerton guides the reader through multiple generations of the Filley family beginning in 17th century Puritan New England The saga includes the rise of the Yankee trader land speculation and the development of American manufacturing The Filley business endeavors represent a slice of the American entrepreneurial experience Moreover this experience was shared by many thousands of other Americans whose families can be traced to colonial times Together they raised families embraced capitalism and built this country The portraits of people and events in this saga provide us with a revealing and instructive glimpse into times long gone and allow us to connect vicariously to a part of our collective past *The British Gentry, the Southern Planter, and the Northern Family Farmer* James L. Huston, 2015-05-04 Drawing on the history of the British gentry to explain the contrasting sentiments of American small farmers and plantation owners James L. Huston's expansive analysis offers a new understanding of the socioeconomic factors that fueled sectionalism and ignited the American Civil War This groundbreaking study of agriculture's role in the war defies long held notions that northern industrialization and urbanization led to clashes between North and South Rather Huston argues that the ideological chasm between plantation owners in the South and family farmers in the North led to the political eruption of 1854-56 and the birth of a sectionalized party system Huston shows that over 70 percent of the northern population by far the dominant economic and social element

had close ties to agriculture More invested in egalitarianism and personal competency than in capitalism small farmers in the North operated under a free labor ideology that emphasized the ideals of independence and mastery over oneself The ideology of the plantation by contrast reflected the conservative ethos of the British aristocracy which was the product of immense landed inequality and the assertion of mastery over others By examining the dominant populations in northern and southern congressional districts Huston reveals that economic interests pitted the plantation South against the small farm North The northern shift toward Republicanism depended on farmers not industrialists While Democrats won the majority of northern farm congressional districts from 1842 to 1853 they suffered a major defection of these districts from 1854 to 1856 to the antislavery organizations that would soon coalesce into the Republican Party Utilizing extensive historical research and close examination of the voting patterns in congressional districts across the country James Huston provides a remarkable new context for the origins of the Civil War
