New Geopolitics Of Eurasia And Turkey's Position:

The New Geopolitics of Eurasia and Turkey's Position Bulent Aras,2013-01-11 This work explores the geopolitical struggles that are currently underway in the newly independent states of the Caucasus region showing how many players in the region are coalescing into two opposing blocs The growing political military and economic ties amongst the countries of these two blocs stem from a number of developments in the region most notably the fall of the Soviet Union and consequently the end of the Cold War and its bi polar global alliance structure These blocs are competing for influence in the region and the rights to exploit and transport the rich energy resources that have been found in the Caspian Sea The text shows how many actors have been willing to co operate in other non energy related issues in the hope of receiving a financial reward when countries do decide on these matters

Heartlands of Eurasia Anita Sengupta,2009-07-16 Heartlands of Eurasia explores how received metageographical knowledge informs the understanding of global processes and is subsequently transformed into geopolitical reasoning with foreign policy implications It provides a detailed examination of writings from both within the region and outside that look into the significance of Halford Mackinder s heritage in the context of a vastly changed world situation In particular it attempts to examine how policy makers and strategic thinkers have used these geopolitical concepts as justification for their policy in the region Finally it attempts an analysis of the extent to which this policy thinking was translated into practice While the study looks into how the vision of the pivotal significance of a vast expanse of land finds its echoes in contemporary narratives it also underlines the very creative ways in which Mackinder s ideas have been reinterpreted in keeping with the changing global dynamics Making use of the way in which the region has been traditionally defined and the way in which the people defined themselves the study brings into focus a debate on the usefulness of region or area based studies that are located in geographical imaginations Anita Sengupta uses this connection to examine the following issues geopolitical imaginations and their relevance in identifying areas in the present context the intersection between how areas are defined from an outsider perspective and how people define themselves the extent to which these definitions have influenced policy and the possibility or feasibility of the development of alternative geostrategic discourses Mackinder himself did not specify the geographical area identified

first as the pivot and later the heartland but his ideas were focused on the closed heartland of Euro Asia an area that was unassailable by sea power This study therefore centers its debates around the Eurasian space in general though the focus is on the Central Asian region and Uzbekistan in particular The book is ideal for specialists working on the Eurasian region graduate students interested in geopolitics as well as Eurasian and Central Asian studies and undergraduates studying political science and international relations

Turkey: Towards a Eurasian Shift? Valeria Talbot, 2018-04-23 Over the last few years Turkey seems to have embraced the East again Ankara's closer relations with Eurasian countries go hand in hand with the global shift eastwards towards the ever growing and most dynamic region in the world It is therefore the result of an increasing differentiation of Turkey's foreign relations driven by strategic economic and energy interests Stronger ties with Eurasian countries i.e. Russia and China are also the litmus test for the ups and downs in relations with Washington and Brussels While Ankara still retains strong ties with the West it is laying the groundwork to further widen its interests to the East This report aims to analyse the multi faceted aspects of Ankara's Eurasian shift highlighting the domestic drivers of Turkey's Eurasianism the interests at stake the areas of cooperation and competition and last but not least the implications for the EU

Security of Natural Gas Supply through Transit Countries Jens Hetland, Teimuraz

Gochitashvili, 2004-06-29 Jens HETLAND the commercialisation of natural gas fields is inherently linked to rigid transportation systems that require huge investments in tangible assets fixed to specific locations the supply of natural gas is constrained by the transportation system and requires access to appropriate infrastructure for transport and distribution the trading of natural gas is traditionally associated with long term contracts albeit the duration per se of gas transport contracts appears to be less important after the deregulation of the energy markets As diversification is strategically important to modern societies the security of energy supplies becomes an inherent issue In order to avoid situations of shortage and to keep the price level stable industrial nations are paying attention to the security of energy supplies In brief terms this means that having more than one supplier of natural gas and more than one transport route would be strategically important This also affects political issues and international law and regulations economics science and technology The purpose of this book is to address opportunities extended from science and research pertaining to the exploitation and international trading of natural gas that involves transit countries This especially relates to the transport and handling of gas from remote regions and pipelines that are

Key Players and Regional Dynamics in Eurasia M. Freire, R. Kanet, 2010-10-20 Explores Russia's re emergence as a major actor in Central Asia and the Caucasus a re emergence which is limited by the involvement and influence of external state and non state actors including China the USA and foreign energy companies

Turkey and the US in the Middle East Gürcan Balik, 2016-05-26 Written by the former chief foreign policy advisor to the Turkish president and based on unprecedented access to official documents and communiqués this book gives the inside story of Turkish US relations from the first Gulf War through debates on the Iraqi Kurdish question the 2003 invasion of Iraq and into the present

day Using events in Iraq as the basis for a theoretical case study Gurcan Balik argues that Turkey influenced US foreign policy on several key occasions and that Turkish support was instrumental in the first intervention in Iraq After Iraq s 1991 uprisings however Turkey s interests in the Middle East began to diverge from those of the US and their relationship gradually deteriorated evident in Turkey s refusal to open up its northern border to aid the US advance to Baghdad in 2003 Balik contends that an Iraq gap then emerged which has since had major implications for the Turkish economy and for the future of the Middle East Turkey and the US in the Middle East contains hitherto unpublished primary source material and is an essential addition to the scholarship of the period Understanding Ethnopolitical Conflict E. Souleimanov,2013-07-08 This book critically evaluates the growing body of theoretical literature on ethnic conflict and civil war using empirical data from three major South Caucasian conflicts evaluating the relative strengths and weaknesses of the available methodological approaches **Israel's Foreign Policy Beyond the Arab World** Jean-Loup Samaan,2017-11-28 For over 60 years Israel s foreign policy establishment has looked at its regional policy through the lens of a geopolitical concept named the periphery doctrine The idea posited that due to the fundamental hostility of neighboring Arab countries Israel ought to counterbalance this threat by engaging with the periphery of the Arab world through clandestine diplomacy Based on original research in the Israeli diplomatic archives and interviews with key past and present decision makers this book shows that this concept of a periphery was and remains a core driver of Israel s foreign policy The periphery was borne out of the debates among Zionist circles concerning the geopolitics of the nascent Israeli State The evidence from Israel s contemporary policies shows that these principles survived the historical relationships with some countries Iran Turkey Ethiopia and were emulated in other cases Azerbaijan Greece South Sudan and even to a certain extent in the attempted exchanges by Israel with Gulf Arab kingdoms The book enables readers to understand Israel s pessimistic or realist in the traditional sense philosophy when it comes to the conduct of foreign policy The history of the periphery doctrine sheds light on fundamental issues such as Israel s role in the regional security system its overreliance on military and intelligence cooperation as tools of diplomacy and finally its enduring perception of inextricable isolation Through a detailed appraisal of Israel s periphery doctrine from its birth in the fifties until its contemporary renaissance this book offers a new perspective on Israel s foreign policy and will appeal to students and scholars of Middle East Politics and History and International Relations **The Dynamics of Sunni-Shia Relationships** Sabrina Mervin,Rainer Brunner,Jean-François Legrain,Joseph Alagha,Reidar Visser,Thomas Pierret,Roel Meijer,Joas Wagemakers,Stéphane A. Dudoignon,Farian Sabahi,Mariam Abou Zahab,Bayram Balci,Altay Goyushov,Brecht De Smet,2013-05-29 Sheds light on the political sociological and ideological processes that are affecting the dynamics of Sunni Shia relations Turkey's Foreign Policy in the 21st Century Mustafa Aydin,2019-06-04 Title first published in 2003 In this insightful book the authors explore Turkey s role within a globalizing world and as a new century unfolds examine a nation at the crossroads of both time and space within the international political order Chapters consider

Turkey's policy history its prospects and policy issues and discuss them with positive alternatives outlined for Turkish policy makers and the academics who examine them When Empire Meets Nationalism Didier Chaudet, Florent Parmentier, 2016-02-11 This innovative study presents an in depth political and sociological analysis of the internal power politics and imperial forms developed by the Russian neo eurasianists and the neo conservatives in the United States It traces the growth of nationalism and the concept of Empire in relation to the ideologies and foreign policy of both Russia and the USA Beginning with a genealogy of the two movements the authors present the intricacy of imperial rhetoric and nationalist ideologies in modern states compared with the distinctive definition of Empire as a politico historical form The extent to which these ideas have shaped the foreign policy of Russia and the USA is then related to events in Central Asia Afghanistan Iran Iraq Saudi Arabia and Turkey The analysis of each case provides a better understanding of the imperial character of these foreign policies in relation to their nationalist foundations The combination of political theory and geopolitics makes this cutting edge research a must read to all interested in the evolving discourse surrounding Empire **Turkey's Entente with Israel and Azerbaijan** Alexander Murinson, 2009-12-04 With the end of the Cold War came a new political instability in Turkey and a shift in relations with the West leading the government to adopt new foreign policies and forge alliances with neighbouring states This book offers a detailed and comprehensive analysis of the evolution of the trilateral relationship between Turkey Israel and Azerbaijan Drawing both on first hand interviews and on research not previously available in the English language Alexander Murinson brings a new perspective to the study of the relationship between the three countries In particular he examines the commonalities of state identities that brought the countries together the role of state institutions the security dimension and the influence of globalization In a period of growing concerns about European energy security the book provides an extensive discussion of the activities carried out by various think tanks especially in Washington regarding the regional and domestic politics of the three countries An original contribution to study of regional processes in the expanded Middle East after the end of the Cold War this book is a welcome addition to the literature on the regional politics of the Middle East and the Caucasus As such it will be of great interest to anyone studying international relations security studies and Middle Eastern politics **The Search for Security in the South Caucasus**, Turkey's Pivot to Eurasia Emre Erşen, Seçkin Köstem, 2019-05-21 This book discusses and analyses the dimensions of Turkey's strategic rapprochement with the Eurasian states and institutions since the deterioration of Ankara's relations with its traditional NATO allies Do these developments signify a major strategic reorientation in Turkish foreign policy Is Eurasia becoming an alternative geopolitical concept to Europe or the West Or is this pivot to Eurasia an instrument of the current Turkish government to obtain greater diplomatic leverage Engaging with these key questions the contributors explore the geographical political economic military and social dynamics that influence this process while addressing the questions that arise from the difficulties in reconciling Ankara's strategic priorities with those of other Eurasian countries like Russia China

Iran and India Chapters focus on the different aspects of Turkey's improving bilateral relations with the Eurasian states and institutions and consider the possibility of developing a convincing Eurasian alternative for Turkish foreign policy. The book will be useful for researchers in the fields of politics and IR more broadly and particularly relevant for scholars and students researching Turkish foreign policy and the geopolitics of Eurasia.

Contemporary Russo-Turkish Relations Ali Askerov, 2018-06-20 The Syrian Civil War started in March 2011 and still continues. It causes death, turmoil, humanitarian crisis and mass migration in the region. Numerous state and non-state actors are involved in this multi-sided armed conflict. On 24 November 2015, Turkey shoots down a Russian fighter jet on its border and this event becomes the turning point in Russo-Turkish relations. An economic and psychological war starts between Moscow and Ankara which damages their good relations that existed before the crisis. Despite the crisis, the sides to the conflict understand that they need each other for their own benefits and look for reconciliation. Russia, a supporter of the Assad government in Syria, does not want to lose Turkey as a friend. Turkey, an energy partner of Russia, needs Russia to balance the power relations in the region. They are two neighboring countries with strong historical socio-economic ties that need to be restored. The reconciliation process is not easy and requires some third-party role. The PYD/YPG-centered US policy in Syria affects Turkey's strategies.

The Age of Diversity Jean-Louis Roy, 2016-11-01 In twenty-five years, 80% of the world population will live in Asia and Africa. What changes culturally? In particular, should be expected in this century. This is the vast and fascinating question Jean-Louis Roy tries to answer with the help of correspondents from Africa, Asia, the Americas, and Europe. The author argues that shifting wealth from the West to Asia, Latin America, and Africa causes the reconfiguration of the economic map. This tilting also transforms the global cultural space. The dominant cultural position occupied by the Atlantic area will not disappear overnight. However, it is important to note that emerging countries are working earnestly, well served by the tools of the digital age. For example, China is already the world leader in the art market and Nigeria the second in international film production after India. Diversity emerges from all sides. Welcome to the twenty-first century.

Iranian Foreign Policy Since 2001 Thomas Juneau, Sam Razavi, 2013-07-24 Examining Iranian foreign policy with a focus on the years since 2001, this book analyses the defining feature of Iran's international and regional posture: its strategic loneliness and the implications of this for the Islamic Republic's foreign policy. *Iranian Foreign Policy since 2001* offers an in-depth analysis of the key drivers behind Iran's foreign policy: power, strategic culture, and ideology. In addition, the authors examine Iran's relations with key countries and regions, including its often tenuous relations with China, Russia, and America, as well as its bilateral relations with non-state actors such as Hezbollah. The common thread running throughout the volume is that Iran is alone in the world, regardless of its political manoeuvrings. The Islamic Republic's regional and international posture is largely one of strategic loneliness. Assimilating contributions from the US, Canada, Europe, and Iran, this book provides an international perspective both at the theoretical and practical levels and is essential reading for those with an interest in Middle Eastern Politics.

International Relations and Political Science more broadly *Books on Turkey* ,2005 **Domestic and Regional Uncertainties in the New Turkey** Alessio Chiriatti,Ozgur Tufekci,2017-06-20 Turkey has faced in the last two decades a number of critical events like wars conflicts and frictions in the Balkans the Caucasus and the Middle East that have represented a huge challenge for its foreign policy and civil and economic interventions Turkish multi directionality and multidimensionality have been tested by these occurrences demonstrating that what some scholars and experts had defined as a model contained failures as well as success This book examines these dynamics through case studies of the humanitarian cultural economic and political dimensions of Turkey s role in a diffuse neighbourhood in which the country has tried to exert its power in recent decades Starting from the questions that the Cold War and the arrival of the AKP in government have opened for Ankara the volume illustrates two of the most important sides of the Turkish strategic repositioning in the international system The first part is focused on the main humanitarian and political struggles in contemporary Turkish society while the second explores the main fault lines in Turkey s regional policy and the development of the country s foreign policy As such the book represents a valuable resource for both graduate and undergraduate students academics and researchers in the areas of Turkish studies foreign policy regional politics Middle Eastern studies security political economy and European studies as well as for the general public
