Smith, 2015-12-18 A marked change in traditional thinking about children and childhood was promoted by the adoption by the United Nations in 1989 of the Convention on the Rights of the Child In the early 90s sociologists in the United States and the UK developed Childhood Studies to promote a holistic view of children s lives recognition of their competence and agency and the impact and value of their everyday experiences As a result of this impetus different thinking has emerged about the role and recognition of children the institutions of childhood and the way we view and treat children in modern societies This book focuses on research emerging from Children s Rights and Childhood Studies thinking which has important implications for developing policies and practices to improve children s well being and rights The author presents the implications of children s rights for six contexts of children s everyday lives families early childhood education schooling child protection services health services and employment **Children's Self-determination in the Context of Early Childhood Education and Services** Federico Farini, Angela Scollan, 2019-06-26 This book investigates the position of young children s self determination within a range of social contexts such as education social care mass media health politics law and the family It brings to the fore the voices of the children in the present with their interests agendas and rights Based on original primary research the chapters tackle hegemonic discourses on children s self determination as well as current policies and practices They address a broad range of topics from the planning of role play to national policies from the use of digital technologies for pedagogy to children s health and well being and from democratic practices in the classroom to the preservation of traditional family values The book presents case studies to unravel how childhood and young children s self determination are constructed at the intersection with intergenerational relationships Coming from different disciplines and using a diverse

range of methodological traditions the contributions in the volume eventually converge to generate a rich complex and multi layered analysis of contemporary cultures of childhood and young children s rights **Thatcher's Children?** Dr Jane Pilcher, Jane Pilcher, Stephen Wagg, 2005-06-28 That childhood is a social construction is understood both by social scientists and in society generally The authors of this book examine the political issues surrounding childhood including law making social policy government provisions and political activism This text examines current social and political issues involving childhood It looks at the impact of the New Right who talk of family values parent power in schools irresponsible provision of contraception to young girls and the increase in child violence as a result of mass media It also considers the response of the caring professions and the Modern Left who campaign amongst other things for the establishment of children s rights

Socio-Economic Rights, Democracy And The Courts Aoife Nolan, 2011-09-15 This book is concerned with children s economic and social rights sometimes referred to simply as children s social rights Despite increased academic interest in both children s rights and socio economic rights over the last two decades children s social and economic rights remain a comparatively neglected area This is particularly true with regard to the role of the courts in the enforcement of such social rights Aoife Nolan s book remedies this omission focussing on the circumstances in which the courts can and should give effect to the social and economic rights of children The arguments put forward are located within the context of and develop long standing debates in constitutional law democratic theory and human rights The claims made by the author are supported and illustrated by concrete examples of judicial enforcement of children s social and economic rights from a variety of jurisdictions The work is thus rooted in both theory and practice The author brings together and addresses a wide range of issues that have never previously been considered together in book form These include children s socio economic rights children as citizens and their position in relation to democratic decision making processes the implications of children

and their rights for democratic and constitutional theory the role of the courts in ensuring the enforcement of children's rights and the debates surrounding the litigation and adjudication of social and economic rights This book thus represents a major original contribution to the existing scholarship in a range of areas including human and specifically social rights legal and political theory and constitutional law Children's rights were often thought to be synonymous with economic and social welfare prior to the adoption of the Convention on the Rights of the Child in 1989 Ironically since that time remarkably little scholarship has been devoted to the vitally important economic and social rights dimensions of children's rights Nolan's book singlehandedly remedies that neglect and does so in a sophisticated nuanced and balanced way It provides a superb account of the pros and cons of judicial activism in promoting these rights Philip Alston John Norton Pomeroy Professor NYU Law School Thus far the burgeoning literature on the judicial enforcement of socio economic rights has failed to engage in a sustained systemic manner with this topic from the perspective of children and the complexity of their status as citizens within contemporary democracies This book fills this gap and makes a major contribution to the literature in the three interrelated areas of the judicial review of socio economic rights claims children's rights and democratic theory Nolan navigates skilfully through the dense but rich literature in these areas as well as relevant international and comparative law In so doing she illuminates both the pitfalls and potential of resorting to courts in a partial response to the multifaceted and deeply entrenched global phenomenon of child poverty Professor Sandra Liebenberg HF Oppenheimer Professor of Human Rights Law University of Stellenbosch Law Faculty Winner of the Kevin Boyle Book Prize 2012 awarded by the Irish Association of Law Teachers to a book that is deemed to have made an outstanding contribution to the understanding of law
