Leonard, 2009-02-15 Magical out of this world an experience you ll never forget Peter Weir s films have enthralled audiences around the globe Whether in iconic Australian works such as Picnic at Hanging Rock and Gallipoli or international mainstream thrillers such as Witness Weir has deliberately created mystical movie experiences Modern cinema studies is used to dissecting films on the basis of gender class or race now for the first time Richard Leonard shows that a mystical gaze also exists and is exercised in the secular multiplex temples of today The Mystical Gaze of the Cinema is a meticulous and accessible book that uses a psychoanalytic approach incorporating the insights of Jung film theory and theology to break new ground in what continues to be a hot topic in cinema studies the spectator screen relationship Leonard provides a fresh and innovative perspective on what happens when we behold a film **Popular Hindi Cinema** Ronie Parciack, 2016-04-20

The popular Hindi film industry is the largest in India and the most conspicuous film industry in the non Western world This book analyses the pivotal visual and narrative conventions employed in popular Hindi films through the combined prism of film studies and classical Indian philosophy and ritualism The book shows the films outside Western paradigms as visual manifestations and outcomes of the evolution of classical Hindu notions and esthetic forms These include notions associated with the Advaita Ved nta philosophical school and early Buddhist thought concepts and dynamism stemming from Hindu ritualism rasa esthetic theories as well as Brahmanic notions such as dharma religion law order and mok a liberation These are all highly abstract notions which the author defines as the unseen a cluster of diversified concepts denoting what subsists beyond the phenomenal what prevails beyond the empirical world of sa s ra and stands out of this world alaukika while simultaneously being embodied and transformed within visual filmic imagery codes and semiotics that are teased out and

analyzed A culturally sensitive reading of popular Hindi films the interpretations put forward are also applicable to the Western context They enable a fuller understanding of religious phenomena outside the primary religious field within the vernacular arenas of popular culture and mass communication The book is of interest to scholars in the fields of Indology modern Indian studies film media and cultural studies

Representing Religion in World Cinema S. Plate, 2016-04-30 Religious traditions have provided a seemingly endless supply of subject matter for film from the Ten Commandments to the Mahabharata At the same time film production has engendered new religious practices and has altered existing ones from the cult following of The Rocky Horror Picture Show to the 2001 Australian census in which 70 000 people indicated their religion to be Jedi Knight Representing Religion in World Cinema begins with these mutual transformations as the contributors query the two way interrelations between film and religion across cinemas of the world Cross cultural and interdisciplinary by nature this collection by an international group of scholars draws on work from religious studies film studies and anthropology as well as theoretical impulses in performance gender ethnicity colonialism and postcolonialism

Film, Lacan and the Subject of Religion Steve Nolan, 2011-10-20 In their study of religion and film religious film analysts have tended to privilege religion Uniquely this study treats the two disciplines as genuine equals by regarding both liturgy and film as representational media Steve Nolan argues that in each

case subjects identify with a represented other which joins them into a narrative where they become participants in an ideological reality Finding many current approaches to religious film analysis lacking Film Lacan and the Subject of Religion explores the film theory other writers ignore particularly that mix of psychoanalysis Marxism and semiotics often termed Screen theory that attempts to understand how cinematic representation shapes spectator identity Using translations and commentary on Lacan not originally available to Screen theorists Nolan returns to Lacan s contribution to psychoanalytic film theory and offers a sustained application to religious practice examining several priest films and real life case study to expose the way liturgical representation shapes religious identity Film Lacan and the Subject of Religion proposes an interpretive strategy by which religious film analysts can develop the kind of analysis that engages with and critiques both cultural and religious practice
