Mahayana Buddhism Paul Williams, 2008-07-11 Originating in India Mahayana Buddhism spread across Asia becoming the prevalent form of Buddhism in Tibet and East Asia Over the last twenty five years Western interest in Mahayana has increased considerably reflected both in the quantity of scholarly material produced and in the attraction of Westerners towards Tibetan Buddhism and Zen Paul Williams Mahayana Buddhism is widely regarded as the standard introduction to the field used internationally for teaching and research and has been translated into several European and Asian languages This new edition has been fully revised throughout in the light of the wealth of new studies and focuses on the religion's diversity and richness It includes much more material on China and Japan with appropriate reference to Nepal and for students who wish to carry their study further there is a much expanded bibliography and extensive footnotes and cross referencing Everyone studying this important tradition will find Williams book the ideal companion to their studies

Bodhisattvas of the Forest and the Formation of the Mahayana Daniel Boucher, 2008-09-02 Bodhisattvas of the Forest delves into the socioreligious milieu of the authors editors and propagators of the Rastrapalapariprccha sutra Questions of Rastrapala a Buddhist text circulating in India during the first half of the first millennium C E In this meticulously researched study Daniel Boucher first reflects upon the problems that plague historians of Mahayana Buddhism whose previous efforts to comprehend the tradition have often ignored the social dynamics that motivated some of the innovations of this new literature Following that is a careful analysis of several motifs found in the Indian text and an examination of the value of the earliest Chinese translation for charting the sutra's evolution The first part of the study looks at the relationship between the bodily glorification of the Buddha and the ascetic career spanning thousands of lifetimes that produced it within the socioeconomic world of early medieval Buddhist monasticism The authors of the Rastrapala sharply criticize their monastic contemporaries for rejecting the rigorous lifestyle of the first Buddhist communities an ideal that for the sutra's authors self consciously imitates the disciplines and sacrifices of the Buddha's own bodhisattva career the very career that led to his acquisition of bodily perfection Thus Boucher reveals the ways in which the authors of the Rastrapala authors co opted this topos concerning the bodily perfection of the Buddha from the Mainstream tradition to subvert their co religionists whose behavior they regarded as representing a degenerate version of that tradition In Part 2 Boucher focuses on the third century Chinese translation of the sutra attributed to Dharmaraksa and traces the changes in the translation to the late tenth century The significance of this translation Boucher explains is to be found in the ways it differs from all other witnesses These differences which are significant almost certainly reveal an earlier shape of the sutra before later editors were inspired to alter dramatically the text's tone and rhetoric The early Chinese translations though invaluable in revealing developments in the Indian milieu that led to changes in the text present particular challenges to the interpreter It takes an understanding of not only their abstruse idiom but also the process by which they were rendered from an undetermined Indian language into a

Chinese cultural uh_product One of the signal contributions of this study is Boucher's skill at identifying the traces left by the process and ability to uncover clues about the nature of the source text as well as the world of the principal recipients

Bodhisattvas of the Forest concludes with an annotated translation of the Rastrapalapariprccha sutra based on a new reading of its earliest extant Sanskrit manuscript The translation takes note of important variants in Chinese and Tibetan versions to correct the many corruptions of the Sanskrit manuscript

Mahāyāna Phoenix John S. Harding, 2008 The remarkable group of Japanese Buddhists who traveled to Chicago's Columbian Exposition to participate in the 1893 World's Parliament of Religions combined religious aspirations with nationalist ambitions Their portrayal of

Buddhism mirrored modern reforms in Meiji Japan and the historical context of cultural competition on display at the 1893 World's Fair Japan's primary exhibit the Hor Phoenix Pavilion provided an impressive display of traditional culture as well as apt symbolism for Japan's modern rise to prominence for Buddhist renewal succeeding devastating Meiji persecution for Mahayana revitalization following withering attacks of Western critics and for Chicago's own resurrection from the ashes of the Great Fire This book examines the Japanese delegates portrayal of Mahayana Buddhism as authentically ancient pragmatically modern scientifically consistent and universally salvific The Japanese delegates were active and relatively successful agents who seized the opportunity of the 1893 forum to further their own objectives of promoting Japan and its Buddhism to the West repairing negative evaluations of the great vehicle of Buddhism differentiating Japanese Buddhism from the Buddhism of other countries distinguishing their tradition as the evolutionary culmination of all religions and shaping modern Buddhism in Asia and the West
