Our America Life And Death On The South Side Of Chicago:

Our America Lealan Jones, Lloyd Newman, David Isay, 1998-05 The award winning creators of National Public Radio's Ghetto Life 101 and Remorse The 14 Stories of Eric Morse combine talents with a young photographer to show what life is like in one of the country's darkest places Chicago's Ida B Wells housing project Photos Our America: Life and Death on the South Side of Chicago LeAlan Jones, 1998 Two young men raised in the Chicago ghetto tell what life is like for the residents of the city's housing projects drawing from hours of interviews they conducted for two National Public Radio documentaries and provide an on site account of the death of Eric Morse a little boy dropped out of a fourteenth floor window **Our America** LeAlan Jones, 2002 *A Change Is Gonna Come* Craig Werner, 2021-07-20 extraordinarily far reaching highly accessible Notes No one has written this way about music in a long long time Lucid insightful with real spiritual political intellectual and emotional grasp of the whole picture A book about why music matters and how and to whom Dave Marsh author of Louie Louie and Born to Run The Bruce Springsteen Story This book is urgently needed a comprehensive look at the various forms of black popular music both as music and as seen in a larger social context No one can do this better than Craig Werner Henry Louis Gates Jr W E B Du Bois Professor of the Humanities Harvard University Werner has mastered the extremely difficult art of writing about music as both an aesthetic and social force that conveys implies symbolizes and represents ideas as well as emotion but without reducing its complexities and ambiguities to merely didactic categories African American Review *A Change Is Gonna Come* is the story of more than four decades of enormously influential black music from the hopeful angry refrains of the Freedom movement to the slick pop of Motown from the disco inferno to the Million Man March from Woodstock's Summer of Love to the war in Vietnam and the race riots that inspired Marvin Gaye to write What's Going On Originally published in 1998 *A Change Is Gonna Come* drew the attention of scholars and general readers alike This new edition featuring four new and updated chapters will reintroduce Werner's seminal study of black music to a new generation of readers Craig Werner is Professor of Afro American Studies at the University of Wisconsin and author of many books including *Playing the Changes* From Afro Modernism to the Jazz Impulse and *Up Around the Bend* An Oral History of Creedence Clearwater Revival His most recent book is *Higher Ground* Stevie Wonder Aretha Franklin Curtis Mayfield and the Rise and Fall of American Soul *The Poverty of Life-Affirming Work* Mechthild Hart, 2001-12-30 While society may applaud middle and upper class women who decide to stay home to raise their children there exists a decided abhorrence for single mothers welfare queens who collect public funds but do not work Here Hart challenges traditional notions of welfare mothers by providing first hand accounts of poor urban mothers and revealing the life affirming and moral aspects of their motherwork a form of subsistence work involving many tasks that incorporate the physical psychological emotional and spiritual dimensions of life Though the mothering work these women do is vilified in public discourse as unnecessary and unwanted the author contends that the ethical and epistemological dimensions of life

affirming work a key component of motherwork not only structure social political activism but also educational efforts that are oriented towards radical change Concrete experiences of motherwork policy analyses regarding welfare reform efforts oriented towards educational and epistemological border crossings and collective struggles for social change are examined here in a larger theoretical political economic framework Pulling together the many strands of different theoretical fields addressing issues related to critical transformative pedagogy community activism and forms of unpaid work this unique work calls for the unlearning of ways of thinking and feeling which uphold prejudices and life threatening social political hierarchies While the public may sneer at women who choose to accept welfare in order to stay home to raise their children these mothers must continue to perform this invisible work in order that their children may break the cycle of poverty in which they are entrenched The author examines ways in which these mothers organize and carry out educational efforts and political work in the context of extreme poverty and against the harsh criticisms of an unforgiving public Ultimately Hart hopes to convince the public of the inherent importance of motherwork and break down the prejudices that have worked against the urban poor and single mothers

The Persistence of Poverty in the United States Garth L. Mangum,Stephen L. Mangum,Andrew M. Sum,2003 For more than thirty years students scholars and policymakers have relied on successive editions of Sar A Levitan s Programs in Aid of the Poor Now in conjunction with the eighth edition of that classic work coauthors Garth Mangum Stephen Mangum and Andrew Sum offer a brief but comprehensive overview of the facts of poverty in the United States its underlying causes and the reasons for its persistence in the richest nation in the world Providing a wealth of data and cogent analysis this book can be used along with Programs for additional

background or can stand on its own This volume demonstrates more starkly than its parent the persistence of poverty in this nation Though some individuals and families manage to escape it the phenomenon diminishes not at all or at least very little Having been sobered by this thought the student may ponder what more might conceivably be done to reduce the incidence of that endemic economic and social disease from the Preface

Handbook of Interview Research Jaber F. Gubrium, James A. Holstein, 2002 The Handbook of Interview Research is the most ambitious attempt yet at examining the place of the interview in contemporary society Interviewing is the predominant mode of research in the social sciences It is also the stock in trade of information seekers in organizations and institutions of all kinds as well as in the mass media Across the board interviews provide today's leading window on the world of experience The Handbook offers a comprehensive examination of the interview at the cutting edge of information technology Drawing upon leading experts from a wide range of professional disciplines this book addresses conceptual and technical challenges that confront both academic researchers and interviewers with more applied goals From interview theory to the nuts and bolts of the interview process the coverage is impressively broad and authoritative The Handbook of Interview Research is both encyclopedic and thematic As an encyclopedia it provides extensive discussions of the methodological issues now surrounding interview practice offering a multi-faceted assessment of what has become the method of choice for obtaining personal information in today's society But the Handbook also is a story which spins a particular tale of interviewing one that moves from the commonly recognized individual interview to what is called the interview society The gist of the presentation is that we can no longer regard the interview as simply an instrument for gathering data but must now also view it as an integral part of society

Enduring Liberalism Robert Booth Fowler, 2021-10-29 Has the United States become more pluribus than unum In terms of the nation's political beliefs Robert Booth Fowler answers both yes and no While his study affirms significant diversity among an elite cadre of public intellectuals it vigorously denies it in a general public that collectively adheres to the same set of liberal core values *Enduring Liberalism* pursues two objectives One it explores the political thought of public intellectuals and the general public since the 1960s Two it assesses contemporary and classic interpretations of American political thought in light of the study's findings Fowler interprets the writings of public intellectuals like Robert Bellah Jean Bethke Elshtain Michael Walzer William Bennett Seymour Martin Lipset William Galston and others as well as survey data of American political attitudes to spotlight this oft-ignored divide between citizens and high profile commentators whose contentious debates are mistakenly assumed to reflect countrywide rifts Fowler's argument is straightforward but the interpretation is controversial He recounts how the consensus liberal view in post World War II American political thought collapsed among public intellectuals during the tumult of the 1960s and

remains so to this day His book examines the resultant diversity among contemporary public intellectuals focusing on three predominant themes concern for community worry about the environment and interest in civil society In marked contrast to these disputatious commentators Fowler finds the realm of popular opinion to be characterized by much greater consensus Indeed there seems to be a trend toward an even more general embrace of the liberal values that characterize our attitudes toward the individual individual liberty political equality economic opportunity and consent of the governed Liberal values above all the celebration of the individual and individual rights have revolutionized the so called private realms of life like family and religious communities to an extent unimagined in the 1950s From these conclusions Fowler demonstrates that most interpretations of American political thinking have exaggerated the extent of conflict and diversity in our nation s often raucous policy disputes But he also cautions us not to overstate the public s widely shared liberal values and by doing so miss opportunities to facilitate problem solving or to recognize the ways in which our reform efforts may be constrained *City*

nothing else I have seen in our field Jim Burns author of Teenology The Art of Raising Great Teenagers **The African-American Male** Jacob U. Gordon,1999-07-30 The plight of the Black male in American society has been well documented by scholars and practitioners Although Black males represent only 6 percent of the American population they represent about 40 percent of the prison population the number of Black males in prison and jail exceeds the number of Black males in higher education The homicide rates for Black males were 72.5 percent per 100 000 nearly eight times higher than for White males This bibliographic volume explores the extent to which American academia has addressed these problems It will be an invaluable resource for researchers as well as practitioners in social service programs In addition to more than 400 annotated publications the book includes a selected list of works on the African American male and a compilation of doctoral dissertations This publication will serve as a reference in public as well as academic libraries human service agencies government policymaking agencies and in academic courses in gender and ethnic studies criminal justice and social psychology Urban Outcasts Loïc Wacquant,2013-04-26 Breaking with the exoticizing cast of public discourse and conventional research Urban Outcasts takes the reader inside the black ghetto of Chicago and the deindustrializing banlieue of Paris to discover that urban marginality is not everywhere the same Drawing on a wealth of original field survey and historical data Loïc Wacquant shows that the involution of America's urban core after the 1960s is due not to the emergence of an underclass but to the joint withdrawal of market and state fostered by public policies of racial separation and urban abandonment In European cities by contrast the spread of districts of exclusion does not herald the formation of ghettos It stems from the decomposition of working class territories under the press of mass unemployment the casualization of work and the ethnic mixing of populations hitherto segregated spawning urban formations akin to anti ghettos Comparing the US Black Belt with the French Red Belt demonstrates that state structures and policies play a decisive role in the articulation of class race and place on both sides of the Atlantic It also reveals the crystallization of a new regime of marginality fuelled by the fragmentation of wage labour the retrenchment of the social state and the concentration of dispossessed categories in stigmatized areas bereft of a collective idiom of identity and claims making These defamed districts are not just the residual sinkholes of a bygone economic era but also the incubators of the precarious proletariat emerging under neoliberal capitalism Urban Outcasts sheds new light on the explosive mix of mounting misery stupendous affluence and festering street violence resurging in the big cities of the First World By specifying the different causal paths and experiential forms assumed by relegation in the American and the French metropolis this book offers indispensable tools for rethinking urban marginality and for reinvigorating the public debate over social inequality and citizenship at century's dawn Civic Literacy in Schools and Communities Brian Charest,2021 Because many of our schools fail to address the health and well being of both students and their communities teachers and teacher educators are in need of a revised vision for teaching and schooling one that is committed to civic and community engagement where we see school and community

building as reciprocal not separate projects This vision of schooling places the health and well being of individuals and their communities at the center of the curriculum and sees partnership and collaboration with communities and community and democratic revitalization as a central goal of education Teachers need specific strategies and ideas for reviving our democracy and revitalizing communities strategies that I have learned from community organizers and then used to guide me in my own journey as a teacher and a teacher educator e g building intentional relationships organizing listening campaigns integrating and valuing local knowledge teaching democratic practices giving students choice and agency in school exploring who we are and what and how we know examining our intellectual and ethical commitments mapping community assets holding relational meetings creating community engagement councils working directly with community based organizations CBOs organizing accountability sessions with public officials working to create healthy and sustainable spaces running voter registration drives co creating curriculum with students marching protesting participating in public arts etc Catone 2016

Warren 2005 Mass Imprisonment David Garland,2001-05-15 The quite extraordinary phenomenon of mass imprisonment in the USA needs above all to be identified David Garland and his excellent range of criminological contributors go well beyond this by showing how to start thinking and arguing about what these unprecedented statistics might mean for all modern societies Professor Stan Cohen Department of Sociology LSE This major new volume of papers by leading criminologists sociologists and historians sets out what is known about the political and penological causes of the phenomenon of mass imprisonment Mass imprisonment American style involves the penal segregation of large numbers of the poor and minorities Imprisonment has become a central institution for the social control of the urban poor Other countries are now looking to the USA to see what should be learned from this massive and controversial social experiment This book describes mass imprisonment s impact upon crime upon the minority communities most affected upon social policy and more broadly upon national culture This is a book that all penologists and policy makers should read **When Helping Hurts** Steve Corbett,Brian Fikkert,2009-06-24 Churches and individual Christians typically have faulty assumptions about the causes of poverty resulting in the use of strategies that do considerable harm to poor people and themselves When Helping Hurts provides foundational concepts clearly articulated general principles and relevant applications The result is an effective and holistic ministry to the poor not a truncated gospel A situation is assessed for whether relief rehabilitation or development is the best response to a situation Efforts are characterized by an asset based approach rather than a needs based approach Short term mission efforts are addressed and economic development strategies appropriate for North American and international contexts are presented including microenterprise development **Mothering by Degrees** Jillian M. Duquaine-Watson,2017-05-31 In Mothering by Degrees Jillian Duquaine Watson shows how single mothers pursuing college degrees must navigate a difficult course as they attempt to reconcile their identities as single moms college students and in many cases employees They also negotiate a balance between what they think a good mother should be and what

society is telling them and how that affects their choices to go to college and whether to stay in college or not The first book length study to focus on the lives and experiences of single mothers who are college students *Mothering by Degrees* points out how these women are influenced by dominant American ideologies of motherhood and the institutional parameters of the schools they attend and argues for increased attention to the specific ways in which the choices challenges and opportunities available to mothers are shaped within their specific environments as well as the ways in which mothers help shape those environments
