Empowering the West Jay L. Brigham, 1998 Westerners were at the forefront of the debate over electric power development even before the construction of large federally owned dams in the 1930s At the heart of this debate was a conflict between public power advocates and the private utility industry over control of the environment a struggle that was played out in the political arena In this book Jay Brigham describes that rivalry in the West in the years before the New Deal Focusing on the conservative city of Los Angeles and its liberal counterpart Seattle as well as on several small towns in the Midwest Brigham shows how fierce battles broke out as private and public systems competed for customers and how despite

the differences between these two cities public power ultimately triumphed in each **Powers of the Press** Aled Jones, 2016-12-05 The power of the popular press presents all modern societies with difficulties It is however a problem with a history the hold of the press over public opinion was debated with urgency throughout the 19th century This book looks at the ways in which individuals pressure groups political organisations and the state sought to understand the mass communications media of the 19th century and use them to influence public opinion and effect moral and social reform Aled Jones addresses the problem by using three approaches first he considers the 19th century theories of the influence of communications media on patterns of social thought and behaviour then he examines attitudes towards the press in both high and popular culture finally he explores the social and intellectual world of the reader the consumer both of the press as a commodity and of the hidden moral strategies that were built into it The tensions between Victorian moral imperatives and the operation of the free commercial market raised issues of great public concern such as whether the mass media should be under private or public control These tensions have dominated the way in which Britain and other western societies have thought about the newer broadcasting media but their origins are older and more complex than studies of contemporary media acknowledge
