Melvin Small, Joel David Singer

Resort To Arms International And Civil Wars 1816 198:

Resort to Arms Melvin Small,J. David Singer,1982-04 Small and Singer have made a valuable collection of data even more valuable by opening up more possibilities for systematic research on conflict The Annals Vol 475 Sept 1984 At first glance one could easily miss the point that this book is the second edition of The Wages of War with a new title and authorship reversed But surely the reissuing of the source book for the single most important data collection effort in peace research to date calls for celebration The extensive bibliography of the Correlates of War project published in the back of this book testifies to the range and importance of the research which has resulted from the painstaking work performed by Singer and Small However there s suff

Resort to Arms Melvin Small,Joel David Singer,1993 Small and Singer have made a valuable collection of data even more valuable by opening up more possibilities for systematic research on conflict The Annals Vol 475 Sept 1984 At first glance one could easily miss the point that this book is the second edition of The Wages of War with a new title and authorship reversed But surely the reissuing of the source book for the single most important data collection effort in peace research to date calls for celebration The extensive bibliography of the Correlates of War project published in the back of this book testifies to the range and importance of the research which has resulted from the painstaking work performed by Singer and Small However there s suff

A Guide to Intra-state Wars Jeffrey S. Dixon,Meredith Reid Sarkees,2015-10-22 This title describes how civil war is defined and categorized and presents data and descriptions for nearly 300 civil wars waged from 1816 to the present Analyzing trends over time and regions this work is the definitive source for understanding the phenomenon of civil war

Logic of Conflict Steven Greffenius,2019-07-12 The author s argument ties this literature to a field that is often called the logic of inquiry He criticizes an influential and deliberately analytical approach to the study of international conflict and show what can be gained by bringing more integrative or synthetic approaches to bear on problems in the field The study started as an effort to work out some problems in international relations theory and it has remained that through eight years of writing and research Still the book is more than incidentally about the Middle East and evidence from the region informs the argument made here This evidence is of two kinds traditional historical material from both primary and secondary sources and data on events that have occurred during the course of both conflictual and cooperative exchanges between the actors there The treatment focuses on the relationship between Egypt and Israel between 1967 and 1979 a period that saw their relations pass from the most intense antagonism to a reasonable degree of comity if not friendship

International Security and Conflict Bruce Russett,2017-03-02 This important collection of classic articles and papers presents a variety of perspectives on key topics in international security and conflict These include how the structure of the international system constrains nations choices how domestic politics may affect decisions on war and peace how individual and small group behaviour can affect foreign policy and how international organizations can affect the security of states and peoples Some of the selections are classics but most

represent recent research and analysis They draw on international scholars working from different kinds of theories realist liberal institutionalist and constructivist and research methods to ask why nation states may fight violently or stay at peace

Resort to Arms Melvin Small,J. David Singer,1982-04-01 Small and Singer have made a valuable collection of data even more valuable by opening up more possibilities for systematic research on conflict The Annals Vol 475 Sept 1984 At first glance one could easily miss the point that this book is the second edition of The Wages of War with a new title and authorship reversed But surely the reissuing of the source book for the single most important data collection effort in peace research to date calls for celebration The extensive bibliography of the Correlates of War project published in the back of this book testifies to the range and importance of the research which has resulted from the painstaking work performed by Singer and Small However there s suff Resort to War Meredith Reid Sarkees, Frank Wayman,2010-02-16 This reference book analyzes more than a thousand wars waged from 1816 to 2007 It lists and categorizes all violent conflicts with 1 000 or more battle deaths and provides an insightful narrative for each struggle It describes each encounter and highlights major patterns across eras and regions identifying which categories of war are becoming more or less prevalent over time and revealing the connections between the different types of war *The Criminal Elite* James William Coleman,2005-07-22 The problem of white collar crime has been grabbing headlines and gaining increased public attention In this timely new edition of The Criminal Elite James William Coleman goes beneath the surface impressions to lay out the common forms and causes of white collar crime and analyze the toll it takes on American society The Sixth Edition integrates a large body of new research statistics and legal developments and offers detailed up to date coverage of such topics as intellectual property infringements identity theft the new wave of corporate scandals and the growing threats to our civil liberties in our post 9 11 world This new edition can be incorporated into a variety of sociology criminal justice and history courses Who Wins? Patricia L. Sullivan (Ph. D.),Patricia Sullivan,2012-07-16 Why are states with tremendous military might so often unable to attain their objectives when they use force against weaker adversaries Who Wins by Patricia L Sullivan argues that the key to understanding strategic success in war lies in the nature of the political objectives states pursue through the use of military force **War in Human Civilization** Azar Gat,2008 Why do people go to war Is it rooted in human nature or is it a late cultural invention And what of war today is it a declining phenomenon or simply changing its shape This book sets out to find definitive answers to these questions in an attempt to unravel the riddle of war throughout human history Small States and Alliances Erich Reiter,Heinz Gärtner,2013-03-09 The book focuses on the relations between small states and alliances It is on why how and under what conditions states engage in alliances What are the benefits and costs of alliances How are the benefits and costs of alliances allocated among their members What determines who allies with whom Can small states still pursue their own security interests within an alliance Can they even become integral part of an alliance Scholars practitioners policy makers and advisors from several countries discuss these issues They address historical empirical and

theoretical topics and give policy recommendations

The Closure of the International System Lora Anne

Viola, 2020-07-09 As global governance appears to become more inclusive and democratic many scholars argue that international institutions act as motors of expansion and democratization The Closure of the International System challenges this view arguing that the history of the international system is a series of institutional closures in which institutions such as diplomacy international law and international organizations make rules to legitimate the inclusion of some actors and the exclusion of others While international institutions facilitate collective action and common goods Viola's closure thesis demonstrates how these gains are achieved by limiting access to rights and resources creating a stratified system of political equals and unequals The coexistence of equality and hierarchy is a constitutive feature of the international system and its institutions This tension is relevant today as multilateral institutions are challenged by disaffected citizens non Western powers and established great powers discontent with the distribution of political rights and authority

Handbook of Defense Economics Todd Sandler, Keith Hartley, 2007-04-12 The second volume of the Handbook of Defense Economics addresses defense needs practices threats and policies in the modern era of globalization This new era concerns the enhanced cross border flows of all kinds e.g. capital and labor flows revolutionary rhetoric guerrillas and terrorists including the spillovers of benefits and costs associated with public goods and transnational externalities i.e. uncompensated interdependencies affecting two or more nations These ever increasing flows mean that military armaments and armies are less able to keep out security threats Thus novel defense and security barriers are needed to protect borders that are porous to terrorists pollutants political upheavals and conflicts Even increased trade and financial flows imply novel security challenges and defenses Globalization also underscores the importance of a new set of institutions e.g. the European Union and global governance networks and agents e.g. nongovernmental organizations and partnerships This volume addresses the security challenges in this age of globalization where conflicts involve novel tactics new technologies asymmetric warfare different venues and frightening weapons Volume 2 contains topics not covered in volume 1 i.e. civil wars peacekeeping economic sanctions the econometrics of arms races conversion peace economics and the interface of trade peace and democracy Volume 2 also revisits topics from volume 1 where there has been a significant advancement of knowledge i.e. conflict analysis terrorism arms races arms trade military manpower and arms industries All of the main security concerns of today are analyzed Chapters are written by the leading contributors in the topic areas Up to date surveys on the pressing defense issues theoretical empirical and policy issues Coverage of theoretical and empirical studies of terrorism

Contributions by the leading researchers in the field of defense economics

The Causes of War and the Spread of

Peace Azar Gat, 2017-04-14 Azar Gat sets out to resolve one of the age old questions of human existence why people fight and can they stop Spanning warfare from prehistory to the 21st century the book shows that neither an irresistible drive nor a cultural invention deadly violence and warfare have figured prominently in our behavioural toolkit since the dawn of our

species People have always alternated between cooperation peaceful competition and violence to attain evolution shaped human desires A marked shift in the balance between these options has occurred since the onset of the industrial age Rather than modern war becoming more costly it hasn't it is peace that has become more rewarding Scrutinizing existing theories concerning the decline of war such as the democratic peace and capitalist peace Gat shows that they in fact partake of a broader Modernization Peace that has been growing since 1815 By now war has disappeared within the world's most developed areas Finally Gat explains why the Modernization Peace has been disrupted in the past as during the two World Wars and how challenges to it may still arise They include claimants to alternative modernity such as China and Russia anti modernists and failed modernizers that may spawn terrorism potentially unconventional While the world has become more peaceful than ever before there is still much to worry about in terms of security and no place for complacency

Rethinking International Relations Theory Martin Griffiths, 2011-03-02 International Relations IR theory has seen a proliferation of competing and increasingly trenchant worldviews with no consensus on how to evaluate their relative strengths and weakness This innovative new text provides an original interpretation of how best to navigate the clash of perspectives in contemporary IR theory The book provides a systematic overview of the main worldviews such as realism liberalism and constructivism and their associated theoretical underpinnings Placing liberal internationalism at the heart of the debate it argues that the main division in IR theory is between liberal internationalism and its critics Griffiths examines both the strengths and weaknesses of liberal internationalism as a worldview and also explores the competing worldviews that have been generated by the perceived flaws of this perspective Examination of crucial policy issues is incorporated throughout the text restoring the relevance of theory for those who wish to understand those policy issues Moreover this book revitalises the raison d'être of contemporary IR theory and shows the role it can play in making sense of the twenty first century

The Handbook of Israel's Political System Itzhak Galnoor, Dana Blander, 2018-04-30 There is growing interest in Israel's political system from all parts of the world This Handbook provides a unique comprehensive presentation of political life in Israel from the formative pre state period to the present The themes covered include political heritage and the unresolved issues that have been left to fester the institutional framework the Knesset government judiciary presidency the state comptroller and commissions of inquiry citizens political participation elections political parties civil society and the media the four issues that have bedevilled Israeli democracy since its establishment security state and religion the status of Israel's Arab citizens and economic inequities with concomitant social gaps and the contours of the political culture and its impact on Israel's democracy The authors skilfully integrate detailed basic data with an analysis of structures and processes making the Handbook accessible to both experts and those with a general interest in Israel

Contemporary Just War Tamar Meisels, 2017-08-18 This book offers a renewed defense of traditional just war theory and considers its application to certain contemporary cases particularly in the Middle East The first part of the book addresses and responds to the central

theoretical criticisms levelled at traditional just war theory It offers a detailed defense of civilian immunity the moral equality of soldiers and the related dichotomy between *jus ad bellum* and *jus in bello* and argues that these principles taken together amount to a morally coherent ethics of war In this sense this project is traditional or orthodox In another sense however it is highly relevant to the modern world While the first part of the book defends the just war tradition against its revisionist critics the second part applies it to an array of timely issues civil war economic warfare excessive harm to civilians pre-emptive military strikes and state sponsored assassination which require applying just war theory in practice This book sets out to reaffirm the basic tenets of the traditional ethics of war and to lend them further moral support subsequently applying them to a variety of practical issues This book will be of great interest to students of just war theory ethics security studies war and conflict studies and IR in general

Encyclopedia of Violence, Peace, and Conflict, 1999-08-16 The Encyclopedia of Violence Peace and Conflict a three volume set written by more than 200 eminent contributors from around the world takes advantage of increasing worldwide awareness in the public private commercial and academic sectors about manifestations of violence in all segments of society While the contributors do not use these volumes to make specific arguments they do describe and clarify the developments in thought that have led to current theories about and positions on violence and peace Our reviewers consistently note that while many in depth studies of war peace and aggression exist the attendant specialization keeps scholars from learning about related fields No publication competing with the Encyclopedia of Violence Peace and Conflict can satisfy their need for a vast introductory work to such a diverse and socially important field This major work includes more than 190 multidisciplinary articles with over 1 000 cross references and more than 2 000 bibliography entries for further reading which are arranged alphabetically for easy access More than 190 multidisciplinary articles with over 1 000 cross references Article outline and glossary of key terms begin each article Entries arranged alphabetically for easy access Three volume set with subject index of over 750 entries Articles written by more than 200 eminent contributors from around the world

The Crisis of Israel's Democracy, 1948-2025 Ilan Peleg, Ruth Amir, 2025-07-10 The Crisis of Israel's Democracy 1948-2025 Origins Developments and Consequences focuses on Israeli democracy its deep historical origins development over seven decades long term consequences and possible resolutions While most commentaries on Israel's crisis focus on the proposals for judicial reform by the Netanyahu government this study focuses on what it identifies as the fundamental problems of the Israeli regime its ethnonational rather than liberal democratic form its lack of a written constitution undermines the country's deeply divided society the greatly dysfunctional relations between the secular majority and the sizeable Orthodox minority and above all the seemingly permanent occupation of the Palestinian inhabited West Bank Peleg and Amir offer a broad perspective on these causes covering the historical failures of the country's founders an analysis of Israel's constitutional order and regime type commentary on sociopolitical cleavages and the dominant social psychology of Israelis and analysis of the charismatic populism of longtime Israeli prime

minister Benjamin Netanyahu The volume concludes with analyzing future scenarios and possible solutions for Israel's democratic crisis The Crisis of Israel's Democracy offers the most comprehensive analysis of Israel's democratic backsliding to date comparing it to similar worldwide processes

The Constitution in Conflict Robert A. Burt, 1992 In a remarkably innovative reconstruction of constitutional history Robert Burt traces the controversy over judicial supremacy back to the founding fathers Also drawing extensively on Lincoln's conception of political equality Burt argues convincingly that judicial supremacy and majority rule are both inconsistent with the egalitarian democratic ideal The first fully articulated presentation of the Constitution as a communally interpreted document in which the Supreme Court plays an important but not predominant role The Constitution in Conflict has dramatic implications for both the theory and the practice of constitutional law

Enjoying the Melody of Phrase: An Psychological Symphony within **Resort To Arms International And Civil Wars 1816 198**

In a global eaten by displays and the ceaseless chatter of instant interaction, the melodic splendor and emotional symphony developed by the published term frequently fade into the back ground, eclipsed by the relentless sound and interruptions that permeate our lives. However, nestled within the pages of **Resort To Arms International And Civil Wars 1816 198** an enchanting literary prize full of natural emotions, lies an immersive symphony waiting to be embraced. Constructed by a wonderful composer of language, this interesting masterpiece conducts visitors on a mental trip, skillfully unraveling the hidden songs and profound influence resonating within each cautiously crafted phrase. Within the depths of the touching evaluation, we will examine the book is key harmonies, analyze its enthralling publishing fashion, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
