The Future of Resource Sharing Shirley K. Baker, Mary E. Jackson, 2019-12-06 This book first published in 1995 addresses the key issue facing libraries on how to survive in an age of interdependence Increasingly individual libraries must act as if each is part of a world library Instead of being self sufficient each library from the small public library to the large research library must find ways to put materials from this world library into the hands of its patrons and must stand ready to supply materials from its own collection to others both guickly and cost effectively through interlibrary loan It explores the critical questions for making resource sharing work with particular emphasis on interlibrary loan Cooperative collection development economic decision models consortial arrangements copyright dilemmas and the possibilities of technology are explored and a national project to revamp interlibrary loan and document delivery is described and future directions posited Impact of Technology on Authors present historical perspective explore the future and report from multiple perspectives Resource Sharing Thomas C Wilson, 1993-04-29 Here is an outstanding critical analysis of the impact groundbreaking technologies both new and established have had on resource sharing in the information industry It offers a unique opportunity to explore the possibilities of resource sharing in the electronic information age beyond the narrow scope of interlibrary loan This highly selective book not only assesses the technologies that have had a profound impact on resource sharing it also considers the political philosophical social financial legal managerial and attitudinal issues they have affected Technologies that hold great promise for revolutionizing interlibrary cooperation on various levels have been included in this important analysis Impact of Technology on Resource Sharing fosters an in depth understanding of these technologies by including chapters that range from descriptive analyses of particular projects to philosophical discussions of the challenges of change It questions traditional assumptions while providing an opportunity to examine the practical technological options available to libraries today and in the near future This thought provoking book introduces beginning level library professionals to the changes technological innovations have caused in resource sharing For more advanced professionals it is a valuable review of several areas of technology and resource sharing including CD ROM union catalogs collection analysis using the OCLC AMIGOS CD local integrated systems national bibliographic databases utilities large scale system interconnection Z39 50 Internet NREN networking high schools political social impediments to resource sharing financial issues of resource sharing history of library networking Public service technical service and systems librarians will gain a better understanding of technical issues in language that is easy to understand Library administrators will benefit from the review of issues important to the management and decision making process for the future of interlibrary cooperation and sharing Resource Sharing Today Corinne Nyquist, 2014-07-22 Budget constraints challenge collection development in unprecedented ways Collection development has increasingly become a cooperative effort among libraries in geographic proximity When their own library doesn t have certain books or journals users turn to interlibrary loan to obtain the

resources they need However many library science degree programs don t cover interlibrary loan Resource Sharing Today is a practical guide to resource sharing starting with the library across town and ending with libraries on the other side of the globe Chapters cover everything from the ALA s interlibrary loan form to successful innovations such as Virginia Tech s ILLiad to New York s IDS Information Delivery Service Appendices include regional state national and international ILL codes ALA and IFLA forms open access agreements and purchase on demand plans **Impact of Digital Technology on Library Collections and Resource Sharing** Sul H. Lee, 2014-06-11 How are your library and its patrons adjusting to the challenges of the digital age This essential book examines how digital formats are changing libraries today from the perspectives of librarians vendors and library users Editor Sul Lee is an internationally recognized leader in library administration and management The expansion of digital collections has been one of the foremost issues in the library field since the early 1990s and this book addresses important questions about the impact of the digital age Questions like How will scholars and students react to digital formats How will electronic resources change collection development Will libraries stop buying print materials in favor of digital resources Will libraries convert to only digital products or will they have to buy both electronic and print formats Will academic libraries retain their central role in the university With chapters from leading academic deans and directors directors of national organizations of library professionals and book serials vendors including Philip Blackwell CEO of Blackwell Limited this book explores digital resources and technology digital books and what they mean to libraries legislation on copyrights and intellectual property rights in the digital age electronic cooperation between libraries how digital technology can facilitate on campus research partnerships the extent to which academic libraries are embracing electronic publications Access, Ownership, and Resource Sharing Sul H. Lee, 1994 Over 20 papers presented at a meeting in Montecito CA December 1988 discuss data accuracy for geographic information systems used in ecology marketing and other fields They draw from a wide range of physical and human systems taking approaches that vary from statistical to descriptive Both a review of existing knowledge techniques and experience and an analysis of critical research needs in the area of spatial data handling Librarians and other related professionals identify issues involved in obtaining the resources and materials desired by library users and review concepts and projects in resource sharing Highlights include a discussion of collection access and document delivery and a view of how technology affects relations between publishers libraries and vendors No index Annotation copyright by Book News Inc Portland OR Consortium Approach to Resource Sharing in an E-Environment Y.M. Patil, 2014-01-01 The book deals with resource sharing through consortium approach During 1990s due to journals crisis emergence of scholarly electronic publishing shift in print form to electronic version escalation of costs of journals all have compelled library professionals to move towards a strategic relationship in forming consortium by taking advantage of emerging new technologies To begin with resource sharing is briefed covering library cooperation Emergence of electronic publishing has facilitated subscription to e journals access and delivery mechanisms

With proliferation of e resources constraints of copyright laws and licensing library consortia have emerged with a sole aim of moving from organizational self sufficiency to a collaborative survival mode There are several consortia types models at organization level types of libraries participating and parent organizations depending upon coverage of subject areas and purpose of coming together The very purpose of consortia is to deal with pricing and licensing by means of negotiations and strike a deal suitable for stakeholders With growth of different consortia in a country or region it is desirable to coordinate all such efforts and look for National Consortium and go for National Site Licensing Publishers were also providing bundled or big deal offers which could solve journals crisis but not budget constraints as faced by libraries With experience gained in forming consortia library professionals also gained enough skills for negotiations which bring about win win situation to all stakeholders In order to implement consortia activities it is required to have minimum infrastructure including access to Internet e mail service IP addresses networking archiving etc Also the consortia should have some standards protocols such as COUNTER SUSHI and SERU to run activities effectively It is also important to look into archiving needs of consortia on a long term basis as publishers perpetual access suffer from trust factors as a result of which some international agencies have emerged It is also worth looking for consortia migration and merger in order to make better use of available information and enhance consortia interests on a much larger scales There have been concerted efforts in India in forming consortia and a brief of each consortium is given followed by experiences gained which created confidence and strength to run consortia on a Collection Development Maureen Pastine, 2024-11-15 A guide to balancing traditional collection issues sustainable basis with electronic access and document delivery demands Collection Development Access in the Virtual Library helps librarians find solutions and approaches for dealing with changes occurring in interlibrary loan regional consortia commercial vendor relations and ownership versus access Its sophisticated analyses offer you clarity of vision the wisdom of experience and solid advice as you are transported into the virtual library environment with its variety of expectations service complexities and information technologies Interested in reducing local collecting costs while expanding the universe of information and knowledge available to your primary clientele Collection Development will show you just how many options are out there for enhancing your virtual environment as it explores teaching your users advancing bibliographical retrieval and assessment methodologies the delivery of library resources electronically for distributed learning distance education conducting CD Rom collection development comparisons planning space for a more technologically oriented research environment enriching your on line catalog with contents pages and new indexing capabilities the impact of change and shifting paradigms on public services staffing the development of good electronic presentation design Still not convinced that this is the book you need to improve access in your library Think again Collection Development will help you with library control and ordering articles via commercial document delivery it will help you develop coherent and intuitive ways of organizing and presenting available electronic resources it will help you work with administrators and funding agents to attain a balance between traditional

library resources and emerging information technologies and much much more Moving Materials Valerie Horton, Bruce Smith, 2010 A guide to contemporary logistics management for libraries It teaches the impact of pricing on delivery services managing in house delivery systems and the value of outsourcing physical delivery to a carrier service Sharing and Collection Development Sul H Lee, 2020-09-10 Access Resource Sharing and Collection Development explores the role of libraries in acquiring storing and disseminating information in different formats to help you better use technology to share scarce resources and connect library users with collections With an expressed goal of encouraging continued debate and further investigation this book provides you with developing strategies and procedures to meet the challenges you face as a collection development librarian during this dynamic time Among the vital concerns addressed are the competition for limited resources trends in document delivery the evaluation of document delivery products and libraries options for the future The chapters collected in Access Resource Sharing and Collection Development represent the proceedings of the annual conference held by the University of Oklahoma Libraries and the University of Oklahoma Foundation The book provides insight into your peers findings and ideas on access vs ownership the future role of the bibliographer changes in collection management managing restrained resource budgets an emphasis on the library user as customer the growth and acceptance of document delivery as a component of collection development and ILL electronic publishing and copyright issues commercial document delivery services Access Resource Sharing and Collection Development also shows you how to discover and evaluate free resources on the Internet as standards for production promotion and maintenance are nonexistent. The challenge of using these materials is being met by developing criteria for selection looking at cataloging options and working in cooperation with other institutions You ll also learn the different options for document delivery and how to evaluate document delivery products Among the book s advice you should consider the types of document delivery available examine the benefits of combining outside services with in house systems review the criteria for selecting technologies and suppliers and explore examples of institutions creating customized systems
