Stan C. Weeber

Right To Bear Arms The Rise Of Americas New Militias:

The Right to Bear Arms Jonathan Karl, 1995 A history of the modern militia movement identifies the sources of its members beliefs and predicts how their presence may affect the future *Private Armies in the Culture of Capitalism* Stan C. Weeber, 2010-02-01 This book explores an alternative perspective for evaluating the phenomenon of contemporary private armies in the Americas Central Asia and the Middle East I proceed with the basic assumption that there is a worldwide culture of capitalism whose goal is uninterrupted economic growth that is the milieu for the creation and development of such armies The advance or decline of such entities may be related to economic factors and or the resistance of state structures While many private armies are antisystemic a response to the rapidly changing worldwide capitalism and the uncertainties that such changes entail there are also prosystemic private armies such as Blackwater USA whose job is to maintain a milieu for sustained economic growth throughout the world wherever hot spots may arise Private armies can be employed to uphold an economic system as well as to disrupt it **Fracturing the Founding** John E. Finn, 2019-03-15 Many in the radical right including the Tea Party the militia movement the Alt right Christian nationalists the Oath Keepers neo Nazis and a host of others brand themselves as constitutional patriots In *Fracturing the Founding* How the Alt Right Corrupts the Constitution John E Finn one of America s leading constitutional scholars argues that these professions of constitutional devotion serve an important function in mainstreaming the radical right s ideological and policy agenda to camouflage its racism bigotry and sexism to appeal to a broader audience The constitution the extreme right holds as its faith is an odd admixture of the forgotten the rejected the racist and the bizarre Finn illuminates the central precepts of the Alt constitution and shows how and where it differs from the true American Constitution The differences are disturbing The Alt constitution emphasizes absolute rights and unassailable liberties especially for freedom of speech and guns no matter the public interest states rights and a corresponding suspicion of the federal government racial classifications recognized and legitimated by law and privilege for white Christians Finn s book will appeal to all readers interested in contemporary American politics the contemporary radical right the Founding and the history of America s constitution **Citizen-soldiers and Manly Warriors** R. Claire Snyder, 1999 What happens in a tradition that links citizenship with soldiering when women become citizens *Citizen Soldiers and Manly Warriors* Military Service and Gender in the Civic Republican Tradition provides an in depth analysis of the theory and practice of the citizen soldier in historical context Using a postmodern feminist lens Snyder reveals that within the citizen soldier tradition citizenship and masculinity are simultaneously constituted through engagement in civic and martial practices Seeking to sever the connection between masculinity and citizenship Snyder calls for women to make gender trouble by engaging in the practices traditionally constitutive of masculine republican citizenship However in order to reconstitute the Citizen Soldier tradition the only tradition we have that holds the military up to democratic standards we must not only trouble but also reconfigure our understandings of gender and citizenship Thus

gender parity in the American military is not enough We must also change the type of masculinity produced by the military reintroduce the military to its civic purposes expand the citizenship of civic practices to include other non martial forms of service and give citizens a greater role in political decision making *The Angry American* Susan Tolchin,2018-07-03 The Clinton scandals The Rise of militia and patriot groups The proliferation of trash TV Record U S trade deficits Isolated events or is there some connecting thread Susan Tolchin says it s anger mainstream inclusive legitimate public anger and it s not going to vanish until we as a polity acknowledge it and harness its power How to tap into this pervasive political anger and release its creative energy without being swept away by its force is the dilemma of the 1990s for government leaders and citizens alike The second edition of this acclaimed volume has been completed revised and updated to account for the ways in which recent events have contributed to the history causes and consequences of anger in American politics today The book embraces positive solutions to problems we are all entitled to be angry about economic uncertainty cultural divisiveness political disintegration and a world changing faster than our ability to assimilate Tolchin s solutions incorporate a renewed sense of community enhanced political access and responsive rather than reactive government *Fascism and Millennial American Cinema* Leighton Grist,2018-05-31 This book examines a spate of American films released around the turn of the millennium that differently address the actuality or possibility of domestic fascism within the USA The films discussed span a diversity of forms genres and production practices and encompass low and medium budget studio and independent releases such as American History X Stir of Echoes and The Believer star and or auteur vehicles such as The Siege Fight Club and American Beauty and high budget high concept science fiction films and franchises such as Starship Troopers Minority Report the Matrix and X Men trilogies and the Star Wars prequels Central to the book is the detailed analysis of the films which is contextualized historically in relation to a period that saw the significant rise of the far Right The book concordantly affords a wider insight into fascism and its various manifestations and how such have been and continue to be registered within American cinema **Political Extremism and Rationality** Albert Breton,2002-01-07 Political extremism is widely considered to be the product of irrational behavior The distinguishing feature of this collection by well known economists and political scientists from North America Europe and Australia is to propose a variety of explanations which all insist on the rationality of extremism Contributors use variants of this approach to shed light on subjects such as the conditions under which democratic parties take extremist positions the relationship between extremism and conformism the strategies adopted by revolutionary movements and the reasons why extremism often leads to violence The authors identify four core issues in the study of the phenomenon the nature definition of extremism and its origins in both democratic and authoritarian settings the capacity of democratic political systems to accommodate extremist positions the strategies civil disobedience assassination lynching chosen by extremist groups and the circumstances under which extremism becomes a threat to democracy **Encyclopedia of Law Enforcement** Larry E Sullivan,2005 Vols 1 and 2 cover U S law enforcement Vol 3

contains articles on individual foreign nations together with topical articles on international law enforcement **Varieties of Comparative Criminology** ,2021-10-18 According to Durkheim comparative sociology is sociology itself Comparative criminology goes back to the days of Durkheim but today it is possible to conduct group comparisons in many settings and with an incredible array of data This book represents a variety of approaches making comparisons The emphasis is on creative methods challenging theory and unusual subject matter Topics range from Micro Macro Criminology to Police Strength and from Women Police to Crime Prevention Policies in the UK and the US Contributors are Cyndi Banks Adam C Bouloukos Ken Clark Ronald V Clarke Brett Dakin Graham Farrell Joshua D Freilich Gregory J Howard Erin Lake Gloria Laycock Edward R Maguire Mangai Natarajan Graeme Newman Jeremy A Pienik Rebecca Schulte Murray Mark Seis Shlomo Giora Shoham and Andromachi Tseloni **Fighting the Last War** Jeffrey M. Bale,Tamir Bar-On,2024-01-24 The authors argue that the potential threat of a resurgence of fascism has been consistently exaggerated from 1945 until present day that the ongoing lack of conceptual and definitional clarity with respect to terms like fascism the radical right the alt right white supremacism populism racism etc has enabled ill informed or dishonest commentators to distort their meaning and abusively misapply those labels so as to delegitimize their political opponents and that the political and economic elites in charge of contemporary Western societies are now deliberately exaggerating and exploiting the threat posed by the domestic radical right in order to facilitate vilifying harassing de platforming censoring canceling and repressing disgruntled citizens no matter where they may lie along the political spectrum who openly criticize and vigorously oppose their agendas The authors also advocate the use of well established scholarly methods for carrying out research on the right and provide precise definitions of various terms in order to facilitate the development of more accurate categorizations
