Right Brain People In A Left Brain World

Richard C. Maddock

Right Brain People In A Left Brain World:

Right-Brained Children in a Left-Brained World Laurie Parsons, Jeffrey Freed, 2012-07-17 Jeffrey Freed and Laurie Parsons provide an effective method for helping children with Attention Deficit Disorder excel in a classroom setting In straightforward language this book explains how to use the innovative Learning Styles Inventory to test for a right brained learning style help an ADD child master spelling and build confidence by committing complicated words to visual memory tap an ADD kid s amazing speed reading abilities by stressing sight recognition and scanning rather than phonics access the child s capacity to solve math problems of increasing often astonishing complexity without pen or paper capitalize on the writing and weaning technique to help the child turn mental images into written words and win over teachers and principals to the right brained approach the ADD child thrives on For parents who have longed to help their ADD child quickly and directly Freed and Parsons s approach is nothing short of revolutionary This is the first book to offer them reason for hope and a clear strategy for enabling their child to blossom *World's First Beyond Midbrain Activation Train The Trainer Manual* Hitesh Parmar, 2014-12-13 This is train the trainer manual intended for trainers of Midbrain Activation who have midbrain activation franchise and or midbrain activation music but don t get enough results or want to improve results Generally people buy cheap midbrain activation music or midbrain activation franchise but that is without proper midbrain activation training and get less or no results at all We are providing Midbrain Activation Midbrain Activation Music Midbrain Activation Book Midbrain Activation Franchise Midbrain Activation Training Midbrain Activation Train The Trainer etc This course manual all details and scientific explanations needed for trainers Motigraphics Richard C. Maddock, 2000-01-30 Motigraphics is the natural complement to demographics and psychographics the completion of a triad For consumers because motives are the most important dimension of human behavior motives lead directly to decisions and decisions lead directly to purchasing behavior Demographics and psychographics tell us the what when where and how of consumer behavior but motigraphics tells us why consumers do what they do Dr Maddock maintains that academic psychology has failed to provide a formal approach to motivation thus marketers have never been able to get a firm grasp on why consumers prefer what they do why they cancel and don t renew and what factors enter into their decision making at the point of sale With Motigraphics we can now measure and compute motives and the strength of motivation allows us to determine how much equity a brand Motigraphics allows us to describe customer loyalty in terms of a quantitative motivational profile and scale Not only does Dr Maddock show how to measure motives he also helps us assess the amount of emotion involved in a product or service Since most consumer decisions are based on emotion not reason the importance of Dr Maddock s book for psychologists marketers and advertising and sales professionals is self evident and inestimable Brainstyles Marlane Miller, 2012-09-25 In this insightful inspirational self help book readers will journey from the hard edged realities of genetics and personal limitations to a limitless spiritual path and personal mastery of one s brainstyle Each of us has a natural

brainstyle wired into our genes Your brainstyle is your particular set of gifts the essence of who you are Neurological research has shown that the left and right sides of the brain are accessed at different speeds and in varying sequences in different people This is critically important when making decisions So important that relationships and businesses pivot around those judgments By understanding how your brainstyle mandates your decisions you can deliver your best in any relationship Entertaining and easy self tests help you to identify your brainstyle Clarity and focus follow along with a new foundation for self esteem beyond personal insights to authentic ways of interacting with others that draw out the best in each of you Cosmic Habits Mahavir Singh,2025-10-14 In today s fast paced world where people are overwhelmed by desires high expectations and the constant chase for material possessions luxury and power I find myself turning back to the Bhagavad Gita again and again for guidance and clarity Its timeless teaching on the way of living is as relevant today as they were thousands of years ago No matter what challenges we face in life it offers guidance for everything Krishna comes to us from a different time but His teachings are timeless Psychology and Philosophy are two inseparable dimensions of human life Modern psychology helps us understand our thoughts emotions behaviours and mindset while philosophy provides the foundation for understanding the deeper meaning purpose and principles that guide our existence Explore the nature you live in build habits that aligned with the universal law of nature to harmonize with your circadian rhythm your biological clock Recognize your connection with the larger universe Find your life s purpose your true identity and the image you create in the mind of others This book is a perfect blend of science psychology philosophy and spirituality It reveals the practical aspects of Vedic knowledge and their relevance to contemporary life In a world that never stops rushing it will help you to slow down reconnect and realign with what truly matters It offers inspiration for children guidance for managers wisdom for leaders and imagination for creators **Soul Whispers:** Nikki Drennan,2016-06-14 This story has morphed through the years and has finally formed in the words of this book It is a journey to reach awareness it is a creation of space it is a remembering a reconnecting with soul It is a gentle finding of yourself An acknowledgement of the fact that we are mind body and soul It is a path to a better understanding of who we are a guide as to how we can look for more and a puzzle into which we can fit the pieces It acknowledges the various spaces we may find ourselves in as we go through life It helps us to really see these spaces for what they are and shows us how to choose the spaces we are comfortable with This book is meant to be a whisper to us of what we already know but just havent realized As a reminder it nudges memories paints the pictures and then names the spaces Each chapter concentrates on a certain space we may find ourselves in Each chapter completes with a gentle visualization to help us acknowledge the space Namaste **Making Sense of the Chaos** Bobbie Stevens PhD,2017-07-20 In Making Sense of the Chaos we discover the evolutionary process that underlies the total chaos we are seeing in the world today and what we can do about it Could it be that there is one misconception that underlies all the chaos Our early history records a time when spiritual leaders informed the people about how the world worked and how to live

their lives We find an example of this with the 10 Commandments in the Bible As time passed we moved from being guided by spiritual leaders to trusting in science to show us how the world works and how to live our lives Making Sense of the Chaos brings us up to date on the discoveries of science and the realization that their original theory was incorrect They have now discovered that the world doesn't work the way they believed did In this book we can see how this one incorrect belief has shaped every aspect of our lives and is the root cause of what we are seeing in the world today Dr Stevens shares with us what that incorrect belief is and how it has shaped our lives And most importantly how we can correct that belief and change our lives and the world

Healing Plants and Animals from a Distance Jim PathFinder Ewing, 2012-06-01 Using simple rituals whose roots draw from shamanism spirituality religion Native American studies vibrational energy and alternative medicine becoming conscious of healing abilities is possible This manual demonstrates not only how to gain the knowledge and wisdom afforded by various spirit beings guides and helpers but also how to apply this knowledge in the natural world Key diagnostic methods address specific ways to talk with plants and animals understand what they say and how they say it and how harmony healing and wholeness may be attained in both urban and rural settings Visualization prayer and other techniques for accessing the vibration rates and consciousness of living things are also explored

Demotic Induced Neurosis Todd Andrew Rohrer, 2009-08 A man had an accident He lost his sense of time and emotional capacity This is his seventh attempt to communicate since the accident

Much Ado About Something Larry Culliford, 2015-09-17 Who from a scientific perspective could possibly accept the idea of a virgin birth or any of Christ's miracles much less his death and resurrection Only a child or a Christian possessed of a considerable degree of discernment This enthralling book reveals how we may develop from childhood innocence to spiritual maturity via a series of psychological stages through constant but often unconscious communication with the Holy Spirit Growth will most often occur through adversity and the emotional healing that accompanies acceptance of God's Will Such experiences encourage the letting go of juvenile attachments and aversions so we are free to live with increasing spontaneity in the moment wiser and more compassionately attuned to the sufferings of others
