English Usage Guides Ingrid Tieken-Boon van Ostade, 2018 This volume explores both historical and current issues in English usage guides or style manuals Chapters look at how and why these guides are compiled and by whom what sort of advice they contain how they differ from grammars and dictionaries and how attitudes to usage have changed **The Broadview Guide to Writing - Fifth Edition** Doug Babington, Don LePan, Maureen Okun, Victoria Anderson, 2010-02-12 The *Broadview Guide to Writing* is a concise yet uncommonly thorough text with a fresh approach to the craft of essay writing The first part of the book discusses the style and structure of essay writing and includes a useful discussion of the intangibles involved in the writing process such as confidence perseverance and a willingness to deal with criticism constructively The second part of the book provides thorough coverage of grammar and usage in a comprehensive reference guide ranging from the simplest mechanical issues such as subject verb agreement to subtle distinctions between words that have similar meanings A wide range of examples is included throughout the book The fifth edition incorporates the 2008 changes to MLA Style guidelines for documentation and includes a number of other changes that make it far better suited than previous editions to the needs of American writers in the twenty first century *The Broadview Guide to Writing - Sixth Edition* Don LePan, Doug Babington, Maureen Okun, 2015-06-11 Increasingly writing handbooks are seen as over produced and overpriced One stands out *The Broadview Guide to Writing* is published in an elegant but simple format and sells for roughly half the

price of its fancier looking competitors For the sixth edition the coverage of MLA APA Chicago and CSE styles of documentation has been substantially expanded as well as updated Also expanded is coverage of academic argument of writing and critical thinking of writing about literature of paragraphing of how to integrate quoted material into one's own work of balance and parallelism and of issues of gender race religion etc in writing The chapter Seeing and Meaning Reading and Writing About Visual Images is entirely new The online materials including the selection of interactive exercises have also been revised considerably *How to Be Good with Words* Don LePan, Laura Buzzard, Maureen Okun, 2017-02-28 In recent decades the contested areas of English usage have grown both larger and more numerous English speakers argue about whether we should say man or humanity fisher or fisherman whether we ought to speak of people as being disabled or challenged or differently abled whether it is acceptable to say that's so gay More generally we ask can we use language in ways that avoid giving expression to prejudices embedded within it Can the words we use help us point a way towards a better world Can we ask such questions with appropriate seriousness while remaining open minded and while retaining our sense of humor To all these questions this concise and user friendly guide answers yes while offering clear headed discussions of many of the key issues **The Broadview Book of Common Errors in English - Fifth Edition** Don LePan, 2003-04-17 The Broadview Book of Common Errors in English offers full coverage of such common mistakes as commas splices sentence fragments words frequently confused words frequently misspelled mixed metaphors and subject verb agreement errors In each case the problem is clearly explained with examples illustrating both the nature of the trouble and how to put it right Unlike many guides to grammar and usage The Broadview Book refrains from dogmatism it treats correctness in English not as an unchanging objective standard laden with moral overtones but rather as a code of convenience that is extraordinarily useful in helping humans to communicate effectively and even elegantly It thus retains an openness to the inevitable process of change in the English language and recognizes that change does not imply debasement The fifth edition has been updated throughout and includes new material on capitalization on the connections between clear writing and clear arguments on academic citation systems on business writing and on particular difficulties experienced by those whose first language is not English
