A Goal-Oriented Approach to Forest Landscape

Restoration John Stanturf,Palle Madsen,David Lamb,2012-12-05 While restoration ecology has traditionally aimed to re create some putative more natural ecological state forest landscape restoration FLR has emerged over the last decade as an approach aimed more at restoring natural functions while focusing on meeting human needs With a view to exploring the practical potential of this approach this book draws together a team of experts from the natural and social sciences to discuss its success so far in addressing critical issues such as biodiversity ecological function and human livelihoods Applying principles of landscape ecology restoration ecology planning theory and conflict management the book presents a series of case studies which document the approach and discusses how the approach can help with priority setting for the future The book will provide a valuable reference to graduate students and researchers interested in ecological restoration forest ecology and management as well as to professionals in environmental restoration natural resource management conservation and environmental policy

TRAC 2014 Tom Brindle,Martyn Allen,Emma Durham,Alex Smith,2015-04-02 This volume contains a selection of papers presented at TRAC 2014 as well as some invited contributions In keeping with the aims of TRAC several papers make innovative use of interdisciplinary theory in humanistic geography philosophy and archaeology social psychology and the cognitive science of religion in the study of Roman monuments military social history and religion Other papers share a common theme the critical interpretation of archaeological evidence A more careful consideration of non grave good pottery sherds from graves suggests that these often disregarded items potentially shed light on funerary rites which are usually considered to be invisible the potential importance of plant remains particularly of exotic and rare species in ritual deposits is examined and a new perspective on the negative aspects of Roman conquest of Northern Gaul presented New approaches towards our understanding of space and landscape in the Roman world comprise an examination of the suburbs of ancient Rome and preliminary results of an ongoing project exploring the relationship between wetland landscapes and domestic settlements presenting a case study from Spain

Forest Landscape Restoration John Stanturf,David Lamb,Palle Madsen,2012-11-28 Restoration ecology as a scientific discipline developed from practitioners efforts to restore degraded land with interest also coming from applied ecologists attracted by the potential for restoration projects to apply and or test developing theories on ecosystem development Since then forest landscape restoration FLR has emerged as a practical approach to forest restoration particularly in developing countries where an approach which is both large scale and focuses on meeting human needs is required Yet despite increased investigation into both the biological and social aspects of FLR there has so far been little success in systematically integrating these two complementary strands Bringing experts in landscape studies natural resource management and forest restoration together with those experienced in conflict management environmental economics and urban studies this book bridges that gap to define the nature and potential of FLR as a truly multidisciplinary approach to a global environmental problem The book will provide a valuable reference to graduate students and researchers interested in ecological restoration
