Rising From The Plains:

Rising from the Plains John McPhee, 1986-11-17 Sometimes it is said of geologists that they reflect in their professional styles the sort of country in which they grew up Nowhere could that be more true than in the life of a geologist born in the center of Wyoming and raised on an isolated ranch This is the story of that ranch soon after the turn of the century and of the geologist who grew up there at home with the composition of the high country in the way that someone growing up in a coastal harbor would be at home with the vagaries of the sea Back cover Proceedings of the Royal Geographical Society of London Royal Geographical Society (Great Britain), 1872 Johnson's Universal Cyclopaedia , 1897 **Proceedings of the Royal Geographical Society** Royal Geographical Society, 1872 Basin and Range John McPhee, 1981-04 The first of John McPhee's works in his series on geology and geologists *Basin and Range* is a book of journeys through ancient terrains always in juxtaposition with travels in the modern world a history of vanished landscapes enhanced by the histories of people who bring them to light The title refers to the physiographic province of the United States that reaches from eastern Utah to eastern California a silent world of austere beauty of hundreds of discrete high mountain ranges that are green with junipers and often white with snow The terrain becomes the setting for a lyrical evocation of the science of geology with important digressions into the plate tectonics revolution and the history of the geologic time scale Universal Cyclopædia and Atlas , 1901 *Geography of the British Isles, from ten different standpoints* Thomas McLaren Davidson, 1886 **Johnson's Universal Cyclopædia** , 1895 **The Astronomical Register** , 1875 The Universal Cyclopædia , 1900
