Risk And Blame

Susann Karstedt, Stephen Farrall

Risk And Blame:

Risk and Blame Mary Douglas,1994 The idea of risk has recently risen to prominence in political debate and in matters of public policy Cognitive psychology treats decision making as a private personal act But in real life dangers are presented in standardized forms which pre code the individual s choices This collection follows on from the programme for studying risk and blame that was implied in Purity and Danger and has been developed in subsequent publications Its first six essays argue that any analysis of risk perception that ignores cultural and political bias is worthless For the sake of a mistaken idea of objectivity research on risk perception tries to avoid politics but the idea of nature is inherently politicized The study of risk needs a systematic framework of political and cultural comparison The next five essays range over questions in cultural theory A culture is viewed as a way of life which standardizes concepts and values It is held steady by the institutions in which it is articulated Questions of autonomy credibility and gullibility the social origins of wants and the recognition of distinctive thought styles are at present only beginning to be treated systematically in a framework of cultural analysis Now that risk is moving centre stage as the dominant idiom of policy analysis many other key topics such as the notion of the self will need to be radically revised In Risk and Blame Mary Douglas argues that the prominence of risk discourse will force upon the social sciences a programme of rethinking and consolidation which will include the anthropological approaches studied in these pages

Risk and Blame Mary Douglas,2003 First published in 1992 this volume follows on from the programme for studying risk and blame that was implied in Purity and Danger The first half of the book Douglas argues that the study of risk needs a systematic framework of political and cultural comparison In the latter half she examines questions in cultural theory Through the eleven essays contained in Risk and Blame Douglas argues that the prominence of risk discourse will force upon the social sciences a programme of rethinking and consolidation that will include anthropological approaches

Risk and Blame Mary Douglas,2003 **Mary Douglas: Risk and blame** Mary Douglas,2002 **Risk and Blame** Douglas M Staff,1994 *Respectable Citizens - Shady Practices* Susann Karstedt,Stephen Farrall,2020-03-30
Respectable Citizens Shady Practices seeks to explore a previously neglected aspect of crime in modern society namely those crimes that are committed by otherwise respectable citizens in the market arena The book delves into the grey zone where illegal unfair unethical and shady practices coalesce from the retailers who see themselves as victims of customers who take unfair and often illegal advantage of generous offers to the consumers sold useless insurance and financial packages and defrauded by small print clauses The authors outline the contours of the contemporary moral economy driven and shaped by technological innovation as much as new economic policies and ask is a predatory society emerging from the central sphere of consumption *Global Perspectives on ADHD* Meredith R. Bergey,Angela M. Filipe,Peter Conrad,Ilina Singh,2018-01-01
Examining ADHD and its social and medical treatments around the world Attention deficithyperactivity disorder ADHD has been a common psychiatric diagnosis in both children and adults since the 1980s and 1990s in the United States But the

diagnosis was much less common even unknown in other parts of the world By the end of the twentieth century this was no longer the case and ADHD diagnosis and treatment became an increasingly widespread global phenomenon As the diagnosis was adopted around the world the definition and treatment of ADHD often changed in the context of different psychiatric professions medical systems and cultures Global Perspectives on ADHD is the first book to examine how this expanding public health concern is diagnosed and treated in 16 different countries In some countries readers learn over 10% of school aged children and adolescents are diagnosed with ADHD in others that figure is less than 1% Some countries focus on medicating children with ADHD others emphasize parent intervention or child therapy Showing how a medical diagnosis varies across contexts and time periods this book explains how those distinctions shape medical interventions and guidelines filling a much needed gap by examining ADHD on an international scale Contributors Madeleine Akrich Mari J Armstrong Hough Meredith R Bergey Eugenia Bianchi Christian Br er Peter Conrad Claire Edwards Silvia A Faraone Angela M Filipe Alessandra Frigerio Val ria Portugal Gon alves Linda J Graham Hiroyuki Ito Fabian Karsch Victor Kraak Claudia Malacrida Lorenzo Montali Yasuo Murayama Sebasti n Rojas Navarro rla O Donovan Francisco Ortega M nica Pe a Ochoa Brenton J Prosser Vololona Rabeharisoa Patricio Rojas Tiffani Semach Ilina Singh Rachel Spronk Junko Teruyama Masatsugu Tsujii Fan Tzu Tseng Manuel Vall e Rafaela Zorzanelli

Medical Self-Regulation Mark Davies, 2016-12-05 Self regulation constitutes an important aspect of the regulatory and oversight process governing professionals This book focuses directly on medical self regulation in the context of both the wider regulatory framework and that of other regulatory models Through a critical consideration of recent events including high profile and controversial cases it is demonstrated that the self regulatory process has failed and that only fundamental restructuring and a radical change in attitudes on the part of members of the profession can repair the damage Attention is also given to the recent changes current proposals for change and to alternative regulatory models Medical Self Regulation will be of international interest appealing to policy makers as well as students and practitioners in the fields of medicine medical law and sociology and professional regulation

Sexual Discretion Jeffrey Q. McCune, Jr., 2014-03-07 African American men who have sex with men while maintaining a heterosexual lifestyle in public are attracting increasing interest from both the general media and scholars Commonly referred to as down low or DL men many continue to have relationships with girlfriends and wives who remain unaware of their same sex desires and in much of the media DL men have been portrayed as carriers of HIV who spread the virus to black women Sexual Discretion explores the DL phenomenon offering refreshingly innovative analysis of the significance of media space and ideals of black masculinity in understanding down low communities In Sexual Discretion Jeffrey Q McCune Jr provides the first in depth examination of how the social expectations of black masculinity intersect and complicate expressions of same sex affection and desire Within these underground DL communities men aren t as highly policed and thus are able to maintain their public roles as properly masculine McCune draws from sources that range from R and from E

Lynn Harris's contemporary sexual passing novels to McCune's own interviews and ethnography in nightclubs and online chat rooms *Sexual Discretion* details the causes pressures and negotiations driving men who rarely disclose their intimate secrets

At Risk Karen Swift, Marilyn Callahan, 2009-01-01 In *At Risk* Karen J Swift and Marilyn Callahan examine risk and risk assessment in the context of professional practice in child protection social work and other human services They argue that the tools technologies and practices used to measure risk to the individual have gone unquestioned and unstudied and that current methods of risk assessment may be distorting the principles of social justice Central to this study is an examination of the everyday experiences of workers and parents engaged in risk assessment processes in Canadian child welfare investigations Going beyond theory Swift and Callahan highlight how risk evaluations play out in actual interactions with vulnerable people Pointing out that standardized risk assessment tools do not take factors such as class race gender and culture into account *At Risk* raises important questions about the viability of risk management plans that are not tailored to individual situations
