

A photograph of a person, likely a Hindu deity or priestess, wearing a vibrant red sari with a gold border. They are standing in a body of water, possibly a pond or a river, and are in the process of scattering pink flower petals. Their hands are raised, and the petals are captured mid-air, creating a sense of movement and ritual. The water is a deep green color, and the overall scene is bathed in warm, golden light, suggesting a sunrise or sunset setting. The person's arms are adorned with multiple gold bangles.

Supernaturalism in Human Life Jacob Pandian,2002 **Ritual: Key Concepts in Religion** Pamela J. Stewart,Andrew Strathern,2014-01-16 Ritual has emerged as a major focus of academic interest As a concept the idea of ritual integrates the study of behavior both within and beyond the domain of religion Ritual

can be both secular and religious in character There is renewed interest in questions such as Why do rituals exist at all What has been and continues to be their place in society How do they change over time Such questions exist against a backdrop of assumptions about development modernization and disenchantment of the world Written with the specific needs of students of religious studies in mind Ritual Key Concepts in Religion surveys the field of ritual studies looking at it both historically within anthropology and in terms of its contemporary relevance to world events **Karma Yoga** Chandan Sengupta, This volume of publications is titled Karma Yoga Karma is a Sanskrit word derived from the root Kri to do and the primary meaning of the word therefore is performing duties or accomplishing some actions There exists some other secondary significance of the word but in Karma Yoga it is action that is the subject of enquiry The Gita recognises the fact that work is the natural sanction of nature man is incessantly changing frequently animals are changing while keeping pace with evolutionary tendencies plants tiny organisms and germs are changing and even minerals are also changing *Silent Killing* Chandan Sukumar Sengupta, 2020-02-26 A grown up tree with 100% canopy can support normal breathing of 8 people throughout the year It can keep the atmospheric temperature of the surrounding down It can accommodate thousands of creatures There are several other services delivered by a tree in terms of immediate and prolonged economic returns If grown up trees are not replaceable entity of our environment then what would be any immediate alternatives suitable and acceptable for us to keep the pace of growth intact This article also analyses the possibilities of establishing a suitable adjustment between resources technologies and human aspirations for enhancing the sustainable economic growth through stepping of renovation modernization and industrialisation *My Book of Explorations Part II* Chandan Sengupta, Now a days Nature and Nature related topics are widely discussed ones These topics came in lime light with greater degree when scientists came to know about development of ozone hole at poles which may hamper the life forms we have in the living planet This planet experienced several phases of devastations and calamity one such devastation might led to extinction of giant reptiles The matter is still a debated one But one thing caught attention of thinkers and scholars of tender age living and let others live will be the bright philosophy for ensuring continuation of human habitat along with prolonged prosperity There are several other inter linked factors which can be addressed in this title It may not cover up all the aspects at present There are factors which may get altered after few months and may require periodical updates to be incorporated in the present volume We are optimistic about enhancement of basic awareness of readers regarding ecology and environment

A Pilgrimage to the World of Peace and Nonviolence Chandan Sengupta, It is true that we are passing through a critical situation during which entire society is getting divided into class and section day by day on the basis of different types of superficial parameters Such differences are so prominent that they even hamper the normal acculturation process of early schooling and socialisation of individuals through which newly introduced fellows are allowed to gain a perfect pitching in the multi plural community Service oriented life of modern world is also moving on with such kind of toss and twist giving

birth to regional as well as global tension of different degree and radial expansion It is also becoming difficult for us to overcome the situation due to its deeper impression in the mind set of individual coming out from the isolated segments of restricted mechanism of acculturation Main objective of our discussion and analysis is to cultivate a balanced process of educational social as well as economic acculturation which will be suitable enough for ensuring implementation and continuation of world Peace
