Robinson Jeffers Clark Powell, 1983-05-01      **Robinson Jeffers** Lawrence C. Powell, 1973-10 The man his work An appreciation of the quasi mystical American poet by his long time friend critic Illus      *Robinson Jeffers* Lawrence Clark Powell, 1940      Robinson Jeffers. The Man and His Work , 1940\*      Robinson Jeffers. The Man & His Work ... Decorations by Rockwell Kent. [With a Portrait.]. Lawrence Clark Powell, John Robinson JEFFERS, 1934      Robinson Jeffers, the Man & His Work. a Foreword by Robinson Jeffers; Decorations by Rockwell Kent Lawrence Clark Powell, 1934      **Robinson Jeffers** Lawrence Clark Powell, 1940      **Robinson Jeffers the Man and His Work** , 1934      Robinson Jeffers James Karman, 2015-08-05 A deeply informative biography situates the poet in his time and place tracing the effect of both contemporary history and wild nature on his work Edwin Cranston Harvard University The precipitous cliffs rolling headlands and rocky inlets of the California coast come alive in the poetry of John Robinson Jeffers an icon of the environmental movement In this concise and accessible biography Jeffers scholar James Karman reveals deep insights into this passionate and complex figure and establishes Jeffers as a leading American poet of prophetic vision In a move that would define his life s work Jeffers family relocated to California from Pennsylvania in 1903 when he was sixteen At the height of his popularity in the 1920s and 1930s Jeffers became one of the few poets ever featured on the cover of Time magazine and posthumously put on a U S postage stamp Writing by kerosene lamp in a granite tower that he had built himself his vivid and descriptive poetry of the coast evoked the difficulty and beauty of the wild and inspired photographers such as Edward Weston and Ansel Adams He was known for long narrative blank verse that shook up the national literary scene but in the 1940s his interest in the Greek classics led to several adaptations which were staged on Broadway to great success Inspiring later artists from Charles Bukowski to Czeslaw Milosz and even the Beach Boys Robinson Jeffers contribution to American letters is skillfully brought back out of the shadows of history in this compelling biography of a complex man of poetic genius who wrote so powerfully of the astonishing beauty of nature      **A Literary History of the American West** Western Literature Association (U.S.), 1987 Literary histories of course do not have a reason for being unless there exists the literature itself This volume perhaps more than others of its kind is an expression of appreciation for the talented and dedicated literary artists who ignored the odds avoided temptations to write for popularity or prestige and chose to write honestly about the American West believing that experiences long knowns to be of historical importance are also experiences that need and deserve a literature of importance      **The Literature of the American People** Arthur Hobson Quinn, 1951      *American Poets and Poetry* Jeffrey Gray, Mary McAleer Balkun, James McCorkle, 2015-03-10 The ethnically diverse scope broad chronological coverage and mix of biographical critical historical political and cultural entries make this the most useful and exciting poetry reference of its kind for students today American poetry springs up out of all

*Power and the Pursuit of Peace: Theory and Practice in the History of Relations Between States* F. H. Hinsley, Francis Harry Hinsley, 1967-10 In the last years of the nineteenth century peace proposals were first stimulated by fear of the danger of war rather than in consequence of its outbreak In this study of the nature and history of international relations Mr Hinsley presents his conclusions about the causes of war and the development of men s efforts to avoid it In the first part he examines international theories from the end of the middle ages to the establishment of the League of Nations in their historical setting This enables him to show how far modern peace proposals are merely copies or elaborations of earlier schemes He believes there has been a marked reluctance to test these theories not only against the formidable criticisms of men like Rousseau Kant and Bentham but also against what we have learned about the nature of international relations and the history of the practice of states This leads him to the second part of his study an analysis of the origins of the modern states system and of its evolution between the eighteenth century and the First World War [The Spiritual Aspects of the New Poetry](#) Amos N. Wilder, 2014-05-06 The republication of this book resurrects a landmark volume hailed when published as the first major effort to assess modern poetry from the point of view of its contributions to the spiritual life of our times Resting on the assumption that poetry offers a mirror in which the world can know itself and in which it can read its deepest dilemmas and its deepest omens Wilder explores the work of W B Yeats Ezra Pound Robert Frost D H Lawrence T S Eliot Conrad Aiken Archibald MacLeish Hart Crane W H Auden Kenneth Patchen and Robinson Jeffers among others Wilder investigates the ethical and religious attitudes behind these works the sources behind them and their importance for religious and spiritual life in the modern era The author also discusses the work of leading critics and provides a guide and bibliography to the sources of modernism s roots in America and abroad as well as biographical sketches of the poets and critics discussed *American Poetry of the Twentieth Century* Richard Gray, 1976-06-10 **Material Dreams** Kevin

Starr,1990 In *Material Dreams* Starr turns to one of the most vibrant decades in the Golden State s history the 1920s when some two million Americans migrated to California the vast majority settling in or around Los Angeles Although he treats readers to intriguing side trips to Santa Barbara and Pasadena Starr focuses here mainly on Los Angeles revealing how this major city arose almost defiantly on a site lacking many of the advantages required for urban development creating itself out of sheer will the Great Gatsby of American cities He describes how William Ellsworth Smyth the Peter the Hermit of the Irrigation Crusade propounded the importance of water in Southern California s future and how such figures as the self educated Irish engineer William Mulholland who built the main aqueducts to Los Angeles and George Chaffey who diverted the Colorado River transforming desert into the lush Imperial Valley brought life supporting water to the arid South He examines the discovery of oil Yes it s oil oil oil that makes LA boil went the official drinking song of the Uplifters Club the boosters and land developers the evangelists such as Bob Shuler the Methodist Savanarola of Los Angeles and Aimee Semple McPherson and countless other colorful figures of the period There are also fascinating sections on the city s architecture such as the remarkably innovative Bradbury Building and its eccentric neophyte designer George Wyman the impact of the automobile on city planning the great antiquarian book collections the Hollywood film community and much more By the end of the decade Los Angeles had tripled in population and become the fifth largest city in the nation In *Material Dreams* Kevin Starr captures this explosive growth in a narrative tour de force that combines wide ranging scholarship with captivating prose
