[Control of Crime, Lawlessness and Disorder](#) Andy A. Burkett, 2010-10-12 This book is about a major scourge of any country: crime. The book is dedicated to all branches of law enforcement agencies and judicial branches which seek to combat the escalation of dimensions of crime and criminals. The author looks at various approaches applied as crime fighting methods and adopts his own methods which he assumes may merit some achievements. Using a voluminous amount of documents, the book contains much pictorial material with its captions from a variety of sources which will capture the interest of the reader and ends with his recommendations. Using both crime in developing and developed countries, he seeks to encourage greater local, regional and international co-operation among governments, criminologists, law enforcement agencies, corrections agencies and law reformists. He hopes that this book will be a useful tool to all law-abiding denizens and criminal combatants.
