## **Rock From Mars A True Detective Story On Two Planets:**

The Rock From Mars Kathy Sawyer, 2006-02-14 In this riveting book acclaimed journalist Kathy Sawyer reveals the deepest mysteries of space and some of the most disturbing truths on Earth The Rock from Mars is the story of how two planets and the spheres of politics and science all collided at the end of the twentieth century It began sixteen million years ago An asteroid crashing into Mars sent fragments flying into space and eons later one was pulled by the Earth's gravity onto an icy wilderness near the southern pole There in 1984 a geologist named Roberta Score spotted it launching it on a roundabout path to fame and controversy In its new home at NASA's Johnson Space Center in Houston the rock languished on a shelf for nine years a victim of mistaken identity Then in 1993 the geochemist Donald Duck Mittlefehldt unmasked the rock as a Martian meteorite Before long specialist Chris Romanek detected signs of once living organisms on the meteorite And the obscure rock became a rock star But how did nine respected investigators come to make such startling claims about the rock that they triggered one of the most venomous scientific battles in modern memory The narrative traces the steps that led to this risky move and follows the rippling impact on the scientists' lives the future of space exploration the search for life on Mars and the struggle to understand the origins of life on Earth From the second the story broke in Science magazine in 1996 it spawned waves of excitement envy competitive zeal and calculation In academia in government agencies in laboratories around the world and even in the Oval Office where an inquisitive President Clinton had received the news in secret players of all kinds plotted their next moves Among them David McKay the dynamic geologist associated with the first moon landing who labored to achieve at long last a second success Bill Schopf of UCLA a researcher determined to remain at the top of his field and the first to challenge McKay's claims Dan Goldin the boss of NASA and Dick Morris the controversial presidential adviser who wanted to use the story for Clinton's reelection and unfortunately made sure it ended up in the diary of a 200 an hour call girl Impeccably researched and thrillingly involving Kathy Sawyer's *The Rock from Mars* is an exemplary work of modern nonfiction a vivid account of the all too human high stakes drive to learn our true place in the cosmic scheme

**New Light Through Old Windows: Exploring Contemporary Science Through 12 Classic Science Fiction Tales** Stephen Webb, 2019-01-07 This book presents the reader with some of the earliest classic SF short stories all of them published between 1858 and 1934 featuring both well known and long forgotten writers dealing for the first time with topics to which science had some answers only at much later stages This includes aspects of alien life forms transmutation pandemics life on Mars android robots big data matter transmission and impact events to name but a few The short stories are reprinted in full alongside extensive commentaries which also examine some of the latest scientific thinking surrounding the story's main theme and provide the reader with suggestions for further reading

**Film** Paul Meehan,2022-05-24 Over the course of several decades scientific fact has overtaken science fiction as humankind  
s understanding of the universe has expanded Mirroring this development the cinematic depictions of space exploration over  
the last century have evolved from whimsical sci fi fantasies to more fact based portrayals This book chronologically  
examines 75 films that depict voyages into outer space and offers the historical cultural and scientific context of each These  
films range from Georges Melies fantastical A Trip to the Moon to speculative science fiction works such as 2001 A Space  
Odyssey Solaris and Contact and fact based accounts of actual space missions as depicted in The Right Stuff Apollo 13 Salyut  
7 and First Man Each film is analyzed not only in terms of its direction screenplay and other cinematic aspects but also its  
scientific and historical accuracy The works of acclaimed directors including Fritz Lang George Pal Stanley Kubrick Andrei
