The New Police in the Nineteenth Century Paul Lawrence, 2017-07-05 The period 1829-1856 witnessed the introduction of the New Police to Great Britain and Ireland Via a series of key legislative acts traditional mechanisms of policing were abolished and new supposedly more efficient forces were raised in their stead Subsequently the introduction of the New Police has been represented as a watershed in the development of the systems of policing we know today But just how sweeping were the changes made to the maintenance of law and order during the nineteenth century The articles collected in this volume written by some of the foremost criminal justice historians show a process which while cumulatively dramatic was also at times protracted and acrimonious There were significant changes to the way in which Britain and Ireland were policed during the nineteenth century but these changes were by no means as straightforward or as progressive as they have at times been represented

Law,

Insecurity and Risk Control John Pratt, 2020-08-05 This book examines our contemporary preoccupation with risk and how criminal law and punishment have been transformed as a result of these anxieties It adopts an historical approach to examine the development of risk control measures used across the US UK New Zealand Australia and Canada particularly since the 1980 s with the rise of the security sanction It also takes a criminological and sociological approach to analysing shifts in criminal law and punishment and its implications for contemporary society and criminal justice systems Law Insecurity and Risk Control analyses the range and scope of the security sanction and its immobilizing measures ranging from control over minor incivilities to the most serious crimes Despite these innovations though it argues that our anxieties about risk have become so extensive that the security sanction is no longer sufficient to provide social stability and cohesion As a consequence people have been attracted to the magic of populism in a revolt against mainstream politics and organisations of government as with the EU referendum in the UK and the US presidential election of Donald Trump in 2016 While there have been political manoeuvrings to rein back risk and place new controls on it these have only brought further disillusionment insecurity and anxiety This book argues that the security sanction is likely to become more deeply embedded in the criminal justice systems of these societies as new risks to both the well being of individuals and the nation state are identified
