The Role of Police Psychology in Controlling Excessive Force Ellen M. Scrivner, 1994 Discusses the role of police psychologists in preventing and identifying individual police officers at risk for use of excessive nonlethal force and the factors that contribute to police use of excessive force in performing their duties Includes results of a survey conducted with 65 police psychologists in which they were asked what types of professional services they provided to police departments and how these services were used to control use of force

The Role of Police Psychology in Controlling Excessive Force U. S. Department U.S. Department of Justice, National Institute National Institute of Justice, 2016-08-15 In this 1994 report it discusses the role of police psychologists in preventing and identifying individual police officers at risk for use of excessive nonlethal force and the factors that contribute to police use of excessive force in performing their duties A sample of 65 police psychologists were asked what types of professional services they provided to police departments and how these services were used to control the use of force They were also asked to characterize officers who abuse force and to suggest intervention strategies based on police psychology that could help police managers reduce the incidence of excessive force Results of the survey indicated that psychologists were more involved with counseling and evaluating functions than with training and monitoring of police officer behavior and counseling was more likely to take place as a response to excessive force incidents than as a means of prevention
