States **Delaying Doomsday** Rupal N. Mehta, 2020 In 1960 President Kennedy warned of a dangerous future rife with nuclear armed states and a widespread penchant for conflict by the end of the century Thankfully his prediction failed to pass in fact roughly three times as many countries have since opted to give up their nuclear pursuit or relinquish existing weapons than have maintained their arsenals Nevertheless clandestine acquisition of nuclear materials and technology by states such as Iraq Syria and Iran and a nuclear North Korea has reaffirmed the need for United States commitment to pursuing aggressive counterproliferation strategies particularly with rogue states This book looks at the experiences of countries that ventured down the path of nuclear proliferation but were stopped short and examines how the international community bargains with proliferators to encourage nuclear reversal It asks why so many states have relented to pressure to abandon their nuclear weapons programs and which counterproliferation policies have been successful Rupal N Mehta argues that the international community can persuade countries to reverse their weapons programs with rewards and sanctions especially when the threat to use military force remains on the table Specifically nuclear reversal is most likely when states are threatened with sanctions and offered face saving rewards that help them withstand domestic political opposition Historically the United States has relied on a variety of policy levers including economic and civilian nuclear assistance and sometimes security guarantees as well as economic sanctions to achieve nuclear reversal Underlying these negotiations is the possibility of military intervention which incentivizes states to accept the agreement often spearheaded by the United States and end their nuclear pursuit The book draws on interviews with current and former policymakers as well as in depth case studies of India Iran and North Korea to provide policy recommendations on how best to manage nuclear proliferation challenges from rogue states It also outlines the proliferation horizon or the set of state and non state actors that are likely to have interest in acquiring nuclear technology for civilian military or unknown purposes The book concludes with implications and recommendations for U S and global nuclear counterproliferation policy The Uyghur Community Güljanat Kurmangaliyeva Ercilasun, Konuralp Ercilasun, 2017-11-01 This book analyses the Uyghur community presenting a brief historical background of the Uyghurs and debating the challenges of emerging Uyghur nationalism in the early 20th century It elaborates on key issues within the community such as the identity and current state of religion and worship It also offers a thoughtful and comprehensive analysis of the Uyghur diaspora addressing the issue of identity politics the position of the Uyghurs in Central Asia and the relations of the Uyghurs with Beijing notably analyzing the 2009 Urumqi clashes and their long term impact on Turkish Chinese relations Re examining Uyghur identity through the lens of history religion and politics this is a key read for all scholars interested in China Eurasia and questions of ethnicity and religion *China's Diplomacy Responding to World Transformation in the New Era* Honghua Men, 2025-07-25 This book delves into the innovative thinking new and key agendas and practical evolution of China's diplomacy in the new era As the world has entered a new epoch the once in a century world transformation is accelerating and great power rivalry becomes increasingly prominent with the Sino
