Tramps Like Us Daniel Cavicchi,1998-10-29 As rock critics have noted in the past Bruce Springsteen s songs exist in a world of their own they have their own settings characters words and images It is a world that even those who know only a handful of Springsteen s lyrics can instantly recognize a world of highways and factories loners and underdogs hot rods and patrol cars And it is a world that stretches far beyond the New Jersey state line Indeed Springsteen s attention to the ideals and struggles of ordinary Americans has significantly influenced American popular culture and public debate As a rock and roll troubadour the Boss speaks not only for his many fans but to them and often with a directness or sincerity that no other performer can match But what can be said of the fans themselves Why and how do they relate to Springsteen s words and music Based on three years of ethnographic research amid Springsteen s fans and informed by the author s own experiences and impressions as a fan Daniel Cavicchi s Tramps Like Us is an interdisciplinary study of the ways in which ordinary people form special sustained attachments to a particular singer songwriter and his songs and of how these attachments function in people s lives An insider s narrative about Springsteen fans who they are what they do and why they do it this book also investigates the phenomenon of fandom in general The text oscillates between fans stories and ideas and

Cavicchi's own anecdotes, commentary, and analysis. It challenges the stereotypes of fans as obsessive, delusional, and even mentally ill, and explores fandom as a normal socio-cultural activity. Ultimately, this book argues that music fandom is a useful and meaningful behavior that enables us to shape identities, create communities, and make sense of the world both Bruce's and our own.

Crises of Imagination, Crises of Power Max Haiven, 2014-03-13 Today when it seems like everything has been privatized when austerity is too often seen as an economic or political problem that can be solved through better policy and when the idea of moral values has been commandeered by the right, how can we re-imagine the forces used as weapons against community, solidarity, ecology, and life itself? In this stirring call to arms, Max Haiven argues that capitalism has colonized how we all imagine and express what is valuable. Looking at the decline of the public sphere, the corporatization of education, the privatization of creativity, and the power of finance capital in opposition to the power of the imagination and the growth of contemporary social movements, Haiven provides a powerful argument for creating an anti-capitalist commons. Capitalism is not in crisis; it is the crisis, and moving beyond it is the only key to survival. Crucial reading for all those questioning the imposition of austerity and hoping for a fairer future beyond it.

At the Intersection Thomas Rosteck, 1999-01-01 This provocative volume is based on the premise that cultural studies and rhetorical studies address specific and parallel questions about culture, critical practice, and interpretation, and that opening up a dialogue between them can enhance both and provide a more complete understanding of society. Noted scholars across a variety of disciplines examine overlaps and contradictions between these approaches, as well as critical and pedagogical issues that surface with their linkage.

Marginalized in the Middle Alan Wolfe, 1996 Wolfe examines the ills of American society in the 1990s and illustrates the paradoxes of social criticism. Jacket.

Music and Social Movements Ron Eyerman, Andrew Jamison, 1998-02-28 Building on their studies of sixties culture and theory of cognitive praxis, Ron Eyerman and Andrew Jamison examine the mobilization of cultural traditions and formulation of new collective identities through the music of activism. They combine a sophisticated theoretical argument with historical empirical studies of nineteenth-century populists and twentieth-century labour and ethnic movements, focusing on the interrelations between music and social movements in the United States and the transfer of those experiences to Europe. Specific chapters examine folk and country music, black music, music of the 1960s movements, and music of the Swedish progressive movement. This highly readable book is among the first to link the political sociology of social movements to cultural theory.

The Politics of Inquiry Benjamin Baez, Deron Boyles, 2009-01-09 Winner of the 2010 Critics Choice Award presented by the American Educational Studies Association, 2009 CHOICE Outstanding Academic Title. In *The Politics of Inquiry*, Benjamin Baez and Deron Boyles critique recent trends in education research to argue against the culture of science. Using the National Research Council's 2002 report *Scientific Research in Education* as a point of departure, they contend that the entire discourse on education science reflects a number of distinct but mutually constitutive political forces or movements that use science and education to shape what we can think.

and thus what we can become These forces include the attempts to restrict democracy via scientism the uses of academic classifications for organizing the world into social groups the imperatives of the informational society which seek precision in order to convert the world into data for easy governing and the effects of transnational capitalist exchanges which convert everything into a cost benefit analysis and which make us all complicit in ways we do not fully grasp Baez and Boyles examine these forces and offer an alternative to the current pushes to make educational inquiry scientific **Giroux Reader** Henry A. Giroux, Christopher G. Robbins, 2015-11-17 One of the world's leading social critics and educational theorists Henry A. Giroux has contributed significantly to critical pedagogy cultural studies youth studies social theory and cultural politics This new book offers a carefully selected cross section of Giroux's many scholarly and popular writings which bridge the theoretical and practical integrate multiple academic disciplines and fuse scholarly rigor with social relevance The essays underscore the continuities and transformations in Giroux's thought just as they offer invaluable approaches to understanding a range of social problems Giroux's work suggests that a more humane and democratic world is possible and provides critical tools that can assist concerned citizens in bringing it into being **The Making of Green Knowledge** Andrew Jamison, 2001-11-29 A comprehensive introduction to the politics of the environment and the development of environmental knowledge Beyond the Subtitle Mark Betz, 2009 Examining European art films of the 1950s and 1960s Mark Betz argues that it is time for film analysis to move beyond prevailing New Wave historiography mired in outdated notions of nationalism and dragged down by decades of auteurist criticism Focusing on the cinemas of France and Italy Betz reveals how the flowering of European art films in the postwar era is inseparable from the complex historical and political frameworks of the time Teenage Nervous Breakdown David Walley, 2006 Teenage Nervous Breakdown Music and Politics in the Post Elvis Era combines music and cultural history and criticism to examine how rock and the rock lifestyle have been merchandised first to a teenage audience and eventually to a worldwide consumer society Well known iconoclastic writer critic David Walley examines the entire rock culture and how it has infused all aspects of American and world life from entertainment to politics to academic education In a series of what he describes as word jazz rock and roll improvisations and variations Walley examines how adult culture has been adolescentized and what the ramifications are on our society Walley is not an uninvolved observer his personal story and opinions are right up front where they belong Famous for being the first writer to recognize the commercial genius of Frank Zappa in the landmark book No Commercial Potential first published in 1972 and still in print today Walley is ideally suited to examine how commercialism has invaded rock music and in turn how this commercialism has invaded rock music and in turn how this commercial stepchild of rock has become a culture unto itself He tackles everything from the elevation of youth culture to the mainstream the fast food economy the commercial hijack of the counterculture movement the cool aesthetic the marketing of politicians psychotropic drugs from LSD to Prozac and much much more Along the way he touches on a diverse range of figures From Ma Rainey to Elvis from B.
