Roll Down Your Window Stories Of A Forgotten America

Caryn E. Neumann, Tammy S. Allen

Roll Down Your Window Stories Of A Forgotten America:

Roll Down Your Window Juan Gonzalez, 1995 Juan Gonzalez described by the Village Voice as the most radical person in the above it all world of New York daily journalism is a reporter who takes as his beat the streets and projects of America's inner cities and the barrios across its southern borders In these passionate and vivid despatches he reports from the frontline of a social crisis which stretches from New York to Los Angeles across the Rio Grande to Mexico's maquiladoras through to Haiti Honduras and Cuba Written not just about the ghetto but from it Gonzalez's stories portray workers on strike refugees on the run owners on the make and a journalist on the case Together they bring us face to face with human beings whose tragedies illuminate the landscape of a forgotten America

Appeal to Reason Craig Aaron, 2018-02-27 In These Times the national biweekly magazine of news and opinion has provided groundbreaking coverage of the labor movement the environment feminism grassroots politics minority communities and the media for twenty five years Filled with new writing commissioned specially for this anniversary volume images and text highlights of the last quarter century in the magazine Appeal to Reason The First 25 Years of In These Times showcases contributors to the magazine like Noam Chomsky David Brower and Alice Walker to name just a few But it also asks an important question Where do we go from here For answers Appeal to Reason turns to more than twenty leading progressive writers including Barbara Ehrenreich Juan Gonzalez Salim Muwakkil and Robert W McClesney who take a fresh look at the lessons of the past and suggest directions for the future Exploring issues ranging from globalization and criminal justice to the environment and culture Appeal to Reason lays a political and intellectual foundation for the debates discussions and movements of the next twenty five years

Contemporary Latina/o Media Arlene Dávila, Yeidy M. Rivero, 2014-09-12 The cultural politics creating and consuming Latina/o mass media Just ten years ago discussions of Latina/o media could be safely reduced to a handful of TV channels dominated by Univision and Telemundo Today dramatic changes in the global political economy have resulted in an unprecedented rise in major new media ventures for Latinos as everyone seems to want a piece of the Latina/o media market While current scholarship on Latina/o media have mostly revolved around important issues of representation and stereotypes this approach does not provide the entire story In *Contemporary Latina/o Media* Arlene Dávila and Yeidy M Rivero bring together an impressive range of leading scholars to move beyond analyses of media representations going behind the scenes to explore issues of production circulation consumption and political economy that affect Latina/o mass media Working across the disciplines of Latina/o media cultural studies and communication the contributors examine how Latinos are being affected both by the continued Latin Americanization of genres products and audiences as well as by the whitewashing of mainstream Hollywood media where Latinos have been consistently bypassed While focusing on Spanish language television and radio the essays also touch on the state of Latinos in prime time television and in digital and alternative media Using a transnational approach the volume as a whole explores the ownership importation and circulation of talent and content from

Latin America placing the dynamics of the global political economy and cultural politics in the foreground of contemporary analysis of Latina o media

Reclaiming Gotham Juan González, 2017-09-05 How Bill de Blasio's mayoral victory triggered a seismic shift in the nation's urban political landscape and what it portends for our cities in the future In November 2013 a little known progressive stunned the elite of New York City by capturing the mayoralty by a landslide Bill de Blasio's promise to end the Tale of Two Cities had struck a chord among ordinary residents still struggling to recover from the Great Recession De Blasio's election heralded the advent of the most progressive New York City government in generations Not since the legendary Fiorello La Guardia in the 1930s had so many populist candidates captured government office at the same time Gotham in other words had been suddenly reclaimed in the name of its people How did this happen De Blasio's victory journalist legend Juan González argues was not just a routine change of government but a popular rebellion against corporate friendly policies that had dominated New York for decades Reflecting that broader change liberal Democrats Bill Peduto in Pittsburgh Betsy Hodges in Minneapolis and Martin Walsh of Boston also won mayoral elections that same year as did insurgent Ras Baraka in Newark the following year This new generation of municipal leaders offers valuable lessons for those seeking grassroots reform

Immigrant Voices Enrique T. Trueba, Lilia I. Bartolomé, 2000 The ethnics are coming and the fear of many observers is that the quality of traditional disciplines will suffer as a result *Immigrant Voices In Search of Pedagogical Reform* is a new book which shows that such fear is unfounded Ethnic scholars of international repute come together in this new collection of essays to meditate upon the single most important social phenomena in America today Immigration Due to the ever increasing ethnic diversity in today's school populations the need to explore this issue has become more critical than ever Giving voice to a broad range of complex experiences contributors from China Taiwan Mexico Argentina Spain and Slovakia provide insight into the numerous obstacles immigrants must overcome in order to succeed in both the academy and society at large Offering broad theoretical perspectives as well as powerful and unforgettable personal narratives this book serves as an invaluable resource for continued efforts toward educational equity

The Puerto Rican Movement Andrés Torres, José Emiliano Velázquez, 1998 Little attention has been paid to the Latino movements of the 1960s and 1970s in the literature of social movements This volume is the first significant look at the organizations that emerged in the late 1960s to promote Puerto Rican independence and the radical transformation of U S society The Puerto Rican movement was a response to U S colonialism on the island and to the poverty and discrimination faced by most Puerto Ricans on the mainland This anthology looks at the organizations that emerged to combat these two problems in such places as Boston Chicago Hartford New York and Philadelphia Almost all the contributors worked with the organizations they describe Interviews with such key figures as Elizam Escobar Piri Thomas and Luis Fuentes as well as accounts by people active in the gay lesbian African American and white Left movements create a vivid picture of why and how people became radicalized and how their ideals intersected with their group's own dynamics

Knowledge & Power in the Global Economy David

Gabbard,2017-07-05 Advancing a three fold political agenda this volume illuminates how the meanings assigned to a whole vocabulary of words and phrases frequently used to discuss the role and reform of U S public schools reflect an essentially economic view of the world contends that education or educational reform conducted under an economized worldview will only intensify the effects of the colonial relations of political and economic domination that it breeds at home and abroad and offers a set of alternative concepts and meanings for reformulating the role of U S public schools and for considering the implications of such a reformulation more generally for the underlying premises of all human relationships and activities Toward these ends the authors in Part I critically examine many of the most commonly used terms within the rhetoric of educational reform since the early 1980s and before Part II links today s economized worldview to curricular and instructional issues These essays are especially important for comprehending how the organization of school curriculum privileges those disciplines deemed most central to market expansion math and science and how the political centrality of the economic sphere influences the nature of the knowledge presented in specific content areas Given that language constrains as well as advances human thought the twin tasks of de economizing education and decolonizing society will require a vocabulary that transcends the familiar terminologies addressed in Parts I and II The entries in Part III cultivate the beginnings of such a vocabulary as the authors elucidate innovative concepts which they view as central to the creation of truly alternative educational visions and practices

The Young Lords Johanna Fernández,2019-12-18 Against the backdrop of America s escalating urban rebellions in the 1960s an unexpected cohort of New York radicals unleashed a series of urban guerrilla actions against the city s racist policies and contempt for the poor Their dramatic flair uncompromising socialist vision for a new society skillful ability to link local problems to international crises and uncompromising vision for a new society riveted the media alarmed New York s political class and challenged nationwide perceptions of civil rights and black power protest The group called itself the Young Lords Utilizing oral histories archival records and an enormous cache of police surveillance files released only after a decade long Freedom of Information Law request and subsequent court battle Johanna Fern ndez has written the definitive account of the Young Lords from their roots as a Chicago street gang to their rise and fall as a political organization in New York Led by poor and working class Puerto Rican youth and consciously fashioned after the Black Panther Party the Young Lords occupied a hospital blocked traffic with uncollected garbage took over a church tested children for lead poisoning defended prisoners fought the military police and fed breakfast to poor children Their imaginative irreverent protests and media conscious tactics won reforms popularized socialism in the United States and exposed U S mainland audiences to the country s quiet imperial project in Puerto Rico Fern ndez challenges what we think we know about the sixties She shows that movement organizers were concerned with finding solutions to problems as pedestrian as garbage collection and the removal of lead paint from tenement walls gentrification lack of access to medical care childcare for working mothers and the warehousing of people

who could not be employed in deindustrialized cities The Young Lords politics and preoccupations especially those concerning the rise of permanent unemployment foretold the end of the American Dream In riveting style Fernandez demonstrates how the Young Lords redefined the character of protest the color of politics and the cadence of popular urban culture in the age of great dreams Knowledge and Power in the Global Economy David Gabbard,2017-07-05 Advancing a three fold political agenda this volume illuminates how the meanings assigned to a whole vocabulary of words and phrases frequently used to discuss the role and reform of U S public schools reflect an essentially economic view of the world contends that education or educational reform conducted under an economized worldview will only intensify the effects of the colonial relations of political and economic domination that it breeds at home and abroad and offers a set of alternative concepts and meanings for reformulating the role of U S public schools and for considering the implications of such a reformulation more generally for the underlying premises of all human relationships and activities Toward these ends the authors in Part I critically examine many of the most commonly used terms within the rhetoric of educational reform since the early 1980s and before Part II links today s economized worldview to curricular and instructional issues These essays are especially important for comprehending how the organization of school curriculum privileges those disciplines deemed most central to market expansion math and science and how the political centrality of the economic sphere influences the nature of the knowledge presented in specific content areas Given that language constrains as well as advances human thought the twin tasks of de economizing education and decolonizing society will require a vocabulary that transcends the familiar terminologies addressed in Parts I and II The entries in Part III cultivate the beginnings of such a vocabulary as the authors elucidate innovative concepts which they view as central to the creation of truly alternative educational visions and practices

Rethinking the Struggle for Puerto Rican Rights Lorrin R Thomas,Aldo A Lauria Santiago,2017-09-29 Rethinking the Struggle for Puerto Rican Rights offers a reexamination of the history of Puerto Ricans political and social activism in the United States in the twentieth century Authors Lorrin Thomas and Aldo A Lauria Santiago survey the ways in which Puerto Ricans worked within the United States to create communities for themselves and their compatriots in times and places where dark skinned or foreign Americans were often unwelcome The authors argue that the energetic Puerto Rican rights movement which rose to prominence in the late 1960s was built on a foundation of civil rights activism beginning much earlier in the century The text contextualizes Puerto Rican activism within the broader context of twentieth century civil rights movements while emphasizing the characteristics and goals unique to the Puerto Rican experience Lucid and insightful Rethinking the Struggle for Puerto Rican Rights provides a much needed introduction to a lesser known but critically important social and political movement **Latino History Day by Day** Caryn E. Neumann,Tammy S. Allen,2013-05-09 This title takes a calendrical approach to illuminating the history of Latinos and life in the United States and adds more value than a simple this day in history through primary source excerpts and resources for further research

Latino a history has been relatively slow in gaining recognition despite the population s rich and varied history Engaging and informative Latino History Day by Day A Reference Guide to Events will help address that oversight Much more than just a this day in history list the guide describes important events in Latino a history augmenting many entries with a brief excerpt from a primary document All entries include two annotated books and websites as key resources for follow up The day to day reference is organized by the 365 days of the year with each day drawing from events that span several hundred years of Latino a history from Mexican Americans to Puerto Ricans to Cuban Americans With this guide in hand teachers will be able to more easily incorporate Latino a history into their classes Students will find the book an easy to use guide to the Latino a past and an ideal starting place for research

Louder Than Bombs David Barsamian,2004 Media activist David Barsamian dubbed the Studs Terkel of our generation by Howard Zinn has been broadcasting voices of dissent from around the world for over a quarter of a century Barsamian s radical weekly radio program Alternative Radio or simply AR to his fans has been a north star in the mass media wilder ness for people across the country since 1986 Ralph Nader calls it a ray of light in the media darkness featuring voices of proposals to strengthen our democracy Barsamian s latest volume brings together over 20 interviews culled from The Progressive magazine Here he talks with luminaries of the left activists academics and progressive celebrities about their areas of expertise their hopes for the future and the biggest obstacles facing movements for radical change With his well informed questions and engaging manner Barsamian encourages his subjects to reflect on their lives and the world In turn they open their hearts and minds to him offering nuggets of both personal and political insight Barsamian invites readers to listen in as he converses with some of the best minds of our time and skillfully weaves their analyses and wisdom into a digest of the world s most pressing issues The lively and accessible conversations highlight the urgency of globalizing dissent and remind readers of the power of dialog to inform and inspire While the people interviewed for this book are a diverse group they share a common understanding that political change must be fundamental not cosmetic All of these thinkers have dedicated their lives to organizing for progressive change None has lost faith in the capacity of working and poor people to change society even in the face of the rapidly expanding corporatization of the world Perhaps this is the book s most inspiring message there s still reason enough to hope

Post-Cold War America, 1992-Present, Volume 9 James Haley,2002-07 Presents articles and primary documents on twenty seven key historical and cultural events in America spanning 1992 2001 from the Rodney King verdict to the September 11 terrorist attacks and includes an introduction chronology and selected bibliography **Unite!** ,1995 A *History of the Puerto Ricans in the United States of America* Luis Antonio Cardona,1990 **The Writer's Handbook 2002** Elfrieda Abbe,2001-08 A guide for professional writers with over 1 000 pages of essential information how to advice and the paying markets for their work **The Nation** ,1996-07 **Roll Down Your Window** Juan González,1995 New York Daily News reporter Juan Gonzalez takes as his beat the streets and projects of America s inner cities and the barrios across its

southern borders In these vivid dispatches he reports from the frontline of a social crisis inside New York and Los Angeles across the Rio Grande to Mexico s maquiladoras through to Haiti Honduras and Cuba **Monthly Review** ,2001
