Sarepta Preliminary Report On The Iron A:

Sarepta: The Late Bronze Age and Iron Age strata of area II, Y, 1988 **Recent Excavations in Israel** Seymour Gitin, William G. Dever, 1989 *Symbiosis, Symbolism, and the Power of the Past* William G. Dever, Seymour (Sy) Gitin, 2003-06-30 Celebrating the 100th anniversary of the Albright Institute of Archaeological Research this collection of erudite essays concentrates on the archaeology of ancient Israel Canaan and neighboring nations Retrieving the Past Joe D. Seger, 1996 **Script and Society** Philip J. Boyes, 2021-03-15 By the 13th century BC the Syrian city of Ugarit hosted an extremely diverse range of writing practices As well as two main scripts alphabetic and logographic cuneiform the site has also produced inscriptions in a wide range of scripts and languages including Hurrian Sumerian Hittite Egyptian hieroglyphs Luwian hieroglyphs and Cypriot Minoan This variety in script and language is accompanied by writing practices that blend influences from Mesopotamian Anatolian and Levantine traditions together with what seem to be distinctive local innovations Script and Society The Social Context of Writing Practices in Late Bronze Age Ugarit explores the social and cultural context of these complex writing traditions from the perspective of writing as a social practice It combines archaeology epigraphy history and anthropology to present a highly interdisciplinary exploration of social questions relating to writing at the site including matters of gender ethnicity status and other forms of identity the relationship between writing and place and the complex relationships between inscribed and uninscribed objects This forms a case study for a wider discussion of interdisciplinary approaches to the study of writing practices in the ancient world *The Philistines and Aegean Migration at the End of the Late Bronze Age* Assaf Yasur-Landau, 2014-06-16 In this study Assaf Yasur Landau examines the early history of the biblical Philistines who were among the Sea Peoples who migrated from the Aegean area to the Levant during the early twelfth century BC Creating an archaeological narrative of the migration of the Philistines he combines an innovative theoretical framework on the archaeology of migration with new data from excavations in Greece Turkey Cyprus Syria Lebanon and Israel and thereby reconstructs the social history of the Aegean migration to the southern Levant The author follows the story of the migrants from the conditions that caused the Philistines to leave their Aegean homes to their movement eastward along the sea and land routes to their formation of a migrant society in Philistia and their interaction with local populations in the Levant Based on the most up to date evidence this book offers a new and fresh understanding of the arrival of the Philistines in the Levant *Phoenicia* J. Brian Peckham, 2014-10-30 Phoenicia has long been known as the homeland of the Mediterranean seafarers who gave the Greeks their alphabet But along with this fairly well known reality many mysteries remain in part because the record of the coastal cities and regions that the people of Phoenicia inhabited is fragmentary and episodic In this magnum opus the late Brian Peckham examines all of the evidence currently available to paint as complete a portrait as is possible of the land its history its people and its culture In fact it was not the Phoenicians but the Canaanites who invented the alphabet what distinguished the Phoenicians in their turn was the transmission of the

alphabet which was a revolutionary invention to everyone they met The Phoenicians were traders and merchants the Tyrians especially thriving in the back and forth of barter in copper for Levantine produce They were artists especially the Sidonians known for gold and silver masterpieces engraved with scenes from the stories they told and which they exchanged for iron and eventually steel and they were builders like the Bybians who taught the alphabet and numbers as elements of their trade When the Greeks went west the Phoenicians went with them Italy was the first destination settlements in Spain eventually followed but Carthage in North Africa was a uniquely Phoenician foundation The Atlantic Spanish settlements retained their Phoenician character but the Mediterranean settlements in Spain Sicily Sardinia and Malta were quickly converted into resource centers for the North African colony of Carthage a colony that came to eclipse the influence of the Levantine coastal city states An emerging independent Western Phoenicia left Tyre free to consolidate its hegemony in the East It became the sole west Asiatic agent of the Assyrian Empire But then the Babylonians let it all slip away and the Persians intent on war and world domination wasted their own and everyone's time trying to dominate the irascible and indomitable Greeks The Punic West Carthage made the same mistake until it was handed off to the Romans But Phoenicia had been born in a Greek matrix and in time had the sense and good grace to slip quietly into the dominant and sustaining Occidental culture This complicated history shows up in episodes and anecdotes along a frangible and fractured timeline Individual men and women come forward in their artifacts amulets or seals There are king lists and alliances companies and city assemblies Years or centuries are skipped in the twinkling of any eye and only occasionally recovered Phoenicia like all history is a construct a product of historiography an answer to questions The history of Phoenicia is the history of its cities in relationship to each other and to the peoples cities and kingdoms who nourished their curiosity and their ambition It is written by deduction and extrapolation by shaping hard data into malleable evidence by working from the peripheries of their worlds to the centers where they lived by trying to uncover their mentalities plans beliefs suppositions and dreams in the residue of their products and accomplishments For this reason the subtitle *Episodes and Anecdotes from the Ancient Mediterranean* is a particularly appropriate description of Peckham's masterful posthumous volume the fruit of a lifetime of research into the history and culture of the Phoenicians

Music in Ancient Israel/Palestine Joachim Braun, 2002 This book contains the first study of the musical culture of ancient Israel Palestine based primarily on the archaeological record Noted musicologist Joachim Braun explores the music of the Holy Land region of the Middle East tracing its form and development from its beginning in the Stone Age to the fourth century A D This is not a study of music in the Bible or music in biblical times but a unique in depth investigation of the historical periods and cultures that influenced the music of the region and its people Braun combines significant archaeological findings musical instruments terra cotta and metal figures etched stone illustrations mosaics with evidence drawn from written mainly biblical texts and anthropological sociological and linguistic sources The portrait Braun assembles of this past musical world is both fascinating and innovative suggesting a reconsideration of many views long

accepted by tradition Enhanced with numerous illustrations and photographs that bring the archaeological evidence to life this exceptional work will be a valued resource for scholars students and general readers interested in the history of music biblical studies Jewish studies and the cultures of the ancient Near East The Tiny and the Fragmented S. Rebecca Martin, Stephanie M. Langin-Hooper, 2018-10-16 Miniature and fragmentary objects are both eye catching and yet easily dismissed Tiny scale entices users with visions of Lilliputian worlds The ambiguity of fragments intrigues us offering tactile reminders of reality's transience Yet the standard scholarly approach to such objects has been to see them as secondary incomplete things whose principal purpose was to refer to a complete and often life size whole The Tiny and the Fragmented offers a series of fresh perspectives on the familiar concepts of the tiny and the fragmented Written by a prestigious group of internationally acclaimed scholars the volume presents a remarkable diversity of case studies that range from Neolithic Europe to pre Colombian Honduras to the classical Mediterranean and ancient Near East Each scholar takes a different approach to issues of miniaturization and fragmentation but is united in considering the little and broken things of the past as objects in their own right Whether a life size or whole thing is made in a scaled down form deliberately broken as part of its use or only considered successful in the eyes of ancient users if it shows some signs of wear it challenges our expectations of representation and wholeness of what it means for a work of art to be finished and affective Overall The Tiny and the Fragmented demands a reconsideration of the social and contextual nature of miniaturization fragmentation and incompleteness making the case that it was because of rather than in spite of their small or partial state that these objects were valued parts of the personal and social worlds they inhabited *The World of the Aramaeans* P.M. Michèle Daviau, Michael Weigl, John W. Wevers, 2001-04-01 The World of the Aramaeans is a three volume collection of definitive essays about the Aramaeans and the biblical world of which they were a part Areas of interest include the language epigraphy and history of the Aramaeans of Syria as well of their neighbours the Israelites Phoenicians Ammonites Moabites and Edomites The second volume devoted to history and archaeology includes contributions by Brian Peckham Wolfgang Röllig Carl S Ehrlich Guy Couturier Stefania Mazzoni Timothy P Harrison Michael Heltzer John S Holladay Jr Michèle Daviau Paolo Xella Emile Pusch Piotr Bienkowski Bezalel Porten and John Gee **"I Will Speak the Riddles of Ancient Times"** Amihay Mazar, 2006-01-01 Ami Mazar has gained a reputation as one of the most prolific and reliable archaeologists doing work in Israel during the last 40 years Not only has he participated in and directed excavations at many sites his professional standards are of the first order and what's more his publication record is enviable he has never begun a new major project before the final publication of the previous excavation was well underway Here more than 55 colleagues gather to honor him with a wide range of essays organized in 7 sections I Early Bronze Age Studies II Middle and Late Bronze Age Studies III Philistine Sea Peoples Studies IV Iron Age Studies V Historical Biblical and Epigraphic Studies VI Jerusalem Studies VII Post Iron Age Studies An international group of contributors includes E Braun I Finkelstein D Ussishkin P M Fischer R Gophna D

Baker, 2018-10-10 Peoples of the distant past lived comfortably in cities that boasted well conceived urban planning monumental architecture running water artistic expression knowledge of mathematics and medicine and more Without the benefits of modern technology they enjoyed all the accoutrements of modern civilization Technology of the Ancient Near East brings together in a single volume what is known about the technology behind these achievements based on the archaeological textual historic and scientific data drawn from a wide range of sources focusing on subjects such as warfare construction metallurgy ceramics and glass water management and time keeping These technologies are discussed within the cultural historic and socio economic contexts within which they were invented and the book emphasises these as the foundation upon which modern technology is based In so doing this study elucidates the ingenuity of ancient minds offering an invaluable introduction for students of ancient technology and science **The Cambridge Ancient History** John Boardman, I. E. S. Edwards, E. Sollberger, N. G. L. Hammond, 1992-01-16 Volume III Part II carries on the history of the Near East from the close of Volume III Part I and covers roughly the same chronological period as Volume III Part III During this period the dominant powers in the East were Assyria and then Babylonia Each established an extensive empire which was based on Mesopotamia and each in turn fell largely through internal strife Assyrian might was reflected in the imposing palaces libraries and sculptures of the Assyrian kings Babylonian culture was outstanding in literature mathematics and astronomy and the great buildings of Nebuchadnezzar II surpassed even those of the Assyrian kings Israel and Judah suffered at the hands of both imperial powers Jerusalem being destroyed and part of the population deported to Babylon and Egypt was weakened by an Assyrian invasion The Phoenicians found a new outlet in colonising and

founded Carthage A number of small vigorous kingdoms developed in Asia Minor while from the north and north east the Scythian nomadic tribes pressed down upon Turkey and the Danube valley but found their match in the Thracian tribes which held south eastern Europe and parts of western Turkey The burials of the chieftains of both peoples were remarkable for the great wealth of offerings The Cambridge Ancient History Stanley Arthur Cook, Martin Percival Charlesworth, John Bagnell Bury, John Bernard Bury, 1924

Non-Semitic Loanwords in the Hebrew Bible Benjamin J. Noonan, 2019-06-11 Ancient Palestine served as a land bridge between the continents of Asia Africa and Europe and as a result the ancient Israelites frequently interacted with speakers of non Semitic languages including Egyptian Greek Hittite and Luwian Hurrian Old Indic and Old Iranian This linguistic contact led the ancient Israelites to adopt non Semitic words many of which appear in the Hebrew Bible Benjamin J Noonan explores this process in *Non Semitic Loanwords in the Hebrew Bible* which presents a comprehensive up to date and linguistically informed analysis of the Hebrew Bible's non Semitic terminology In this volume Noonan identifies all the Hebrew Bible's foreign loanwords and presents them in the form of an annotated lexicon An appendix to the book analyzes words commonly proposed to be non Semitic that are in fact Semitic along with the reason for considering them as such Noonan's study enriches our understanding of the lexical semantics of the Hebrew Bible's non Semitic terminology which leads to better translation and exegesis of the biblical text It also enhances our linguistic understanding of the ancient world in that the linguistic features it discusses provide significant insight into the phonology orthography and morphology of the languages of the ancient Near East Finally by tying together linguistic evidence with textual and archaeological data this work extends our picture of ancient Israel's interactions with non Semitic peoples A valuable resource for biblical scholars historians archaeologists and others interested in linguistic and cultural contact between the ancient Israelites and non Semitic peoples this book provides significant insight into foreign contact in ancient Israel
