Weingartner,2012-12-06 The task of the book is not to give a survey of the main theories on truth found in the literature

There are several books available which do this The one of David for Deflationist and Disquotational Theories of Truth that of Chapuis for Revision Theories of Truth that of Kirkham for Correspondence Theories and several others that of Rescher for Coherence Theories of Truth Moreover the book is not an analysis just of Tarski's theory like that of Moreno or the respective chapters in Kirkham though Tarski's theory plays an important role in the whole work presented The task of the book is to give a detailed answer to some basic questions on truth which have been perennial problems through the centuries and are still discussed today The answer is given in the light of our knowledge today and with the help of modern logic But the book explicitly aims at connecting recent problems with related ones in the whole history of philosophy The method to incorporate important philosophers of the tradition into the analysis is that of disputation i.e. of putting some of their main thesis into objections or counterobjections pro or contra a positive answer to the respective question After the pros and cons are given a detailed answer to the question is proposed and finally commentaries and corrections are given to the objections and counterobjections in the light of the proposed answer

**Enlightening Journey** Nicholas Rescher, 2002-01-01 *Enlightening Journey* brings the life of the American philosopher Nicholas Rescher into the new millennium. The latest in a quartet of autobiographical works, this latest installment charts in a single volume the many twists and turns of Rescher's life and career. It takes the reader from Rescher's childhood in Weimar and then Nazi Germany through life as a first generation American during the Depression as a high school student during World War II and a graduate student at Princeton as a serviceman during the Korean War to work as a Cold War warrior with the RAND Corporation during the Vietnam War. It traces the evolution of Rescher's career as a professional philosopher and his contribution of over seventy books and more than two hundred articles, many written in the construction of his signature system of pragmatic idealism. The very best in biography, *Enlightening Journey* offers new insight into the intellectual power and restless curiosity of an extraordinary modern scholar seeking to live out a very ordinary American life.

*Minding Matter* Nicholas Rescher, 2001 *Minding Matter* presents a group of philosophical essays thematically divided. The first chapters deal with issues of philosophizing and metaphilosophy. The remainder of the book covers issues of values and human affairs. The studies collected within are united by a common methodology of probative investigation and their common purpose to provide instructive insight into a varied spectrum of important philosophical issues. Each essay is connected to the next by representing common *modus operandi* deploying the classificatory techniques that characterize the analytical mode of philosophizing in an endeavor to elucidate some larger scale issues of traditional concerns in philosophy.

*Logic, Epistemology, and the Unity of Science* Shahid Rahman, 2004-10-25 This is the first volume in a series aimed at considering the scientific enterprise in light of recent developments in logic and philosophy. This work explores new ways of achieving the integration of science in all its diversity.

*An Ethical Literary Criticism of Han Suyin's Autobiography* Florence Kuek, 2025-04-15 Han Suyin 1916-1972 became a household name when *Love is a Many Splendored Thing*, the Hollywood rendition of her novel, won several awards in 1956. The study of Han Suyin went out of fashion for a while but it has recently been revitalised, especially in Singapore and Malaysia. Kuek pays attention to *The Crippled Tree*, autobiographical series delineating her two-track narrative of her family saga against the backdrop of 20th century China. Different from the earlier studies on Han Suyin that employed perspectives from postcolonialism, feminism, and new historicism, this book examines Han Suyin's autobiography through the lens of ethical literary criticism (ELC), paying attention to the ethical lines and knots embedded in her series. Using ELC, an apolitical literary analysis approach, this book uncovers multiple layers of meaning and reveals Han Suyin's life trajectory, which draws attention to China's difficult path of modernisation in the past century. The insights gleaned from this book shed light on Han Suyin's life accomplishments in the face of great adversities and challenges. This is a valuable book that will enlighten literary critics on critical approaches to autobiography and those interested in understanding the development of modern China through the words of a proud

Chinese Eurasian writer living in the era

and practices trusting God resenting the ill will of others resisting evil This book is essential reading for all those interested in the relationship between theological determinism and philosophical thought     Communicative Pragmatism and Other Philosophical Essays on Language Nicholas Rescher,1998 In this pioneering study of communicative conventions distinguished philosopher Nicholas Rescher focuses on the principles at work in the communicative use of language Rescher explores various aspects of explanatory and expository uses of language across a wide range of applications ranging from the factual to the fictional and from the expository to the literary A unifying theme of the book is pragmatic conventionality Rescher explores the fundamentally pragmatic conception of communicative conventions rules of procedure that form part of the setting of tacit undertakings that function in various sectors of communicative practice Only in this setting he argues can one achieve an adequate understanding of the way in which the business of communication is actually carried on within its wider setting of its service in the conduct of human affairs     After Whitehead Michel Weber,2013-05-02 When Rescher's Process Metaphysics 1996 was published it was widely acclaimed as a major step towards the academic recognition of a mode of thought that has otherwise been confined within sharp scholarly boundaries Of course it is not an easy book despite its stylistic clarity it remains the complex outcome of a life's work in most areas of philosophy The goal of the present volume is to systematically unfold the vices and virtues of Process Metaphysics and thereby to specify the contemporary state of affairs in process thought To do so the editor has gathered one focused contribution per chapter each paper addressing specifically and explicitly its assigned chapter and seeking to promote a dialogue with Rescher In addition the volume features Rescher's replies to the papers     *SYMBOLISM IS THE THEORETICAL BASE OF ALL SCIENCES* Ruben Charles,2024-11-08 In this book we try to understand how the modernity of societies had become the main source that gave birth to the symbolism which ultimately became the center of the universe by defining the identity of the human being and by acting on its way of living of acting and of thinking and becoming the main basis of the existence of all societies Symbolism constitutes a new approach allowing science to determine the hidden meaning and complexity of symbolic objects through a system of symbolic representation The latter allows us to know who we really are as a human being and to understand how today's world works Indeed everything that exists on this planet is based on symbolism we cannot understand today's social reality outside symbolism     **The Primacy of Practical Reason** Michele Marsonet,1996 This book presents in one single volume the first cogent overview of Nicholas Rescher's position in theoretical philosophy Marsonet's wide ranging knowledge of American philosophy enables him to position Rescher's work in the wider setting of its relationships with various contemporary American and European thinkers He provides comparisons between Rescher's stance and the positions endorsed by philosophers like Quine Sellars Popper Davidson Rorty Rawls and Habermas The main goal of the book is to show that Rescher's system provides an interesting way out from the crisis of analytic philosophy by dealing in particular with his rediscovery of the American pragmatist tradition Marsonet traces the development in Rescher's speculative

evolution focusing on the importance of the growth of pragmatist elements This book serves as an excellent introduction to Rescher's philosophy and will give readers a schematic yet comprehensive account of his views on various philosophical topics including epistemology metaphysics philosophical logic philosophy of science philosophy of language and social and political philosophy
