Savage Interlude 340:

Savage Peace Ann Hagedorn, 2007-04-10 Written with the sweep of an epic novel and grounded in extensive research into contemporary documents *Savage Peace* is a striking portrait of American democracy under stress It is the surprising story of America in the year 1919 In the aftermath of an unprecedented worldwide war and a flu pandemic Americans began the year full of hope expecting to reap the benefits of peace But instead the fear of terrorism filled their days Bolshevism was the new menace and the federal government utilizing a vast network of domestic spies began to watch anyone deemed suspicious A young lawyer named J Edgar Hoover headed a brand new intelligence division of the Bureau of Investigation later to become the FBI Bombs exploded on the doorstep of the attorney general's home in Washington D C and thirty six parcels containing bombs were discovered at post offices across the country Poet and journalist Carl Sandburg recently returned from abroad with a trunk full of Bolshevik literature was detained in New York his trunk seized A twenty one year old Russian girl living in New York was sentenced to fifteen years in prison for protesting U S intervention in Arctic Russia where thousands of American soldiers remained after the Armistice ostensibly to guard supplies but in reality to join a British force meant to be a warning to the new Bolshevik government In 1919 wartime legislation intended to curb criticism of the government was extended and even strengthened Labor strife was a daily occurrence And decorated African American soldiers returning home to claim the democracy for which they had risked their lives were badly disappointed Lynchings continued race riots would erupt in twenty six cities before the year ended and secret agents from the government's Negro Subversion unit routinely shadowed outspoken African Americans Adding a vivid human drama to the greater historical narrative *Savage Peace* brings 1919 alive through the people who played a major role in making the year so remarkable Among them are William Monroe Trotter who tried to put democracy for African Americans on the agenda at the Paris peace talks Supreme Court associate justice Oliver Wendell Holmes Jr who struggled to find a balance between free speech and legitimate government restrictions for reasons of national security producing a memorable decision for the future of free speech in America and journalist Ray Stannard Baker confidant of President Woodrow Wilson who watched carefully as Wilson's idealism crumbled and wrote the best accounts we have of the president's frustration and disappointment Weaving together the stories of a panoramic cast of characters from Albert Einstein to Helen Keller Ann Hagedorn brilliantly illuminates America at a pivotal moment

Narrative and Critical History of America: French explorations and settlements in North America, and those of the Portuguese, Dutch, and Swedes, 1500-1700 Justin Winsor,1884 Hearsay Is Not Excluded Michael R. Dove,2024-02-27 This chronicle of natural history argues that the modern environmental crisis and rise in science skepticism codeveloped with the rise of ever narrower scientific disciplines For millennia the field of natural history promoted a knowledgeable and unifying view of the world In contrast the modern rise of narrow scientific disciplines has promoted a dichotomy between nature and culture on the one hand and between scientific and folk knowledge on the other Drawing on the fields of anthropology history and environmental science Michael R Dove argues that the loss of this historic holistic vision of the world is partly to blame for contemporary environmental degradation and science skepticism Dove bases this thesis on a study of four pioneering natural historians across four centuries Georg Eberhard Rumphius seventeenth century Carl

Linnaeus eighteenth century Alfred Russel Wallace nineteenth century and Harold C Conklin twentieth century Dove studies their field craft and writing the political cultural and environmental circumstances in which they worked the sources of their insight and the implications of their work for modern society Most of all the book seeks to discover what enabled those natural historians to straddle boundaries that today seem impassable and to distill that wisdom for a modern world greatly in need of a holistic vision of people and environment **From Richard Brinsley Sheridan to Thomas Hardy** Robert Shafer,1931 **From Beowulf to Edward Gibbon** Robert Shafer,1931 Merchant Vessels of the United States ,
