Saving Across The World Puzzles And Policies:

Saving Across the World Klaus Schmidt-Hebbel, Luis Servén, 1997-01-01 World Bank Technical Paper No 349 The Bank's approach to water resources development has shifted from one of construction activities to one of improved management quality creating a new generation of water related projects and the need for new evaluation procedures This paper addresses the methodology for economic evaluation of this new group of projects and draws on the experience of the recently approved Mexico Water Resources Management project

Chile Guillermo Perry, Danny M. Leipziger, 1999-01-01 The Chilean model has been expostulated for some time in the Latin American and Caribbean region and elsewhere because it appeared that the country despite terrible political and economic turmoil embodied important lessons about economic management Over the last 15 years Chile has been the Latin American country with the most consistent and successful economic record The success of Chile's economic reforms and the subsequent dramatic increase in real income are well known To a large extent Chile's positive fiscal outcomes have been the result of sound policies as well as sound fiscal institutions However there is room for improvement in the education and health sectors and the results for Chile in terms of equality of income are not positive Chile Recent Policy Lessons and Emerging Challenges presents a series of papers analyzing different aspects of Chilean public policy which cover economic and social policies as well as regulatory and governance issues The book is broken down into three parts The first part examines the contribution of macroeconomic policies to superior outcomes the second part analyzes the many advances in the social sector and the remaining troublesome issues and the third part evaluates regulatory reforms and the effects of privatization Since no public policy model is static further reforms are needed to maintain Chile's economic growth as well as to respond effectively to public demands As Chile grapples with its pockets of poverty the balance between social safety nets and the need for greater efficiency in labor markets a rebalancing of regulatory powers and other thorny issues it will need to rely on its institutional experience in public policy and conflict resolution

Trade, Global Policy, and the Environment Per Fredriksson, 1999-01-01 QUOTE We live in an increasingly interconnected world Trade flows worldwide are growing rapidly and global production patterns are shifting as countries follow their comparative advantage in production via trade At the same time however there is growing concern about potential adverse environmental impacts from increasing trade QUOTE John A Dixon Lead Economist The Environment Department World Bank Interest in the trade and environment debate has intensified as a result of international trade agreements and because many proposed solutions to the climate change problem have potential implications for the global trading system Clearly more empirical work is needed to inform the debate guide policymakers toward solutions and help set priorities This volume is an attempt to further our understanding of the empirical links between trade and the environment Thirteen chapters which were presented as papers at a World Bank conference in April 1998 focus on three main themes 1 Effects of trade liberalization and growth on the environment 2 The QUOTE pollution haven QUOTE hypothesis 3 Economic

instruments for resolving global environmental problems The papers address a number of different issues within each of the themes offering new data or new questions and approaches They are devoted to deepening our understanding and empirical knowledge of the various effects of trade liberalization Only through a firm understanding of the linkages involved can well founded policy advice be formulated

Environmental Health James A. Listorti, Fadi M. Doumani, 2001-01-01

Environmental health remains at the periphery of sustainable development because it is inadequately defined and institutionally fragmented This publication aims to provide ways of addressing this multisectoral problem It is in three parts The first looks at harmonising sectoral priorities and shows that environmental health can target at least as much disease as the health sector The second part provides environmental health assessment guidelines The third part looks at the results of a pilot project to put theory into practice in Ghana

Options for Managing and Financing Rural Transport

Infrastructure Christina Malmberg Calvo, 1998-01-01 World Bank Technical Paper No 409 In developing and transition economies 60 to 80 percent of all passenger and freight transport moves by road the main form of access for most rural communities Yet most of the 11 million kilometers of roads in these economies are badly maintained and poorly managed This paper discusses one of the most effective ways to promote sound policies for managing and financing road networks commercialization It discusses the emerging central concept of bringing roads into the marketplace putting them on a fee for service basis and managing them like a business

Strategic Management for Government Agencies Navin

Girishankar, Migara De Silva, 1998-01-01 This paper presents a conceptual framework for the strategic management of government agencies in developing and transition economies It delineates a working model of an efficient government agency for which core strategy internal organizational design and external environment are aligned It then demonstrates how the objectives of public sector management are ideally based on assessments of areas of misalignment in government agencies

Managing the Real and Fiscal Effects of Banking Crises Daniela Klingebiel, Luc Laeven, 2002 This volume provides two recent analyses of government responses to financial crises they have been developed in the light of the recent East Asian crisis but also draw on experiences from other regions Issues discussed relate to the tradeoffs involved in public policies for systemic financial and corporate sector restructuring and the use of cross country evidence to determine whether specific crisis containment and resolution policies effect the fiscal costs of resolving a crisis The book also presents information on 113 systemic banking crises that have occurred in 93 countries since the 1970s as well as 50 borderline or non systemic banking crises in 44 countries during the same period

Facets of Globalization Shahid Yusuf, Simon J.

Evenett, Weiping Wu, 2001-01-01 Since 1985 national economies have become increasingly integrated into a global network At the same time both population and production in developing countries are becoming concentrated in urban regions This in turn has generated demands for more local autonomy shifting more decision making to sub national levels Globalization is expected to continue leading to greater openness and international mobility of capital and people There are few reasons to

believe that these trends will abate if anything they are likely to intensify the focus on cities and sharpen competition among these for international and local resources This volume underscores the transformative role of globalization and urbanization and shows the interplay between the two forces Trade and Transport Facilitation John Raven,2001-01-01 The report focuses on transport facilitation in developing countries in order to help promote trade in exports and economic growth Each country has its own set of special characteristics including significant border entry and import points This report provides an analytical tool for those working in the field complemented by practical suggestions in order to identify facilitation problems and create effective remedial action plans This report is an expanded version of the publication Trade and Transport Facilitation An Audit Methodology ISBN 0821347195 published by the World Bank in 2000 **The Indian Pharmaceutical Sector** Ramesh Govindaraj,Gnanaraj Chellaraj,2002-01-01 The Indian pharmaceutical market ranks as the world s third largest in terms of volume and has been growing at an annual rate of over 10 per cent over the last decade Pharmaceutical policy in India is perceived primarily from an industrial perspective rather than a health sector priority and is governed by a complex variety of laws and policies This report reviews recent policy initiatives and their economic and health sector implications It considers the profound gap that exists between the benefits which pharmaceuticals have to offer and the reality that for millions of poor people in India medicines are often unaffordable unsafe or improperly used The report outlines some strategic options that could strengthen India s ability to ensure the availability affordability quality and rational use of essential medicines on a sustainable basis using a mix of public and private sector resources **Unleashing Russia's Business Potential** Harry G. Broadman,2002-01-01 Russia needs to continue to assess and improve its business environment in order to ensure continuing investment and sustained growth Currently many of the new businesses are being established in the larger urban areas but similar new businesses need to develop at the regional level This book based on in depth case studies of more than 70 companies across 13 regions in Russia examines four areas key to institutional development and formulates policy recommendations Topics include the determinants of inter enterprise competition and market structure at the local level the regulatory regime governing the price supply and access to local infrastructure services access to corporate finance in regional markets and the legal system for resolution of commercial disputes

Electronic Finance Stijn Claessens,Thomas C. Glaessner,Daniela Klingebiel,2002-01-01 Technological developments in electronic finance have changed the nature and delivery of financial services in recent years especially through the use of online banking online trading and brokerage services This report reviews the developments in e finance and analyses the implications for consumers financial service providers and governments Issues discussed include the impact on competition within the financial services industry how financial sector policies in emerging markets are affected public policy and regulatory requirements **The Agrarian Economies of Central and Eastern Europe and the Commonwealth of Independent States** Csaba Csáki,John D. Nash,1998 Content Description Includes bibliographical references p World

Bank Research Program World Bank,1999 *Measuring and Apportioning Rents from Hydroelectric Power Developments* Mitchell P. Rothman,2000-01-01 Hydro resources are provided by nature The exploitation of such resources can generate significant economic rent to the owners In the past governments have usually claimed ownership of hydroelectric resources and passed on the rents to their state owned utilities which have used them to expand their systems or provide lower tariffs to their consumers With the restructuring of the electric power sector in many countries a more explicit consideration of hydroelectric rents is required Moreover hydropower resources are often owned by more than one party or at least require cooperation between parties to develop them In this context the measurement and apportionment of hydropower rents between cooperating parties becomes important This paper addresses some of the issues involved in cooperative development of water resources especially for hydroelectric generation It promotes a better understanding of the sources of the benefits and attempts to derive an analytical basis for discussions between cooperating parties This volume will be of interest to hydropower resource earning countries hydropower developers and Bank staff *World Bank Policy Research Bulletin* World Bank,1999 Policy Evaluation with Computable General Equilibrium Models Amedeo Fossati,Wolfgang Wiegard,2003-09-02 Computable General Equilibrium CGE modelling is a relatively new field in economics however it is rapidly becoming one of the most useful tools for policy evaluation This book applies CGE modelling to some of the most urgent international economic policy problems including the Kyoto Protocol pension reform and income taxation and also analyses the methodological issues that arise **The Long March** Shahid Javed Burki,Guillermo Perry,1997-01-01 Detailed discussion of reforms necessary to accelerate economic growth and reduce poverty in the region Reforms include equity market development civil service reform in health and education investment labor market liberalization and greater trade openness *Handbook of Latin American Studies* v 57 *The Economics of Saving and Growth* Klaus Schmidt-Hebbel,Luis Servén,1999-05-13 A look at major research and policy issues surrounding saving across the world first published in 1999

World Bank HIV/AIDS Interventions Julia Dayton,1998-01-01 The AIDS epidemic is one of the greatest development challenges of the 20th century Since 1986 the World Bank has supported member countries efforts to fight the epidemic in many ways including committing over US 550 million to HIV AIDS prevention and mitigation efforts This paper the first comprehensive study of all World Bank HIV AIDS related activities assesses the appropriateness of Bank interventions from the perspective of public economies and reviews the economic evaluation and implementation of projects
