Williams,2011 Based on the accounts of British and Anglo Irish travelers Creating Irish Tourism charts the development of tourism in Ireland from its origins in the mid eighteenth century to the country s emergence as a major European tourist destination a century later The work shows how the Irish tourist experience evolved out of the interactions among travel writers landlords and visitors with the peasants who as guides jarvies venders porters and beggars were as much a part of Irish tourism as the scenery itself *Atlas of the Irish Rural Landscape* F. H. A.

Aalen,Kevin Whelan,Matthew Stout,1997-01-01 Lush and green the beauty of Ireland s landscape is legendary The Atlas of the Irish Rural Landscape has harnessed the expertise of dozens of specialists to produce an exciting and pioneering study which aims to increase understanding and appreciation for the landscape as an important element of Irish national heritage and to provide a much needed basis for an understanding of landscape conservation and planning Essentially cartographic in approach the Atlas is supplemented by diagrams photographs paintings and explanatory text Regional case studies covering the whole of Ireland from north to south are included along with historical background The impact of human civilization upon Ireland s geography and environment is well documented and the contributors to the Atlas deal with contemporary changes in the landscape resulting from developments in Irish agriculture forestry bog exploitation tourism housing urban expansion and other forces The Atlas of the Rural Irish Landscape is a book which aims to educate and inform the general reader and student about the relationship between human activity and the landscape It is a richly illustrated beautifully written and immensely authoritative work that will be the guide to Ireland s geography for many years to come *The Archaeology of Celtic Britain and Ireland* Lloyd Robert Laing,2006-06-29 This book first published in 2006 surveys the archaeology of the Celtic speaking areas of Britain and Ireland AD 400 to 1200 [Advances in Irish Quaternary Studies](#) Peter Coxon,Stephen McCarron,Fraser Mitchell,2016-10-20 This book provides a new synthesis of the published research on the Quaternary of Ireland It reviews a number of significant advances in the last three decades on the understanding of the pattern and chronology of the Irish Quaternary glacial interglacial floristic and occupation records Those utilising the latest technology

A Slice Through Time M.G.L. Baillie,2012-10-12 The dramatic development of European oak chronologies over the last ten years parallels and supplements the bristlecone pine chronology in the United States Dendrochronologists can now provide a wood sample a time capsule of biological material for any calender date over the last seven millennia from two

continents For archaeologists resigned to the imprecision of radiocarbon dating the implications are profound For the first time it is possible to establish precise dates for prehistoric events Similarly we have an independent and scientifically objective way of testing historical accounts such as the traditional Egyptian chronology Equally fundamental are the insights provided by the related disciplines of dendroecology and dendroclimatology The Bronze Age eruption of Santorini and the AD 540 event are explored as fascinating case studies Drawing on a further decade of research by himself and others Mike Baille not only brings the pre 1980 story up to date but demonstrates the wide and exciting applications of this comparatively new science

Journeys in Ireland Martin Ryle, 2016-12-05 This volume offers a reasoned critical account of a wide range of travel writing about rural Ireland The focus is on work by English travellers who visited Ireland for pleasure from the scenic tourists of the post Romantic period to Eric Newby in the 1980s Ryle also discusses accounts by American and English anthropologists as well as writing by Irish authors including J M Synge George Moore Sean O Faolain and Colm T ib n The materials reviewed and discussed here including many books which are now difficult to find offer illuminating and sometimes entertaining evidence about the development of tourism Ryle also shows how the discourses and practices of pleasurable travel have intersected with and been marked by the dimensions of power and proprietorship hegemony and resistance which have characterised Anglo Irish and Hiberno English cultural relations over the last two centuries *Journeys in Ireland* will interest all those concerned with the literature and history of those relations and will be an invaluable resource for scholars teachers and students concerned with travel writing and tourism with and beyond these islands
