Mayer, 2012-02-01 Coaches Would you like to coach your players in an ethical environment where you are developing the character of your players while still being competitive Parents Would you like your son or daughter coached in a safe environment where they will be able to develop life skills that will maximize their performance in areas outside of sports like education The Principles of Ethical Youth Coaching provides the answers The reality of sports is that very few athletes ever make it to the highest level of a given sport Yet the training resources offered to youth coaches focus almost exclusively on strategies to promote winning The techniques advocated by these training programs may be acceptable for professional athletes however they are not acceptable for youth athletes The overwhelming focus on winning causes coaches to miss opportunities to promote character development skills in their players When if at all ethical player development skills are brought up in these programs it is done so in passing and no concrete strategies are offered On the other hand some well intentioned programs seek to eliminate winning from the equation This is not a realistic approach as winning is a fundamental aspect of sports and it must be embraced in the appropriate manner The Principles of Ethical Youth Coaching shows coaches how to develop the character of their players while embracing the competitive nature of sports
