Mulberry Empire A Novel:

The Mulberry Empire Philip Hensher, 2003-10-14 With Tolstoyan sweep and Dickensian vitality this epically involving historical novel relates England's tragic adventure in Afghanistan which began with the triumphant arrival of the Army of the Indus in 1839 and ended three years later in rout and massacre At the center of *The Mulberry Empire* is Alexander Burnes a Scots explorer who travels to the unfathomably remote kingdom of Afghanistan and first befriends and then reluctantly betrays its wise and impeccably courteous Amir But he is only one character in a cast that includes ladies and generals princes and deserters all brilliantly and sympathetically realized At once stirring and harrowing exotic and cautionary and as vividly colored as a Persian miniature the result is a tour de force of re creation and invention **Mezzaterra** Ahdaf Soueif, 2012-09-10 Globalisation is happening It is driven by economics ideology and communications But does this have to entail the annexation of chunks of the world by the Great Power of any given moment Surely that is the path to constant conflict to grief and misery There is another way to inhabit and broaden the common ground This is the ground where everybody is welcome the ground we need to defend and to expand It is in Mezzaterra that every responsible person on this planet now needs to pitch their tent This is the ground from which this book is calling Ahdaf Soueif is one of the finest commentators of our time Her clear eyed reporting is syndicated throughout the world and these essays written between 1981 and the present are collected here for the first time They are the direct result of Soueif's own circumstances of being as she puts it like hundreds of thousands of others people with an Arab or a Muslim background doing daily double takes when faced with their reflection in a western mirror From visiting Palestine and entering the Noble Sanctuary for the first time to interpretations of women who choose to wear the veil and to post September 11th commentary these selected essays are always perceptive fearless intelligent and necessary **The Lion's Share** Bernard Porter, 2014-06-11 As well as presenting a lively narrative of events Bernard Porter explores a number of broad analytical themes challenging more conventional and popular interpretations He sees imperialism as a symptom not of Britain's strength in the world but of her decline and he argues that the empire itself both aggravated and obscured deep seated malaise in the British economy **More Book Lust** Nancy Pearl, 2009-09-29 Whether you're searching for the perfect read for yourself or for a friend *More Book Lust* offer eclectic recommendations unlike those in any other reading guide available In this followup to the bestselling *Book Lust* popular librarian Nancy Pearl offers a fresh collection of 1 000 reading recommendations in more than 120 thematic intelligent and wholly entertaining reading lists For the friend wanting to leave her job *Living Your Dream* offers good armchair dreaming books about people who have left stodgy jobs to do what they love Are you a budding chef *Fiction For Foodies* includes books that sneak in a recipe or two along with a tantalizing plot For the James Bond wannabe *Crime is a Globetrotter* features crime novels set in various locations around the world such as Tibet Sweden and Sicily In the book's introduction Pearl jokes If we were at a twelve step meeting together I would have to stand up and say Hi I'm Nancy P and I

m a readaholic Booklist magazine plays off this obsession while echoing a sentiment of Nancy Pearl's fans everywhere. A self-confessed readaholic Pearl lets us benefit from her addiction. May she never seek recovery. Indeed. *The Cambridge History of the English Novel* Robert L. Caserio, Clement Hawes, 2012-01-12 The Cambridge History of the English Novel chronicles an ever-changing and developing body of fiction across three centuries. An interwoven narrative of the novel's progress unfolds in more than fifty chapters charting continuities and innovations of structure tracing lines of influence in terms of themes and techniques and showing how greater and lesser authors shape the genre. Pushing beyond the usual period-centered boundaries the History's emphasis on form reveals the range and depth the novel has achieved in English. This book will be indispensable for research libraries and scholars but is accessibly written for students. Authoritative, bold and clear the History raises multiple useful questions for future visions of the invention and re-invention of the novel. **Hear Us Out** Richard Canning, 2004-01-13 The author of the acclaimed *Gay Fiction Speaks* brings us new interviews with twelve prominent gay writers who have emerged in the last decade. *Hear Us Out* demonstrates how in recent decades the canon of gay fiction has developed, diversified and expanded its audience into the mainstream. Readers will recognize names like Michael Cunningham whose Pulitzer Prize-winning novel *The Hours* inspired the hit movie and others like Christopher Bram, Bernard Cooper, Stephen McCauley and Matthew Stadler. These accounts explore the vicissitudes of writing on gay male themes in fiction over the last thirty years, prejudices of the literary marketplace, social and political questions, the impact of AIDS, commonalities between gay male and lesbian fiction and even some delectable bits of gossip. **100 Must-read Historical Novels** Nick Rennison, 2009-09-21 This latest guide in the highly successful *Must Read* series depicts 100 of the finest historical fiction tales published with a further 500 recommendations. The text covers a wide range of classic works and key authors. *Literary License and the West's Romance with Afghanistan* Zubeda Jalalzai, 2023-11-13 *Literary License and the West's Romance with Afghanistan* analyzes the role literature and poetic sensibility played in colonial British and American writings on Afghanistan from the nineteenth through the twenty-first centuries. It also considers the role that literature and literariness itself have played in western discourses framing Afghanistan. The British Romantic Orientalists of the 19th century studied the region in depth and were drawn to what they perceived as an alien space where they could remake themselves in print and in life. These writers and those who followed including scholars, civil servants and wives or professional women were inspired by the region and sometimes crossed ethnic, national and imaginative boundaries. This book explores the connections that were forged in print through fantastic and familiar assumptions regarding the region and its people. **Bloomsbury Good Reading Guide** Nick Rennison, 2009-11-23 Deciding what to read next when you've just finished an unputdownable novel can be a daunting task.
