How God Works David DeSteno,2022-09-06 Drawing on a wealth of new evidence pioneering research psychologist David DeSteno shows why religious practices and rituals are so beneficial to those who follow them and to anyone regardless of their faith or lack thereof Scientists are beginning to discover what believers have known for a long time the rewards that a religious life can provide For millennia people have turned to priests rabbis imams shamans and others to help them deal with issues of grief and loss birth and death morality and meaning In this absorbing work DeSteno reveals how numerous religious practices from around the world improve emotional and physical well being With empathy and rigor DeSteno chronicles religious rites and traditions from cradle to grave He explains how the Japanese rituals surrounding childbirth help strengthen parental bonds with children He describes how the Apache Sunrise Ceremony makes teenage girls better able to face the rigors of womanhood He shows how Buddhist meditation reduces hostility and increases compassion He demonstrates how the Jewish practice of sitting shiva comforts the bereaved And much more DeSteno details how belief itself enhances physical and mental health But you don t need to be religious to benefit from the trove of wisdom that religion has to offer Many items in religion s toolbox can help the body and mind whether or not one believes How God Works offers advice on how to incorporate many of these practices to help all of us live more meaningful successful and satisfying lives

Hand Sr.,2022-05-04 Firstly the objective of that research was to assess the actions of the Civil Rights and the Progressive National Baptist Convention Inc PNBC movements Based on

37 returns to a questionnaire of 39 reduced to 24 identified key criteria e mailed to 158 persons across the country with forwarding permission 92% of the respondents indicated that they either agreed or strongly agreed that the actions of the Civil Rights and PNBC movements were inspired of by God Additionally this research identified some serious concerns and issues that each movement mainly PNBC has to address if each will continue to exist survive Secondly the objective of that research was to document our history through our struggles through our pains and gains through our good times and bad times through the ups and the downs in other words good bad or indifferent it is what it is our story his story not their story Rev Dr Herbert D Daughtry Sr constantly admonished us to make history to interpret history and to record history or something to that effect and not necessarily in that order When we do not do it ourselves in an accurate precise truthful etc manner then others will tell their story which nine out of ten times usually is not accurate precise truthful etc The old prophet acclaimed And the LORD answered me and said Write the vision and make it plain upon tables that he may run that readeth it Habakkuk 2 2 Thirdly and lastly the objective of that research was to share information that we do not want to be locked in our minds only to take it to the so called grave Many persons who were super knowledgeable as I define it about so many things that could have blessed the world took that super valuable information to the grave what a tremendous lost As an aside the lost is on multiple levels Level one we lost them Level two we lost what they did not share with us while they were alive Level three we lost the value of that buried information That is someone could have taken that information and transformed it to new information For example Dr Gabriel A Oyibo solved the Unified Field Theorem that Albert Einstein did not live long enough to solve So many things evolved from solving that equation Just think what would have happened to those many things that evolved from solving that equation if Dr Oyibo would not have solved that theorem All those many things that evolved from solving that equation would not be in existence Level four those persons who took from those many things that evolved from solving that equation and incorporated that value into what they were doing Etc etc etc The number of these levels conceivably and theoretically approaches infinity That is there is no end to the theoretical lost when just one person does not bless the world with their knowledge wisdom and understanding
