Marwick, 2013-11-28 Social media technologies such as YouTube Twitter and Facebook promised a new participatory online culture Yet technology insider Alice Marwick contends in this insightful book Web 2 0 only encouraged a preoccupation with status and attention Her original research which includes conversations with entrepreneurs Internet celebrities and Silicon Valley journalists explores the culture and ideology of San Francisco's tech community in the period between the dot com boom and the App store when the city was the world's center of social media development Marwick argues that early revolutionary goals have failed to materialize while many continue to view social media as democratic these technologies instead turn users into marketers and self promoters and leave technology companies poised to violate privacy and to prioritize profits over participation Marwick analyzes status building techniques such as self branding micro celebrity and life streaming to show that Web 2 0 did not provide a cultural revolution but only furthered inequality and reinforced traditional social stratification demarcated by race class and gender We Are All Leaders Fredrik Arnander, 2013-01-22 Leadership is not just for the execs in the corner office It s time we all stepped up and developed the mind of a leader In a time of rapid technological change and economic uncertainty businesses that thrive will do so through empowering employees at all levels to take an active role in leading themselves and their organisations to success It s time that we all at every stage of our careers started to think proactively take responsibility and excel in work This is the new face of leadership consensual and nonhierarchical Scandinavian entrepreneur and business guru Fredrik Arnander outlines strategies and tools for transforming anyone into an effective leader He offers a simple straightforward highly practical approach to developing the leader mindset And these aren t lessons from on high they re clear and functional examples drawn from real life experiences We Are All Leaders is all about empowerment it will transform you into a confident focused visionary and can help you inspire that same passion in others A refreshingly simple and practical guide to leadership for anyone who wants to progress in their work Based on the author's experience of running fast technology companies creating agile and flexible

The Good Temp Vicki Smith, Esther B. Neuwirth, 2010-08-20 Temporary agencies place approximately two and a half million people in jobs each day in the United States Every year about twelve million people use these placement agencies to find temporary work Many Americans even those who desire permanent jobs decide to enter the labor market through the portal of temporary agencies Compared with the post World War II era when it was a marginal labor practice temporary employment is today an entrenched feature of jobs and labor markets How have temporary employment relationships become so widespread and normalized In The Good Temp Vicki Smith and Esther B Neuwirth provide some novel answers to this question Their provocative analysis is based on an insider s view of the interior dynamics of a temporary help agency in Silicon Valley It incorporates a historical perspective on the rise of the temporary help service industry Smith and Neuwirth document how this powerful industry not only created a new market for temporary labor but also played a fundamental role in the erosion of the permanent employment model They analyze how agencies themselves came to manufacture and market this reinvented product the good temp an employee who is effective and efficient committed and sometimes preferable to a permanent staff member Joining extensive participant observation data with historical analysis The Good Temp contains some surprising findings about temporary employment today and fills a significant gap in our understanding of this important labor relationship The Business of America Graham Thompson, 2004-03-20 The Business of America examines the complex linking of business and nationhood in post war United States literature against the backdrop of changing concepts of the nation in the field of American Studies The first part of the book examines how white male literary culture has been largely hostile to business during this period and

how it has represented transnational shifts in the nature of business as threats to supposedly American values like the individual the family or freedom The book charts the way that such an uneasiness towards business relies upon a discourse about America business and empire that is increasingly untenable in the post war world By way of comparison The Business of America looks at how literature by women and by writers from different racial ethnic and sexual groups often deals with business from the more localised angle of work Graham Thompson shows how this attention to work provides a less abstract and more oppositional approach to the connection between business and America eBoys Randall E. bureaucrat and the Soviet official In doing so Haigh taps a rich lode of art and cinema fiction and folklore visiting the workplaces imagined by Hawthorne and Heller Kafka and Kurosawa Balzac and Wilder and visualised from Mary Tyler Moore to Mad Men from Network to 9 to 5 plus of course The Office Far from simply being a place we visit to earn a living the office emerges as a way of seeing the entire world Strategic Reward Michael Armstrong, Duncan Brown, 2006 Strategic reward is the process of determining how to develop appropriate reward arrangements and dealing with the issues which arise in making that decision The focus of this new title aimed at directors and senior level HR consultants is on the formulation and implementation of reward strategies Digital Play Stephen Kline, Nick Dyer-Witheford, Greig De Peuter, 2003 In a marketplace that demands perpetual upgrades the survival of interactive play ultimately depends on the adroit management of negotiations between game producers and youthful consumers of this new medium The authors suggest a model of expansion that encompasses technological innovation game design and marketing practices Their case study of video gaming exposes fundamental tensions between the opposing forces of continuity and change in the information economy between the play culture of gaming and the spectator culture of television the dynamism of interactive media and the increasingly homogeneous mass mediated cultural marketplace and emerging flexible post Fordist management strategies and the surviving techniques of mass mediated marketing Digital Play suggests a future not of democratizing wired capitalism but instead of continuing tensions between access to and enclosure in technological innovation between inertia and diversity in popular culture markets and between commodification and free play in the cultural industries Great Authors of Nonfiction Britannica Educational Publishing, 2014-01-01 Of the many millions of publisher description books written over the course of history only a relatively small percentage have been deemed classics Authors of classic literature are those who have penned works definitive of a style movement era or ethos.
