Trail of an Intellectual Nomad Brian Morris, 2024-02-20. Leaving school at fifteen, Brian Morris has had a varied career in Malawi before becoming a university teacher. Now Emeritus Professor of Anthropology at Goldsmiths College, University of London, he is the author of numerous articles and books on anthropology, religion, and symbolism in hunter-gatherer societies, concepts of the individual, and radical politics. His most recent books are *Homage to Peasant Smallholders* (Luviri Press, 2022) and *Anthropology and Dialectical Naturalism* (Black Rose, 2022). After writing much about anthropology, Brian Morris finally shares about his life. While in his youth the academic future seemed very dim, an all-consuming interest in nature was already there. The author does not only share the formative experiences in Malawi and India, but he also shares his intellectual development to become a Dialectical Anthropologist. His travel and research experiences are fascinating, and it is amazing how much fits into one life.

The Oxford Encyclopedia of Children's Literature: Smad-Zwer, index Jack Zipes, 2006. For much of its history, children's literature has been overlooked or looked down on by scholars. But in recent years, children's literature has assumed greater importance as literary critics, psychologists, anthropologists, and historians have begun to discover what children and parents have known for centuries: that this is a literature of extraordinary richness, depth, and delight. The Encyclopedia captures and elucidates this richness in four volumes and 3,200 signed entries. It offers comprehensive coverage of children's literature from medieval chapbooks of moral instruction for children to J.K. Rowling's immensely popular Harry Potter books. Unlike other references, the Encyclopedia not only documents but also interprets every work, major and minor, that has played a role in the history of children's literature in the world. General essays illuminate prominent trends, themes, genres, and the traditions of children's literature in many countries. In addition, the Encyclopedia provides biographies of important writers, as well as extensive coverage of illustrators with numerous examples of their work. Sociocultural developments such as the impact of toys, films, animation, the Internet, literacy, libraries, and librarians, censorship, the multicultural expansion of the field, and other issues related to the appreciation and dissemination of children's literature are also addressed. While the Encyclopedia concentrates on the tradition known best by its readership, it also covers the international development of children's literature and offers an unprecedented treatment of works from Australia, Canada, New Zealand, India, Pakistan, African countries, and other nations. Its over 800 distinguished contributors come from around the world and include such renowned scholars and writers as Gillian
