editions of *The Nursery Teacher in Action* originally published under the name Margaret Lally. The changes that have come about in early years education notably the introduction of the Foundation Stage with its accompanying curriculum guidance and assessment requirements meant that many early years books have needed updating. This Third Edition is more than an update; it represents some very hard thinking about what practitioners now need to know to be effective and presents this by revisiting the original book's themes. Escalate Paul Chapman Publishing and Margaret Edgington have pulled off a real gem of a book with updated sections, thank you for the Forest school stuff for example, and fresh insights. The hard work has really paid off, thanks so much Nick Swarbrick, Oxford Brookes University. This Third Edition brings a broader perspective to the early years world. Margaret's years of experience as a practitioner and consultant in the field are evident, and she manages to blend good practice, policy, and theoretical aspects, bringing an astute yet sensitive approach to the early years practitioners' varied experiences and qualifications. The book reaches not only those who are starting on their careers as early years practitioners but also those who have been there a long time and witnessed many often bewildering changes where their beliefs and practice have been challenged. The new edition should be essential reading not only for those working in the field whatever stage in their careers but also for anyone who seeks to understand small children and support them in the best way possible. Angela D Nurse, Head of Department of Childhood Studies, Canterbury Christ Church University. This is a fully revised and updated edition of the author's best-selling book *The Nursery Teacher in Action* Second Edition. This book now includes an extended section on leadership on managing the foundation stage and involving the team in monitoring and evaluating foundation stage practice. Curriculum planning and assessment now reflect the new statutory guidance on the Foundation Stage Curriculum and Profile. The author reviews the implementation of the Foundation Stage and the Profile, positive developments and areas which are still proving challenging. New material is included on the broadening role of the foundation stage teacher in integrated multi-disciplinary services and providing support in other settings. The book has been updated to include recent findings from Effective Pedagogy projects and other research on learning styles. *The Foundation Stage Teacher* is essential reading for all early years students and practitioners, early years course tutors and teachers new to working with 3-5 year olds and also primary headteachers.
