Wellness Nursing Diagnosis for Health Promotion

Karen M. Stolte, 1996 Preventive care and health promotion are essential in today's demanding health care environment. This concise guide gives you the information you need to assess for and write effective wellness-oriented nursing diagnoses. Let this easy-to-use resource show you how to maximize wellness and client functioning throughout the lifespan. Develop key assessment questions based on developmental tasks, assess individual strengths to promote positive health benefits for the ill and well client, write wellness nursing diagnoses for individuals, groups, families, and communities, and link the relationships among wellness nursing diagnosis, client or group behaviors, and nursing interventions. *Health Promotion Throughout the Lifespan* Carole Edelman, Carol Lynn Mandle, 2006 This comprehensive text provides the most current and accurate health promotion and disease prevention information available. The book addresses health promotion for all ages and all population groups: individuals, families, and communities. It includes extensive coverage of growth and development throughout the life span with an emphasis on normal development as well as the specific problems and health promotion issues common to each stage. A complete unit is devoted to health promotion interventions. It also offers a unique assessment framework based on Gordon's Functional Health Patterns to provide consistency in presentation and an approach in line with the promotion of health. Extensive coverage of growth and development throughout all stages of the life span. A unit on specific interventions for health promotion. Addresses health promotion for all population groups: individual, family, and the community. Incorporates Case Studies that depict actual clinical situations to give students a real-life perspective. Innovative Practice examples highlight unique and creative health promotion programs. Summarizes specific clinical interventions in Health Teaching boxes to provide students with how-to nursing actions. Think About It clinical scenarios provide critical thinking questions to help readers grasp important concepts. Multicultural Awareness boxes present cultural perspectives important to care planning. Introduces significant issues, trends, and controversies in health promotion through Hot Topics boxes to engage students in critical discussion and debate about these topics. Research Highlights emphasize current research efforts and research opportunities in health promotion. A new Study Questions section with answers and rationales helps you review and assess your understanding of chapter content. Care Plans are presented in a consistent format. Nursing Diagnosis: Defining Characteristics, Related Factors, Expected Outcomes, and Interventions. Healthy People 2010 boxes highlight current national health promotion priorities. A new full-color design helps to highlight important features and content. A new companion Evolve website offers case studies with questions and answers, WebLinks content updates, and a Glossary with search capability to enhance your learning experience. *Nurses and Family Health Promotion* Perri J. Bomar, 1996 Based on the premise that the family unit is the most influential factor in the health status of individuals, this edition provides both the theory and practical knowledge that students need in the specialty of family nursing as well as

in community health nursing and nurse practitioner roles

Fast Facts for Health Promotion in Nursing Carol A.

Miller, 2013-03-27 This addition to the Fast Facts series provides a succinct guide for nurses in adult health clinical settings and fills the need for an easy to use clinical reference that delivers a quick access reference on ways to incorporate wellness into their work helping to improve patient outcomes and throughout their daily lives helping to reduce personal and professional stress and improve their overall wellness There currently is no clinical reference book that nurses can use for health promotion in general and health promotion for wellness in particular Having such a reference is especially pertinent to nurses who learned about health promotion in academic nursing programs but did not learn about health promotion in the broader context of promoting wellness Since Florence Nightingale nurses have considered health promotion interventions particularly patient education as an essential component of nursing care Historically these interventions traditionally focused on physical health concerns such as nutrition exercise and fresh air and more recently on immunizations and screening for disease e g cancer diabetes hypertension and cardiovascular disease Because health promotion has expanded to include wellness nurses now address issues related to broader aspects such as stress reduction body mind connectedness and self responsibility At the same time that wellness has become an important focus of care health care providers increasingly are emphasizing cost effectiveness and use of advanced technology As a result of these concurrent trends nurses experience high levels of job related stress and have less time to promote patient wellness as an integral part of their care even though they recognize its importance In addition nurses increasingly recognize that job related pressures negatively affect them personally and they are looking for ways to incorporate wellness in their work and personal experiences Fast Facts for Health Promotion for Wellness FF HP fills the need for an easy to use clinical reference that delivers a quick access reference on ways to incorporate wellness into their work and throughout their daily lives This book Helps nurses understand wellness in the context of health promotion Clearly defines wellness as it applies to the practice of nursing Describes evidence based techniques that nurses can readily incorporate into their usual care to promote wellness for their patients Provides easy to use assessment tools for identifying wellness related needs of patients Provides easy to use tools for teaching patients about interventions to promote wellness Provides evidence based information about complementary and alternative practices that nurses often address in patient care situations Provides information about reliable resources for patient teaching and additional information about topics Discusses ways in which nurses can achieve self wellness
